2014 - 2015 Online Catalog

Welcome to ATC's online catalog. We hope you find it convenient and easy to use. If you experience any problems or incorrect links please [contact us](#).

This online catalog has been designed to make it easy to learn about our many programs of study and classes offered. You can click on links wherever you see underlined text in blue type.

The navigation to the right will take you to all the major chapters in the catalog.

Under each program of study you will find links summarizing all the classes required to earn the relevant degree, diploma, or certificate.

About ATC

Aiken Technical College is an equal educational opportunity institution and does not discriminate on the basis of race, color, national origin, sex, disability, or age in its programs and activities. Aiken Technical College complies with Title IX of the Education Amendments of 1972, Titles VI and VII of the Civil Rights Act of 1964, the Civil Rights Act of 1991, Sections 503/504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990 and the Vietnam Era Veterans Re-adjustment Assistance Act, as

well as other applicable federal and state laws. The following individuals have been designated to handle inquiries regarding the college's non-discrimination policies:

For employee inquiries, contact

Sylvia Byrd
Director of Human Resources
Aiken Technical College
P.O. Drawer 696
Aiken, SC 29802
(803) 508-7494

For student inquiries, contact

Dr. S. Vinson Burdette
Dean of Enrollment Services
Aiken Technical College
P.O. Drawer 696
Aiken, SC 29802
(803) 508-7244

or

Director, Office of Civil Rights
Department of Education
Washington, DC 20201

Aiken Technical College is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award Associate degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of Aiken Technical College.

Aiken Technical College makes no claim that a particular course of study will guarantee a certain position of employment.

Aiken Technical College reserves the right to change admission requirements in any manner it deems necessary. The college also reserves the right to drop, add or change the arrangement of courses, curricula, academic standards or requirements for retention or graduation. Changes in regulations go into effect when announced by faculty or the administration. New regulations may govern both continuing and new students without actual notice to individual students. Information on changes will be available from your advisor or appropriate administrative offices and will be published in subsequent

issues of the catalog.

Catalog Rights

A student admitted to ATC is granted the right to complete programs as stated in the college catalog at the time of initial matriculation to the program if the student continuously earns credit each semester, not including summer terms. The maximum time for a student to maintain catalog rights is seven years.

Notice of Student Responsibility: Failure to read this publication does not excuse students from rules and procedures described herein. Personal factors, illness or contradictory advice from any source are not acceptable grounds for seeking exemption from these rules and procedures.

The college reserves the right to make changes in course requirements as long as the total number of credits required for completion of the program does not change. A student who must reapply for admission enters the college under the catalog in effect at the time of readmission.

Vision & Mission

Vision: We envision Aiken Technical College as a catalyst for developing educated, engaged and employable individuals whose collective energy will be the driving force for prosperity and the quality of life in our diverse communities.

Mission: Aiken Technical College is a public, open-door, two-year, comprehensive institution of higher education established to provide citizens of greater Aiken County opportunities for educational, economic, professional, civic and personal development. Through its focus on teaching and learning, the college supports economic growth and community development by educating and training students for entry into the workforce or for further higher education.

History of Aiken Technical College

Classes for what is now Aiken Technical College began in temporary facilities in Aiken in the fall of 1972. One hundred and seventy-seven students enrolled in the first class of what was then the Aiken Technical Education Center. The current campus opened in the winter of 1973.

The original ATC campus consisted of three buildings constructed at a cost of \$2.3 million — \$800,000 provided by Aiken County and the remainder from federal education grants.

Founding President Ashley J. Little led ATC from its beginning as a vocationally based training center to its accreditation as a two-year technical college in 1975. The college's name was changed to Aiken Technical

College in 1977. President Little also presided over the campus' second phase expansion, a \$3.5 million addition of buildings, classrooms, laboratories and a greatly expanded library. President Little served ATC and the South Carolina Technical College system for 14 years before his retirement in 1984.

Dr. Paul L. Blowers became the second president of ATC in July 1984. During the decade that Dr. Blowers presided over the campus, ATC grew from 1,104 academic and continuing education students to more than 3,300 students. ATC also increased its course offerings, added two college transfer degrees and built a \$3 million Student Activities Center financed by student fees. Dr. Blowers retired in 1994.

Dr. Kathleen A. Noble became the third president of ATC in June 1994. During her tenure, ATC added many allied health, business, and industrial management and safety courses and programs to its curriculum. The college also developed new partnerships that allowed ATC to provide around-the-clock training and educational services on plant sites. Dr. Noble was a major force in matching college services with areas of the community that might best take advantage of them. The college also broke ground on the \$5.375 million, 40,000-square-foot Dale Phelon Information Technology Center during her tenure. Dr. Noble left ATC in 1999.

Dr. Susan A. Winsor became ATC's fourth and current president in September 1999. She oversaw the construction of the Dale Phelon Information Technology Center that opened for classes in the fall of 2000. She also oversaw the construction of the \$3 million, 30,000-square-foot CSRA Manufacturing and Technology Training Center that came online in the summer of 2001. When classes began in the fall of 2003, students and faculty welcomed the opening of the campus' latest addition under her leadership, a \$7.6 million, 52,671-square-foot Health and Science Building.

Aiken Technical College dedicated its student commons in honor of Senator Tommy L. Moore in the spring of 2004, in recognition of his efforts to ensure that the Health and Science Building remained in the 1999 bond bill and that the Dale Phelon Information Technology Center remained in the 1997 bond bill.

The 700 Building came back online in January 2005 after extensive and complete renovation, and now provides students with an Academic Success Center and a testing center, as well as a revitalized campus amphitheater, which is often used for community meetings and events.

Renovations to freshen classrooms and offices in the Ashley J. Little Administration Building began in 2006 and were completed in 2008.

In the summer of 2012, ATC began renovations on a \$1.5 million 6,090-square-foot Enrollment Services Center in the Ashley J. Little Administration Building. The center, which combined the college's Admissions and Records, Financial Aid and Advising departments into one convenient location, came online in early 2013.

While the ATC campus has grown, so has its enrollment. More than 3,900 students enroll in credit courses annually, and ATC's non-credit offerings reach over 8,000 people each year.

More than four decades after its founding, ATC has grown into a multi-service, two-year comprehensive college offering numerous educational opportunities in university transfer, health, public service, business, industrial technology, engineering technology, nuclear technology and computer technology programs.

Academic Policies

Aiken Technical College is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award associate degrees. Upon successful completion of program requirements, ATC awards the Associate in Arts degree, the Associate in Science degree, Associate of Applied Science degrees with business, health, or technical majors, diplomas and certificates.

Education Division

The Business, Computer Technology and Training Division, General Education Division, Health Science Division and the Technical Education Division offer degrees, diplomas and certificates. The mission of these academic divisions is to serve students by offering quality courses, programs and instructional support services.

Core Educational Outcomes

Aiken Technical College endorses and promotes the following core educational outcomes for all degree and diploma students:

1. Graduates will demonstrate effective speaking, reading, and writing skills.
2. Graduates will solve problems using the critical thinking steps to identify, collect, analyze, develop and evaluate information.
3. Graduates will demonstrate quantitative skills and analysis appropriate to their area of study.
4. Graduates will understand contemporary social values and develop an awareness of cultural diversity.
5. Graduates will demonstrate computer and technological proficiency within their area of specialization.

Degree, Major and Emphasis or Concentration

The following definitions are offered for clarification:

- **Degree:** A broad area of study within a specialization
- **Major:** A general area of study within a specialization
- **Emphasis or Concentration:** A more specific area of study within a specialization

Advanced Standing

A student who has had similar or equal educational experiences to those required in ATC's curricula may be granted advanced standing upon approval of the courses for transfer and the successful completion of required exemption examinations.

Advanced Placement Tests

ATC accepts results from the College Level Examination Program (CLEP), DANTES (DSST),

2014 - 2015
Student Handbook

International Baccalaureate (IB) and the Advanced Placement (AP) tests for advanced placement and exemption of classes.

The College Board (AP), DANTES, and Education Testing Service (CLEP) provide guidelines for awarding credit based on their respective tests. These guidelines are followed by ATC in awarding credit.

International Baccalaureate Credit (IB)

Aiken Technical College will award credit for completion of an IB course with an examination grade of “4” or higher. IB courses taught through the Advanced Placement program (AP) will require a score of “3” or better on the AP examination. Students should notify Enrollment Services that they have earned these scores in order for the Enrollment Services Center to officially post their credit(s).

For each level of credit to be awarded, a specific course prefix and number are listed as an exemption on the student’s transcript. The college updates the list of scores as new information is received from the testing agencies. The student must achieve the following scores to receive college credit:

Institutional Credit By Exam

Where approved by the department chair, students may take exemption exams for courses in subject

matter they believe they have already mastered. Students must apply to the department chair and pay the required fee of \$30 before taking the exemption exam. If the request is denied or the student does not pass the exam, the student must take the course to obtain credit for it. The exam fee is non-refundable.

Military Training Credit

ATC is a member of Service Members' Opportunity College Associate Degree (SOCAD) and awards credit for military training and DANTES test scores based on recommendations made by the American Council on Education in its *Guide to the Evaluation of Educational Experiences in the Armed Services*.

When actual training is verified through the appropriate military documents (DD-214 and DD-295), the training descriptions and recommendations from the *Guide* may be routed to the Education Division so that specific equivalent courses at ATC can be assigned credit on a pass/fail basis or an exemption credit can be given.

Advisement

Academic advisement is an essential component of each ATC student's achievement of his or her educational, career, and personal goals. This achievement is accomplished through the utilization of a full range of college and community resources. To be successful, each student must establish a positive rapport with his or her advisor. Together, the student and advisor will develop a program completion plan which will lead to graduation.

To successfully complete an academic program at ATC, each student should be aware that advisees (students) have a number of responsibilities. Advisees must:

1. State and explain personal goals, values, abilities, inabilities, and interests.
2. Contact the assigned advisor periodically to keep the lines of communication open and to keep the advisor aware of changes, problems, etc.
3. Make appointments for advisement and registration as early as possible to get the classes desired and keep all scheduled appointments. As a courtesy, we ask that advisees always call if canceling an appointment and reschedule if needed.
4. Become aware of the college's policies and procedures as outlined in the ATC Student Handbook.
5. Bring all essential documents and materials needed for advisement and scheduling.
6. Accept responsibility for all decisions regarding career, educational and personal goals.

Attendance Requirements for Satisfactory Progress

It is the policy of Aiken Technical College to encourage and support student academic achievement and progress by adopting an 80 percent minimum attendance policy for all credit classes. The calculation of absences begins with the date of the first class meeting. (The only exception to this requirement is in those courses which permit enrollment on an ongoing basis.)

1. One absence is defined as failing to attend one hour of class, lab, or shop. For example, if a class meets two hours per day and a student misses one of those hours, then he or she is charged with one absence.
2. A student should attend all class and lab meetings. Individual faculty members are authorized to set attendance standards higher than the 80 percent minimum to reflect the needs and objectives of a given course. It is the student's responsibility to see the instructor about missed work.
3. Withdrawals: The student is responsible for contacting his or her instructor(s) and asking to be withdrawn online. Disciplinary and administrative withdrawal cases are exceptions.
4. Violation(s) of attendance requirements may change the eligibility of the student for financial

aid or veterans benefits.

Auditing Courses

A student who desires to attend classes regularly but does not wish to take examinations or receive grades or credit may register as an audit student. The decision to be an audit student must be made at the time of registration and approved by the faculty member. Once the class has started, the status cannot be changed.

Once a student has enrolled to audit a course, he or she cannot take the course for credit or vice versa within the same semester. An audit student may choose whether to participate in class discussions and take tests. An audit student must pay the same fees charged to students taking the class for credit.

Changing Schedules

A student may change schedules through the add/drop period each semester.

To add or drop a course during the add/drop period, the student may use WebAdvisor or go through his/her advisor.

Course Exemptions

Exemption exams (institutional Credit by Exam) are available for any student who wishes to avoid repeating subject matter which has already been mastered. A student seeking to exempt courses for which he/she has not already registered must complete an Exemption Exam Request Form available through the Enrollment Services Center. If the exam request is approved by the Department Chair, a \$30 fee will be charged for the exam. Upon the successful completion of the exam under supervision, a grade of "E" will be entered on the student's transcript for the class exempted. If the student does not pass the exemption exam, he or she must enroll through normal procedures in order to receive credit. See "[Advanced Standing](#)"

Retention Alert

The college's Retention Alert Program is designed to support student success. Instructors utilize Retention Alert to refer students who face academic or personal challenges in relation to class performance. Examples include frequent absences, poor performance on assignments or tests, or a number of other issues. Through Retention Alert, students are referred to the Academic Success Center, Counseling Services, the Enrollment Services Center, or other student services.

Grade Point Average

A grade point average (GPA) is maintained for each credit student. The grade point average is determined by dividing the sum of the grade points earned for each course by the total number of credit hours attempted.

A program GPA of 2.0 is required for graduation. To determine GPA, numerical value grade points are assigned to final grades as follows:

- A = 4 points
- B = 3 points
- C = 2 points
- D = 1 point
- F = 0 points

Grades

Aiken Technical College students are awarded one of the following grades for each course in which they are officially enrolled based on the stated criteria:

1. A* - Represents excellent work as demonstrated by ability to master course content. "A" is used in GPA calculations, earns credit hours, and carries a value of four grade points for each credit hour.
2. B* - Represents above average work as demonstrated by mastery of a significant portion of course content. "B" is used in GPA calculations, earns credit hours, and carries a value of

three grade points for each credit hour.

3. C* - Represents satisfactory work as demonstrated by an average mastery of course content. "C" is used in GPA calculations, earns credit hours, and carries a value of two grade points for each credit hour.
4. D* - Represents work which is below average and shows a minimum comprehension of course content. "D" is used in GPA calculations, earns credit hours, and carries a value of one grade point for each credit hour.
5. F*- Represents a failure to meet minimum course objectives. "F" is used in GPA calculations, earns no credit hours, and carries zero grade points for each credit hour attempted.
6. I - Represents "Incomplete" and is assigned at the discretion of the faculty member when a student has made satisfactory progress toward meeting the course requirements but (a) has not satisfactorily completed a final project or assignment, (b) has not taken and/or passed all required tests and has been given the option of a makeup test, or (c) has missed the final exam for an acceptable reason but has not made up the exam by the time grades are due. An "I" does not affect GPA calculations, earns no credit hours, generates no grade points, and defaults to "F" automatically after one semester unless the instructor denotes a different grade. It is the student's responsibility to resolve an "I" grade prior to the end of the following semester.
7. E - Represents "Exempt" and is used when a student passes an AP, CLEP, DANTES, IB or exemption exam for a particular course, or demonstrates proficiency in the skills or content to be mastered in that course through continuing education credits (CEUs), work experience, experiential or military experience training. "E" is not used in GPA calculations and does not generate grade points but does earn credit hours.
8. TR - Represents "Transfer Credit" and is assigned for allowable equivalent credit earned at other colleges for which a minimum grade of "C" was earned. "TR" is not used in GPA calculations and generates no grade points but does earn credit hours.
9. AU - Represents "Audit" and is not used in GPA calculations, earns no credit hours, and carries no grade points.
10. U - Represents "Unsatisfactory" and denotes unsatisfactory progress in a Continuing Education course. "U" does not affect GPA calculations, earns no credit hours or Continuing Education Units (CEUs), and generates no grade points.
11. W - Represents "Withdrawn" and is used in either of the following cases: (a) a student withdraws after the end of the add/drop period but on or before the midterm date or (b) a student withdraws from classes after midterm because of extenuating circumstances and is passing those classes in which he or she is enrolled. "W" is not used in GPA calculations, earns no credit hours, and carries zero grade points for each credit attempted.
12. WF - Represents "Withdrawn Failing" and may be used when a student is failing and formally withdraws from a class after midterm. "WF" is used in GPA calculations, earns no credit hours, and carries zero grade points for each credit hour attempted.

* Note: Grades awarded for developmental courses will not be used in GPA calculations. A guide to calculating GPA is in the Student Handbook.

Dean's List

Both full- and part-time students who are in college credit degree, diploma or certificate programs and who meet specified criteria are eligible for the Dean's List.

A student must meet the following criteria:

1. Complete a minimum of nine (**non-developmental**) semester hours for credit courses;
2. Achieve a minimum 3.50 grade point average.

Note: A student who receives a final grade of "I," "F," "WF" or "W" in the semester is not eligible for the Dean's List.

This notification comes from the Enrollment Services Office after grades are received each semester.

Grade Change

A student who believes that an error has been made in the assignment of a grade should contact the faculty member involved as soon as possible. Failure to act within five working days of the next semester disqualifies the student from further consideration.

Review of Student Grades (Appeals)

The assignment of grades should be based on information provided in the course syllabus. Therefore, grades are given at the discretion of the faculty member and course grades are not subject to an appeal through the Dean of Student Development. Students must seek a review of their assigned grade through the faculty member, department chair, dean, and Vice President of Education and Training.

Graduation

Commencement exercises to award Associate's degrees, diplomas and certificates are held annually on campus. A student is eligible for graduation when he/she completes the requirements for a degree, diploma or certificate. The student must complete an Application for Graduation and turn in the form to the Enrollment Services Center by the deadline for the appropriate semester.

Graduation Requirements

All students who expect to receive a degree, diploma or certificate from Aiken Technical College must complete a number of requirements.

Specific course requirements for each major are defined later in this catalog. Regardless of the level of award, all students must meet the following requirements:

- 1. Complete all general education requirements specified for the award.
- 2. Complete all program credit hours.
- 3. Complete all academic course credit with a minimum of a cumulative 2.0 program grade point average (GPA).
- 4. Complete all residency requirements (courses taken at ATC) as specified for each award. A student must take and earn a minimum of 25 percent of credits required for graduation from a degree, diploma or certificate program of study at Aiken Technical College. Regardless of the comparability of courses and the number of courses successfully completed at other accredited post-secondary institutions, a student must successfully complete a minimum of three higher-level courses (as determined by the academic advisor) representative of the major program or discipline at Aiken Technical College. The total of both courses accepted for transfer and courses exempted cannot exceed 75 percent of the credits required for completion of a program.
- 5. Complete all financial obligations to the college.
- 6. Complete all proper applications for graduation by the established deadline.
- 7. A student who achieves a cumulative 4.00 grade point average qualifies to graduate "With Highest Honors." A student who achieves a cumulative 3.75-3.99 grade point average qualifies to graduate "With High Honors." A student who achieves a cumulative 3.50-3.74 grade point average qualifies to graduate "With Honors."

Honors (Graduation)

- A. A student who achieves a cumulative 4.00 grade point average qualifies to graduate "With Highest Honors."
- B. A student who achieves a cumulative 3.75-3.99 grade point average qualifies to graduate "With High Honors." A student who achieves a cumulative 3.50-3.74 grade point average qualifies to graduate "With Honors."

Repeating Courses

When a course is taken more than once, only the last grade earned for the course is calculated in the program and cumulative GPA.

Standards of Progress

Satisfactory Academic Progress

To remain in good standing, a student enrolled in regular curriculum classes must maintain a 2.0 grade point average (GPA). Financial aid students must also meet other Standards of Academic Progress as outlined in the "Award Terms and Conditions" brochure.

- A. Degree, Diploma and Certificate Programs: A program GPA of 2.0 is required to graduate from any degree, diploma or certificate program.
- B. Career Development: A student enrolled as Career Development (CD) must comply with the

same standards of progress as described above.

- C. Developmental Education Courses: An ATC student enrolled in developmental education courses must make satisfactory academic progress in each discipline in which he or she is enrolled in order to proceed to the next course. This requires a student to earn a grade of "A," "B" or "C" in all developmental education courses.

Academic Warning

The first time a student fails to meet academic standards (semester GPA and/or GPA below the required cutoff hours attempted), he/she faces the following actions:

- 1. The student is urged to seek study skills assistance or counseling.
- 2. The student is restricted to taking no more than twelve semester hours in the fall or spring semester (nine semester hours during the summer term).

If a student raises his/her semester average above the minimal standards but his/her cumulative GPA remains below standard, the student remains on Academic Warning status with the same limitations noted above.

Academic Probation

If both the semester and cumulative GPAs are still under a 2.0 GPA after one semester in Academic Warning status, the student faces the following actions:

- 1. The student must take any needed developmental course(s).
- 2. The student is limited to nine semester hours in fall or spring semester (six during summer session).
- 3. The student should note the potential for Suspension following the "Probation" semester if he/she does not maintain the required GPA for the term. In addition, if either the semester or cumulative GPA remains below standard, the student will remain on Probation with all of its limitations.

Academic Suspension

If both the cumulative and semester GPAs are below a 2.0 GPA after one semester in academic probation status, the student will be suspended for one semester. If the student has extenuating circumstances and wishes to appeal the one-semester suspension, he/she may appeal in writing to the Director of Career Development Services. A student is not immediately readmitted under normal circumstances.

Actions:

- 1. A letter will be sent to the student with the status and instructions for appeal.
- 2. The student is prohibited from enrollment for ONE SEMESTER unless he/she successfully appeals. (Summer term does not count as a suspended semester.)

The initial decision of the designated college official regarding suspension may be further appealed to the Dean of Enrollment Services. After consultation with the student and evaluation of the circumstances, the Dean of Enrollment Services rules on the student's appeal. The decision of the Dean of Enrollment Services regarding suspension is final.

If the student is readmitted on appeal or has been readmitted after serving a semester of non-attendance, he/she will be continued/readmitted on PROBATIONARY status with a limit of nine semester hours.

Academic Dismissal

If a student is readmitted to ATC and fails to maintain a 2.0 GPA during the readmission semester, he/she will be dismissed from the college.

Actions:

- 1. A letter will be sent to the student with the status and instructions for appeal.
- 2. The student is prohibited from further academic enrollment at ATC unless readmitted on probationary status after one full year of non-attendance. See "Readmission after Suspension or Dismissal" below.

Suspension/Dismissal Appeals

Suspension or dismissal for academic reasons is based on the college's Standards of Progress. Students in academic difficulty usually benefit from a period of time to refocus their academic pursuits, earn support funds and review career decisions. Therefore, the college will require these students to withdraw from the college for a selected period of time. Appeals of this suspension or dismissal are made to the Dean of Enrollment Services or his/her designee.

Examples of acceptable extenuating circumstances for appealing Academic Suspension:

1. Hospitalization for an extended period of time (doctor's verification must be attached to appeal).
2. Divorce/separation/family crisis causing extreme hardship (Divorce Decree, Separation Agreement, or other verifiable documents must be attached to appeal).
3. Death or serious illness in the immediate family causing extreme hardship (a verifiable document must be attached to appeal).
4. Other verifiable circumstances causing hardship and significantly contributing to poor academic performance (a verifiable document must be attached to the appeal).

Examples of non-acceptable circumstances for appealing Academic Suspension:

1. A low GPA
2. Transportation problems
3. Changes in employment schedule
4. Failure to withdraw officially from classes
5. Taking too many courses or taking the wrong courses
6. Minor illness in immediate family
7. Childcare problems

Readmission after Suspension or Dismissal

Aiken Technical College recognizes that the circumstances of a student who has been academically suspended or dismissed may change. A student who has been academically suspended or dismissed may be readmitted after one full academic year of non-attendance.

To be readmitted, the student must appeal to the Dean of Enrollment Services in writing, asking for an interview to explain how his/her circumstance has changed. After the student completes an interview, a decision will be made regarding the student's request to be readmitted.

If readmitted under this policy, the student is readmitted on probationary status and can take a maximum of nine credit hours. He/she will be permanently dismissed from the college if he/she does not earn a 2.0 GPA for the semester of readmission. The student's cumulative GPA is not adjusted upon re-entry to the college.

Withdrawal/Termination and its Effect on Satisfactory Progress for all Students Enrolled in Credit Courses

1. The withdrawal period begins on the first day of class after the add/drop period.
2. A student must initiate a withdrawal form on or prior to the midterm date to receive a grade of "W."
3. A student who is failing and withdraws after the midterm date or whose last date of attendance is after the midterm date may be assigned a grade of "WF."
4. A student who is failing and fails to initiate a withdrawal before the final exam period receives a grade of "F" for the course.

Enrollment Services

ADMISSIONS POLICIES

Aiken Technical College has an "open-door" admission policy, which means any adult citizen who can benefit from available learning opportunities can enroll. Students are placed into specific courses and programs of study based on their potential for success regarding the expected standards of performance.

All applicants must possess a high school diploma or its equivalent or they must be at least 18 years old to be considered for admission into curriculum programs and courses

offered by the college. Eligible high school students who desire to enroll in one or more college courses concurrently with their high school classes may do so with the written authorization of their parent(s) or guardian(s) and high school guidance counselor.

Non-graduates and graduates of South Carolina high schools who have received a "certificate," not a diploma, are strongly urged to return to their high school district to complete the diploma or GED. However, potential students who meet minimum scores on the college's placement exam will be admitted to the college.

All applicants are required to participate in placement testing (assessment) prior to acceptance. Applicants may seek exemption to this policy according to the criteria stated in college procedures on placement testing. Specific requirements have been established for individual program entrance.

Applicants who require additional preparation for college-level work will be required to enroll in developmental courses to develop the necessary basic skills in English, reading and mathematics or take classes through the Adult Education Office of the Aiken County School System.

The college reserves the right to refuse readmission to any applicant who has an unacceptable academic or conduct record. Individuals with financial obligations to the college must resolve these obligations before they will be allowed to register for classes.

Admissions Process

All applicants must:

1. Complete and submit an application for admission online. An application fee of \$10 will be required
2. Complete the placement test, or submit acceptable SAT or ACT scores. The placement test may be waived for applicants possessing acceptable college work from regionally accredited colleges or universities. All applicants will be required to take the math portion of the placement test regardless of their math scores on the SAT or ACT.
3. Submit an official high school transcript. In order to ensure the validity of a student's high school completion, official transcripts must be received in a sealed (closed) envelope and must note the graduation date. If it does not meet both of these criteria, then the transcript will be considered unofficial and the college will be unable to validate your graduation.

2014 - 2015
Student Handbook

Transcripts are used for financial aid, academic advisement and other purposes. The transcript is required for admission purposes if the applicant is applying for a LIFE scholarship, entry into Nursing or a Health Sciences program or wishes to use the high school transcript to provide evidence of SAT or ACT scores (taken within the last four years) to satisfy placement requirements. Applicants possessing a high school equivalency certificate (GED) or a diploma from an adult basic education program are asked to provide the Enrollment Services Center with documentation of successful GED completion.

Transcripts should be sent to:
Aiken Technical College
Enrollment Services Center
P.O. Drawer 696
Aiken, S.C. 29802

Placement Tests

Applicants are placed into specific courses based on successful previous college course work, SAT scores, ACT scores or the Aiken Technical College Placement Test (COMPASS). Other admission tests and criteria may be required for admission to specific academic programs.

These special requirements are outlined in the [Programs Of Study](#) section of the catalog.

Applicants for curriculum programs must be assessed for course placement unless exempted.

Placement retests are \$25 each.

Exemptions may be granted if an applicant meets one or more of the following criteria:

1. The applicant has earned a grade of "C" or better in appropriate college-level English and college-level algebra courses taken at a regionally accredited college or university.
2. The applicant has earned advanced placement credit for English and/or mathematics on CLEP and/or AP exams recognized by the college.
3. The applicant has taken the Aiken Technical College Placement Test (COMPASS).
4. The applicant has earned an Associate's degree or higher from a regionally accredited college or university (must include college-level English and algebra).
5. The applicant is not pursuing an academic award and desires to be admitted to take a specific course or courses as a Career Development student. The applicant must meet course prerequisites or have acquired an Associate's degree or higher from a regionally accredited college or university.

Students taking the placement test in the Test Center must present their Social Security number and a valid government issued picture ID.

Students with documented disabilities may request special placement testing accommodations to ensure optimum performance by contacting Student Development.

Enrollment Services Center
100/200 Building
Room 152
(803) 508-7263

Admission Requirements

Admission to Associate in Applied Science, Associate in Arts and Associate in Science programs of the college requires completion of identified prerequisite courses. Therefore, students who are enrolling in college for the first time will automatically be placed in the certificate program that corresponds to the student's program of interest. Students will meet with their advisors and complete a "Change of Program" form when they have completed the prerequisite courses for their AAS, AA or AS degree program. This system ensures that students have the necessary skills to be successful in their respective programs.

Individual programs may have additional admissions requirements. Information about such requirements may be obtained from a program advisor.

Registration for Classes

Academic registration is designed to establish student/advisor rapport in a relaxed environment and to allow the student to complete the registration process in a non-stressful time frame.

A continuing student must make an appointment with his/her academic advisor to discuss academic progress and to select courses.

Registration for the next semester opens several months in advance. Students should watch for an announcement through the MyATC portal about registration dates.

Resident Status

A legal resident of South Carolina is one who has his/her legal domicile in the state for a period of 12 months prior to the first day of the semester.

It is important that each applicant for admission and each enrolled student understand the regulations governing resident status and know his/her resident status for tuition and fee payment. A person incorrectly classified as a resident is subject to reclassification and payment of all non-resident fees.

If an incorrect classification results from false or concealed facts, a student may be charged tuition and fees retroactively at the out-of-state rate. Inquiries regarding residency status should be directed to the Enrollment Services Center.

SC Illegal Immigration Act

Under South Carolina state law, the programs and services of Aiken Technical College are available to United States citizens and eligible, documented non-citizens. Each semester new students will be verified as eligible to participate in college programs and services. Additional information may be requested from students as a part of this process.

Special Admission Categories

Students interested in any of ATC's Health Sciences Programs resulting in degrees, diplomas or certificates must go through a separate Health application process. Health information packets are available on [our website](#).

Many of these programs are highly selective. Students must meet additional requirements in order to qualify for admission.

Students wishing to go into Nursing and Allied Health must meet with an enrollment advisor. When applying to programs with selective admissions, students must provide an additional student copy of any and all college transcripts with their selective admissions application.

Note: Student copies must be requested during the current semester in which they are applying for a selective admissions program. Applications for selective programs are updated annually. Students should review current applications to see additional requirements.

Career Development Students

An applicant who is not pursuing an academic credential and desires to be admitted to take specific courses as a Career Development student must meet course prerequisites or have acquired an associate degree or higher from a regionally accredited college or university. If a student chooses to change to a regular program of study at a later date, placement tests may be necessary. Undecided students not selecting a specific program of study may be placed in Career Development status.

A Career Development student is not eligible for federal financial aid programs (e.g. Pell Grants), S.C. state financial aid programs, scholarships or veterans benefits.

High School/Home School Students

Students may want to start college while still attending high school or home school; a great way to get an early start on a college education.

To apply for dual and concurrent enrollment opportunities through Aiken Early College, please access the Aiken Early College application in PDF format [here](#).

International Students

In addition to meeting regular college and program admission requirements, international applicants must also meet the following requirements if an Immigration and Naturalization Form I-20 is required:

1. Complete Admissions Application
2. Complete International Student Fact Sheet
3. Current Passport and any Visa (if applied for earlier)
4. Submit required documents:
 - A. Academic Transcript and TOEFL Scores Requirements (Documents)
 - o Academic transcripts need to be translated in English
 - o High school transcripts indicating four years of secondary education (9-12)
 - o College transcripts (must be in English)

Submit an official TOEFL Score- Minimum of 500 (paper version, 190 (computerized version) or 61 (internet based version)

- ACT or SAT scores
- B. Financial Requirements (Documents)
 - Submit a financial statement(s) minimum balance of at least one years' cost of attendance \$19,244.00.
 - "Affidavit of Support"—(BCIS form I-134)
 - Submit a certified check, for tuition for the first academic year.
- C. Health Insurance Requirements (Documents)
 - Proof of health insurance that insures coverage in the United States
 - Immunization record

Additional information about international admissions can be obtained from the Enrollment Services Center. An international student should begin the admission process at least six months prior to the semester for which he/she seeks admission.

Readmission/Readmitted Students

Former Aiken Technical College students who were not enrolled for the preceding two semesters (excluding the summer semester) and who wish to re-enroll must complete a new application for admission prior to re-entry. Students who have attended another college during the interim should ask that college to send an official transcript to the Enrollment Services Center.

Applicants for readmission must meet current admissions criteria (including testing and placement requirements) and are subject to any new graduation requirements in effect at the time of readmission.

Senior Citizens

Applicants who are at least 60 years of age and legal residents of South Carolina may enroll in classes on a space-available basis without paying tuition. These applicants must meet regular admission requirements, submit an application and pay all applicable fees other than tuition. Senior citizens who are employed full-time are not eligible for a tuition waiver.

Transfer Students

Applicants who have attended a regionally accredited college or university should request that all colleges previously attended send official transcripts directly to the ATC Enrollment Services Center.

These transcripts will be reviewed to determine whether the placement testing requirement will be waived and if transfer credit may be awarded. Unofficial transcripts are used only for admission purposes and are not evaluated. Transfer students are urged not to enroll in any course(s) for which transfer credit is being sought until the transfer question is resolved.

If a current catalog from the college where previous courses were taken is not on file, the student is responsible for providing a catalog with official descriptions of courses to accompany the transfer request.

Transfer Credit

The Enrollment Services Center evaluates "official" college transcripts for transfer of credit for applicants and students. Official transcripts are sent directly from one college to another, presented in a sealed envelope from the previous college or sent via electronic data exchange. If the transcript is opened it will not be considered official.

Students wishing to have courses evaluated that are not listed on our transfer guide should request an official transcript sent to the ATC Enrollment Services Center and send copies of course descriptions for courses they wish to have considered from the host college's catalog. The Enrollment Services Center will post the approved course(s) to the student's transcript and notify the student which courses transfer.

The following criteria are used to determine acceptability of prior college course work for advanced standing:

1. The final grade for the course(s) must be "C" or better.
2. The course(s) must have been taken at a regionally accredited institution; if from a nonregionally accredited foreign post-secondary institution, the courses must have been recommended by the NACES- member external evaluation service.
3. The course(s) must be applicable to the AA/AS or technical program in which the student plans to enroll in order for the course to be considered for graduation.
4. The course(s) must be college-level; no course that is remedial/developmental in nature will be accepted.
5. A major consideration in the evaluation of a course for transfer of credit is the equivalency of that course to an ATC course.
6. Appeals for transfer of credit should be made, in writing, to the Registrar or designee. Documentation such as course description and course syllabus will need to accompany the appeal.

Transfer Credit Limitation

A student must take and earn a minimum of 25 percent of credits required for graduation from a degree, diploma or certificate program of study at ATC.

Regardless of the comparability of courses and the number of courses successfully completed at other accredited post-secondary institutions, a student must successfully complete a minimum of three higher-level courses (as determined by the academic advisor) representative of the major program or discipline at ATC. The total of both courses accepted for transfer and courses exempted cannot exceed 75 percent of the credits required for completion of a program.

LIFE GPA: Transfer students are required to provide official high school and college transcripts for each institution attended. All college coursework attempted at another institution or while in high school will be calculated into the LIFE GPA formula. Students who wish to be considered for the LIFE Scholarship must request a LIFE GPA calculation by the Enrollment Services Center and complete a LIFE Scholarship Assessment Form.

Records Services

ATC Transcripts

ATC provides all official transcripts through an electronic transcript request system. The electronic transcript system allows students to electronically send their transcripts to postsecondary institutions, employers, military, and other entities at their request instantly, securely, and fully compliant with FERPA standards. Parchment, the transcript provider, will charge a standard fee of \$2.75 per request. Students can also have their official transcript mailed for additional fees and shipping. Parchment will accept payment only by debit or credit card.

Confidentiality of Records

Enrollment Services is authorized to release student information. This office adheres to the Family Educational Rights and Privacy Act (FERPA) regarding release of student information. A student who does not want directory information released should contact Enrollment Services and complete a form for non-release of directory information. Upon proof of dependency, parents or guardians may receive confidential information regarding their dependent student (see Release of Student Information [here](#)).

Enrollment Certification

Enrollment Services certifies a student's enrollment for previous loans (through the National Student

Loan Clearinghouse), parental insurance coverage, Department of Social Services requirements, employment and other purposes. Verification letters/forms will be processed/completed one week after the add/drop period. Letters/forms will be available at the front desk in Enrollment Services for student pick up. Verification letters/forms left for one month will be destroyed.

Graduation

A student who plans to graduate should obtain a graduation application from Enrollment Services. The form must be completed by the student's academic advisor, signed by the student and submitted to Enrollment Services according to the specified due dates.

Name/Address Changes

Enrollment Services makes an official change to the addresses on a student's records only through a student's written request (documentation should be presented) to Enrollment Services or documentation from the U.S. Postal Service. Address accuracy is essential for the student to receive information. This office also handles requests for residency changes for tuition purposes.

Verification of Grades/GPA

A student who needs to verify grades/GPA for automobile insurance, company reimbursement of tuition, or other purposes should contact Enrollment Services.

Guest Students

A student already accepted or enrolled at another college may enroll as a transient/guest student at ATC in order to transfer credits back to the primary college.

The guest student should be advised by the primary college concerning recommended courses to be taken at ATC.

An applicant for transient/guest student status must submit an [ATC Guest Student application](#). It is the responsibility of the guest student to request that an ATC transcript be sent to the primary college after completion of ATC courses.

Students will be registered by the Enrollment Services Center and will receive information via mail regarding access to their student email account and WebAdvisor. They also are not eligible for financial aid.

Search for... Programs of Study Courses

Transfer Policies

The South Carolina Commission on Higher Education (CHE) has established transfer policies and procedures which all public institutions must follow.

Obtaining Course Transfer Information

Course transfer information and services are available through ATC's Enrollment Services Center. Anyone interested in obtaining course transfer information may contact the Enrollment Services Center by phone at (803) 508-7263.

Courses Approved for Transfer

Under the Statewide Articulation Agreement: technical college courses may be transferable to public senior institutions. The courses listed on [Transferable Courses](#) in this catalog are approved for transfer. Consult the Course Descriptions section to determine which courses are offered at ATC.

A student enrolled in a program other than Associate in Arts or Associate in Science should consult the department chair of his or her program of study or the chair's designee for questions concerning transfer of courses into that program's curriculum. For further information regarding transfer, students may access the Commission on Higher Education's web site at www.che400.state.sc.us or Aiken Technical College's [web site](#).

Admissions Criteria, Course Grades, GPAs and Validations

All four-year public institutions will issue a transfer guide annually in August or maintain such a guide online. Information published in transfer guides will cover at least the following items:

- The institution's definition of a transfer student.
- Requirements for admission both to the institution and, if more selective, requirements for admission to particular programs.
- Institutional and, if more selective, programmatic maximums of course credits allowable in transfer.
- Information about course equivalencies and transfer agreements.
- Limitations placed by the institution or its programs for acceptance of standardized examinations (e.g., SAT, ACT) taken more than a given time ago, for academic coursework taken elsewhere, for coursework repeated due to failure, for coursework taken at another institution while the student is academically suspended at his/her home institution, and so forth.
- Information about institutional procedures used to calculate student applicants' GPAs for transfer admission. Such procedures will describe how nonstandard grades (withdrawal, withdrawal failing, repeated course, etc.) are evaluated; and they will also describe whether all coursework taken prior to transfer or only coursework deemed appropriate to the student's intended four-year program of study is calculated for purposes of admission to the institution and/or programmatic major.
- Institutional policies related to "academic bankruptcy" (i.e., removing an entire transcript or parts thereof from a failed or underachieving record after a period of years has passed) so that re-entry into the four-year institution with course credit earned in the interim elsewhere is done without regard to the student's earlier record.

Student Handbook

- “Residency requirements” for the minimum number of hours required to be earned at the institution for the degree.

South Carolina Transfer and Articulation Center (SCTRAC)

All two-and four-year public institutions will publish information related to course articulation and transfer, including but not limited to items A through D mentioned above, on the South Carolina Transfer and Articulation Center website (www.SCTRAC.org). Course equivalency information listing all courses accepted from each institution in the state (including the 86 courses in the Statewide Articulation Agreement) and their respective course equivalencies (including courses in the “free elective” category) will be made available on www.SCTRAC.org. This course equivalency information will be updated as equivalencies are added or changed and will be reviewed annually for accuracy. Additionally, articulation agreements between public South Carolina institutions of higher education will be made available on www.SCTRAC.org, will be updated as articulation agreements are added or changed, and will be reviewed annually for accuracy. All other transfer information published on www.SCTRAC.org will be reviewed at least annually and updated as needed.

Statewide Articulation of 86 Courses

The Statewide Articulation Agreement of 86 courses approved by the South Carolina Commission on Higher Education for transfer from two- to four-year public institutions is applicable to all public institutions, including two-year institutions and institutions within the same system. In instances where an institution does not have courses synonymous to ones on this list, it will identify comparable courses or course categories for acceptance of general education courses on the statewide list. This list of courses is available online at www.che.sc.gov as well as on www.SCTRAC.org.

Statewide Transfer Blocks

The Statewide Transfer Blocks established in 1996 will be accepted in their totality toward meeting baccalaureate degree requirements at all four-year public institutions in relevant four-year degree programs. Several Transfer Blocks were updated in March 2009: Arts, Humanities, and Social Sciences; Business; Engineering; and Science and Mathematics; the remaining Transfer Blocks, Teacher Education and Nursing, are currently being revised. The courses listed in each Transfer Block will be reviewed periodically by the Commission’s Academic Affairs staff in consultation with the Advisory Committee on Academic Programs to ensure their accuracy, and the Transfer Blocks will be updated as needed.

For the Nursing Transfer Block, by statewide agreement, at least 60 semester hours will be accepted by any public four-year institution toward the baccalaureate completion program (BSN) from graduates of any South Carolina public associate degree program in nursing (ADN), provided that the program is accredited by the National League for Nursing Accrediting Commission or the Commission on Collegiate Nursing Education and that the graduate has successfully passed the National Licensure Examination (NCLEX) and is a currently licensed Registered Nurse.

Any student who has completed either an Associate of Arts or Associate of Science degree program at any public two-year South Carolina institution that contains the total coursework found in the Arts, Humanities, and Social Sciences or the Science and Mathematics Transfer Block will automatically be entitled to junior-level status or its equivalent at whatever public senior institution to which the student might have been admitted. However, as agreed by the Advisory Committee on Academic Programs, junior status applies only to campus activities such as priority order for registration for courses, residence hall assignments, parking, athletic event tickets, etc. and not in calculating academic degree credits.

For a complete listing of all courses in each Transfer Block, see www.che.sc.gov/AcademicAffairs/TRANSFER/Transfer.htm.

Assurance of Transferability of Coursework Covered by the Transfer Policy

Coursework (i.e., individual courses, transfer blocks, and statewide agreements) covered within this transfer policy will be transferable if the student has completed the coursework with a “C” grade (2.0 on a 4.0 scale) or above. However, the transfer of

grades does not relieve the student of the obligation to meet any GPA requirements or other admissions requirements of the institution or program to which application has been made. In addition, any four-year institution which has institutional or programmatic admissions

requirements for transfer students with cumulative grade point averages (GPAs) higher than 2.0 on a 4.0 scale will apply such entrance requirements equally to transfer students from regionally accredited South Carolina public institutions regardless of whether students are transferring from a four-year or two-year institution.

Any coursework covered within this transfer policy will be transferable to any public institution without any additional fee and without any further encumbrance such as a "validation examination," "placement examination/instrument," "verification instrument," or any other stricture, notwithstanding any institutional or system policy, procedure, or regulation to the contrary.

Assurance of Quality

All claims from any public two- or four-year institution challenging the effective preparation of any other public institution's coursework for transfer purposes will be evaluated by the staff of the Commission on Higher Education in consultation with the Advisory Committee on Academic Programs. After these claims are evaluated, appropriate measures will be taken to ensure that the quality of the coursework has been reviewed and approved on a timely basis by sending and receiving institutions alike.

Transfer Officers

Each institution will provide the contact information for the institution's Transfer Office personnel, including telephone numbers, office address, and e-mail address, on its website and on www.SCTRAC.org. Transfer office personnel will:

- Provide information and other appropriate support for students considering transfer and recent transfers.
- Serve as a clearinghouse for information on issues of transfer in the state of South Carolina.
- Provide definitive institutional rulings on transfer questions for the institution's students under these procedures.
- Work closely with feeder institutions to assure ease in transfer for their students.

Statewide Publication and Distribution of Information on Transfer

The staff of the Commission on Higher Education will place this document on the Commission's website under the title "Transfer Policies." In addition, information about transfer, including institutional policies, course equivalencies, and articulation agreements, will be published and distributed by all public institutions through transfer guides and be made available on www.SCTRAC.org. Furthermore, course catalogs for each public two- and four-year institution will contain a section entitled "Transfer: State Policies and Procedures." This section will:

- Include the "Transfer Policy for Public Two-Year and Four-Year Institutions in South Carolina."
- Refer interested parties to www.SCTRAC.org as well as to the institutional Transfer Guide and institutional and Commission on Higher Education's websites for further information regarding transfer.

The 86 college transfer courses approved by the Commission on Higher Education are listed on [Transferable Courses](#).

Financial Aid

Statement of Good Practice

The Financial Aid Office adheres to the National Association of Student Financial Aid Administrators' Statement of Good Practice in the administration of all programs and in the disclosure of information to other parties.

Family Education Rights and Privacy Act (FERPA)

A student has the right to inspect and review his/her financial aid records. Such information may not be disclosed to others, including parents or guardians, without written consent. A form authorizing a parent or others to review student financial aid is available in the Enrollment Services Center.

Communication and Award Notices

The Financial Aid Office's (FAO) communication with students is through the student's WebAdvisor and campus e-mail accounts. These resources are accessible through the [ATC web site](#). It is the student's responsibility to view these resources daily.

Principles of Financial Aid

Students who have satisfactory academic records and are in need of aid may qualify for financial assistance. Although the primary responsibility for financing an education remains with students and their families, ATC participates in several programs designed to supplement the family contribution in order to meet the financial need of the student. Financial aid may consist of a grant, a scholarship, campus employment, a loan, or any combination of these as determined by the policies of the FAO.

The primary principles of administering financial aid programs are as follows:

1. Financial aid is designed to provide financial help to students who need additional resources to pursue their education and career objectives.
2. It is viewed only as supplementary to the efforts of the student and/or family.
3. It may take the form of a job, grant, scholarship, loan, or a combination of any of these.
4. It is based upon the student's ability to make satisfactory academic progress according to the college's Financial Aid Standards of Satisfactory Academic Progress (SAP), and
5. Financial aid can be reviewed, adjusted and/or cancelled at any time due to changes in funding levels and the financial or the academic status of the student as determined by the FAO.

To determine whether or not a student is eligible for federal student financial aid programs, the student

2014 - 2015
[Student Handbook](#)

and his or her family must complete the Free Application for Federal Student Aid (FAFSA) and submit all documents requested by the ATC FAO prior to [the financial aid priority deadlines](#) for priority consideration. Financial aid is not automatically renewable. The FAFSA must be submitted each year and should be completed on-line at [www.fafsa.gov](#). To expedite the process, the ATC FAO recommends applying for a PIN number with the Department of Education at: [www.pin.gov](#) prior to completing the FAFSA online for the first time. A parent of a dependent student must also obtain a PIN. A student should allow six to eight weeks for processing.

Students applying and completing their financial aid files late should prepare to pay for their cost of tuition, fees, books and supplies. If a student is deemed eligible after payment has been made, he or she will be reimbursed based on eligibility.

To participate in federal student financial aid programs, ATC is required by federal regulations to maintain a financial aid office that coordinates the delivery to students of all funds from all sources. Students who receive aid in addition to federal student financial aid are required to report the amount and source to the FAO.

Determination of Financial Need

ATC's financial aid programs assist students who have financial need determined by the Department of Education's federal processor. One of the principles behind need-based aid is that students and their families should pay for educational expenses to the extent they are able. A financial need exists if the resources of the family (expected family contribution or EFC) do not meet the total cost of attendance at the college.

The cost of attendance (student budgets) are estimates of the total costs a student incurs as a full-time student for the nine-month academic period. These costs include tuition, fees, books, supplies, room, board, personal and transportation expenses. Listed below is an estimated sample budget for the 2014-2015 nine-month academic year.

Aiken County Resident		
	Living w/Parent	All Others
Tuition & Fees*	\$3,866	\$3,866
Books/Supplies	\$900	\$900
Room & Board	\$1,800	\$4,050
Personal	\$1,500	\$1,500
Transportation	\$1,500	\$1,500
TOTAL:	\$9,566	\$11,816

Out-of-County Resident		
	Living w/Parent	All Others
Tuition & Fees**	\$4,226	\$4,226
Books/Supplies	\$900	\$900
Room & Board	\$1,800	\$4,050
Personal	\$1,500	\$1,500
Transportation	\$3,000	\$3,000
TOTAL:	\$11,426	\$13,676

* Estimated: Tuition and fees are subject to change each year.

** Estimated: Richmond/Columbia counties include the same components of Aiken County resident and Out-of-State Resident includes the same components of Aiken County Residents with the exception of Tuition and Fees.

Title IV Student Eligibility Requirements

A student must meet the following eligibility requirements to receive federal assistance:

- Have financial need as determined through the completion of the FAFSA (except for SC-LTAP and Federal Unsubsidized Direct Loan funding).
- Be enrolled or accepted for enrollment in an eligible program of study offering a certificate, diploma, or degree (continuing education and career development are not eligible programs).

- Be a regular student (continuing ed and transient students are not regular students).
- Have a high school diploma, GED, or earned 6 credit hours of college level coursework prior to the fall of 2012.
- Be a U.S. citizen or eligible non-citizen.
- Be registered with Selective Service (males only).
- Not owe a repayment of Title IV grant aid such as Pell, FSEOG, ACG, or Smart Grant.
- Maintain Title IV satisfactory academic progress.
- Not be concurrently enrolled in an elementary or secondary school.
- Have a valid social security number.

Eligible Programs/Courses and Enrollment Status

A student should only enroll for those courses required (or the prerequisites) for their specific program of study. Title IV aid will not pay for courses outside of the student's required curriculum unless those courses have been pre-approved by the advisor as a course substitution. Proper documentation must be on record in the Enrollment Services Center.

The original award letter is based on full-time enrollment for the academic year. A student who is not full-time will have his or her award prorated based on the actual hours enrolled and attended. Full-time status consists of enrollment in a minimum of 12 credit hours. Three-quarter time status consists of 9 to 11 credit hours; half-time status is 6 to 8 credit hours and less than half-time status is 1 to 5 credit hours. For example, a student that is awarded a Pell Grant for \$2,000 for full-time enrollment but only attends three-quarter time, will receive \$1,500 rather than \$2,000. If that student enrolls half-time, he/she will receive \$1,000 or if enrolled less than half-time \$500.

Drops, Withdrawals and Courseload Changes

Drops: If a student registers for a class and does not attend the class, the student must officially withdraw from the class by the end of the drop/add period to receive a refund and avoid applicable tuition and fee charges. Financial aid does not pay for classes that a student has dropped or failed to attend.

Withdrawals: If a student registers for classes and attends the classes past the drop/add period, the student will be charged applicable tuition and fees. If the student withdraws from the class, the student will still be entitled to his/her financial aid. However, if the student is a federal aid, (Pell, SEOG, or Direct Loan) recipient and withdraws from all classes prior to the ninth week of classes, the student may owe the college and the applicable federal aid program.

Courseload Changes: The student is required to notify the Financial Aid Office (FAO) of any courseload adjustments. The FAO will adjust the financial aid award accordingly. If the student does not notify the FAO, he/she may owe money to the college once the adjustment is made.

Attendance Requirements

Attendance is required to receive aid. A student receiving federal financial aid (PELL, FSEOG and Direct Loans) earns their aid based on the number of days he/she attends class(es). A recipient that fully withdraws from the college before 60% of the term (9 weeks) is completed will have his/her aid recalculated based on the number of days attended. A student withdrawing prior to the ninth week of class(es) will likely owe money to the college and/or the federal aid program. A student receiving state financial aid (SC-LTAP, SCNB, SC-CAPS, LIFE) and institutional scholarships earn their entitlement based on attendance through the first week of class. The amount of the award will be affected should the student fully or partially drop from classes during the first week of classes resulting in a debt to the college.

Return of Financial Aid

A student's federal financial aid eligibility must be recalculated for students who withdraw, drop out, are dismissed or take a leave of absence prior to completing 60 percent of a semester. Federal financial aid includes the Federal Pell Grant, the Federal Supplemental Educational Opportunity Grant (FSEOG), and the Federal Direct Loan Program.

The recalculation of eligibility is based on the percent of earned aid using the following formula:

The number of days attended in the semester divided by the total number of days in the semester.

Federal financial aid must be returned to the federal government based on the percent of unearned aid using the following formula:

The percent of earned aid multiplied by the amount of federal financial aid disbursed.

The amount of aid to be returned is the responsibility of the college and the student. However, the student will be responsible for repaying the college for the amount that the college was required to return on his or her behalf less any refund that the student is due. Therefore, a student who does not complete at least 60 percent of a semester may owe the college and/or the federal government for the amount of unearned federal financial aid.

A student who owes the college may not be permitted to register for a subsequent term or obtain an official academic transcript until the debt is paid. Payment should be made to the ATC Business Office.

A student who owes the federal government will be turned over to the U.S. Department of Education and be required to provide documentation of a satisfactory payment arrangement before federal or state financial aid eligibility is restored for attendance at ATC or elsewhere.

How You Receive Your Assistance

A student who applies on time and is eligible will have his/her direct educational expenses of tuition and fees deducted from the assistance that has been awarded (excluding Federal Work Study awards.) The student has the option to have their books and supplies purchased in the ATC Bookstore deducted from their award as well. The Business Office will issue a refund through Higher One for any remaining financial aid funds.

A student whose financial aid is not approved in time for fee payment must plan to pay for their educational expenses out-of-pocket or through the Deferred Tuition Payment Plan. The student will be reimbursed by the Business Office based on his/her enrollment status and eligibility once financial aid is processed.

A student who receives a federal work-study award and obtains employment through this program is paid once a month by direct deposit for hours worked during the previous month.

Transfer and Guest Student Status

Financial aid awards cannot be transferred from one college to another. Students must have the results of the FAFSA sent to the new college. Students transferring to ATC must request the results of a previously processed FAFSA to be released to ATC. This can be accomplished by calling the Federal Processor at 1-800-4FEDAID and requesting that our institution be added, or by adding ATC's Title IV School Code to your FAFSA online at www.fafsa.gov. ATC's Title IV school code is 010056.

A student classified as a guest student can only receive financial aid from his/her home institution. A student who attends more than one college in the same enrollment period is considered dual enrolled. Dual enrolled students in two colleges/universities cannot receive financial aid from both institutions. Financial aid can only be disbursed by the home institution where the student is seeking a degree.

Aiken Early College Program

High school students who have been approved to participate in a dual enrollment program can receive S.C. Lottery Tuition Assistance. For more information, refer to the SC-LTAP section listed below and the High School/Home School section list on [Admissions main page](#).

Repeating Courses

A student can receive financial aid for repeated coursework only under certain circumstances. A course that has been successfully completed can be repeated only one additional time. Courses that are not completed successfully can be repeated multiple times until successfully completed. However, course repeats will be counted towards a student's Maximum Time Frame as discussed on the following page.

Satisfactory Academic Progress (SAP)

A student receiving financial assistance through a federal or state program must be making satisfactory academic progress toward a degree, diploma or certificate. The Financial Aid Office monitors the progress of all students receiving financial aid to ensure that they are making satisfactory academic progress toward completion of their program in a reasonable period of time. This policy is in addition to the academic standards required by the college. The cumulative review determines the student's eligibility for financial assistance based on his/her academic history. Whether the student has received financial assistance previously is not a factor in determining eligibility.

Completion Rate

A student must satisfactorily complete at least 67 percent of the total credit hours attempted at ATC. Grades of F, W, WF, U, and NC are not considered satisfactory; however, they are considered as attempted credit hours and may endanger a student's eligibility for future terms. A student's completion rate will be evaluated at the end of each semester.

Grade Point Average (GPA)

A student must maintain a minimum 2.0 GPA.

Length of Eligibility, i.e. Maximum Time Frame (MTF)

A student may receive financial aid at Aiken Technical College for up to 150% of the published program length. For example, a student enrolled in a 60 credit hour program is eligible until 90 credit hours are attempted. Transfer hours will be included when assessing the MTF. A student may repeat a course but repetitions will count in determining MTF.

Program Changes

A student is allowed two program of study changes before completing a degree, diploma or certificate. Additional changes by the student may result in suspension of financial aid. A student changing from one program into a different program with fewer total required credit hours may lose federal and state eligibility immediately upon making this change. A student considering a change of study should consult with the FAO to discuss the effect of a change on SAP.

Developmental Course Work

Financial aid recipients may take a maximum of 10 developmental courses such as English, Math and Reading courses numbered 0-100. These courses count toward hours attempted and will be considered in determining SAP.

Warning

At the end of each semester, a student's academic records are evaluated to determine if the student is meeting Title IV Standards of Academic Progress (SAP). A student who is not meeting SAP will be placed on Warning. While under a Warning Status, the student will still receive financial aid; however, if the student fails to meet SAP again in any of the subsequent semesters, the student will be placed on Financial Aid Suspension.

Probation

A student that is not meeting SAP will be placed on Financial Aid Suspension. The student will have an opportunity to appeal based on unusual or mitigating circumstances. If the appeal is approved, the student's aid will be reinstated with conditions and the student will be placed on Probation. The student will remain in a probationary status as long as the conditions are being met.

Suspension

At the end of each semester, a student's academic record is evaluated to determine if the student is meeting Title IV Standards of Academic Progress. After a warning semester, a student who is not meeting SAP will have his/her aid suspended. A student may petition to have his/her aid re-established by submitting a letter of appeal with supporting documentation to the Enrollment Services Center.

A student who has attempted the maximum number of developmental courses, maximum number of credit hours allowed for their program of study or has exceeded the allowed number of program changes is placed on financial aid suspension.

Each student is notified via student e-mail when placed on Financial Aid Warning, Probation, or Suspension. It remains the responsibility of the student to be aware of his/her academic standing. A student that is allowed to return on academic probation through the Enrollment Services Center is not automatically eligible for financial aid.

Appeals

Appeals are accepted for students who have been placed on suspension due to completion rate, grade point average and maximum time frame. Appeals are not accepted for exceeding the maximum developmental courses. Appeal forms are available on the financial aid forms page of the [ATC web site](#). The appeal should explain the reason(s) why the student is not meeting the minimum standards of academic progress, how the situation has changed, what steps will be taken to ensure that the standards will be met in the future and should include supporting documentation when applicable. Appeals may or may not be approved. Appeals that are approved reinstating a student's financial aid will be reinstated in a probationary status with academic conditions. As long as the student meets the conditions of the reinstatement they will continue to receive financial aid.

Types of Financial Aid

Grants

Federal Pell Grant

The Federal Pell Grant is a federal student aid program that provides grants for students attending college who have not previously received a baccalaureate degree. Eligibility is based on the students and/or family's resources and determined by a formula developed by the U.S. Department of Education. Federal eligibility requirements are discussed in the Student Eligibility Requirements Section of this catalog. Awards range from \$602 to \$5,730 per academic year for full-time enrollment. Awards are prorated each semester based on a student's enrollment status. Completion of the FAFSA is required to receive Federal Pell Grant funds.

A Pell eligible student is generally awarded half his/her allocation for the fall and half for the spring. A student that does not use their full allocation during the fall and spring semesters can receive Pell Grant funds for the summer semester.

Federal Supplemental Educational Opportunity Grant (FSEOG)

The FSEOG program is a federal student aid program from which a student can receive up to \$4,000 each year depending on their financial need, the availability of these funds and the amount of other aid received. To qualify for this program the student must meet all federal eligibility requirements as discussed in the Student Eligibility Requirements section of this catalog and enroll for at least 3 credit hours. The average award for an ATC student is \$300 per semester. Completion of the FAFSA is

required to receive FSEOG funds and a student must be Pell-eligible.

South Carolina Need-Based Grant (SCNB)

The SCNB Grant program is designed to provide financial assistance to South Carolina's neediest students. The grant assists students who wish to attend public or independent colleges or universities in the state of South Carolina.

To be eligible, a student must be a:

1. S.C. resident as determined by the Enrollment Services Center
2. enrolled in at least six credit hours
3. have a minimum GPA of 2.0
4. meet federal eligibility requirements as listed in the Student Eligibility Requirements section of this catalog.

Awards are made each year depending on financial need, the availability of these funds and the amount of other aid received. The average award for an ATC student is \$300 per semester. Recipients of this program will be required to complete and return to the Enrollment Services Center a signed affidavit prior to disbursement of funds. Completion of the FAFSA is required.

South Carolina Lottery Tuition Assistance Program (SC-LTAP)

The SC-LTAP is funded by the state of South Carolina. To be eligible for this program, the student must be a South Carolina resident as determined by the Enrollment Services Center and enroll in at least six credit hours.

To qualify for this program, the student must complete the FAFSA and meet federal eligibility requirements as listed in the Student Eligibility Requirements section of this catalog with the exception of a high school diploma or GED. However, high school students enrolled in a dual enrollment program, students who have a bachelor's degree or students whose family's adjusted gross income is at least \$80,000 can complete the FAFSA Waiver Form to apply. This form is available on the [financial aid web page](#).

The SC-LTAP program is designed to assist in payment of a student's tuition. It cannot be used to pay for books, supplies, lab fees or other items. It can only be used to receive one certificate, diploma or associate degree unless the student is progressing in the same program of study. A five-year wait will be required before the student can receive the SC-LTAP Program for an additional certificate, diploma or associate degree. Please visit the SC State Technical College System website at: www.sctechsystem.com/lottery/lotteryinfo.htm for more detailed information.

Loans

Town & Country Book Loan

Aiken County students that do not have enough financial aid resources to cover their cost of books and supplies can apply for a Town & Country Loan. The maximum loan amount is \$300. This is a loan that must be repaid within the semester. Town & Country Loan Applications are available in the Enrollment Services Center.

Federal Direct Loan

The Federal Direct Loan Program is designed to assist students with their cost of education. Unlike a grant, a loan must be paid back. Aiken Technical College offers a vast number of free aid programs and we encourage students to seek all free aid resources before considering loans.

To qualify for a Direct Loan students must meet the following requirements:

- Meet Title IV Satisfactory Academic Progress (SAP)
- Enroll in at least 6 credit hours
- Enroll in an eligible program
- Have a cumulative GPA of 2.0 or greater
- Not be in default or in a Title IV overpayment status

New ATC student borrowers must complete the following items to apply for a Federal Direct Loan.

1. Free Application for Federal Student Aid at www.fafsa.gov
2. ATC Direct Loan Request located on the [financial aid forms web page](#).

3. Master Promissory Note (MPN) at www.StudentLoans.gov
4. Entrance Loan Counseling at www.StudentLoans.gov

Returning ATC student borrowers must complete the following items to apply for a Federal Direct Loan:

1. Free Application for Federal Student Aid at www.fafsa.gov
2. ATC [Direct Loan Request](#) located on the [financial aid forms web page](#).

The MPN is a promise to the lender that you understand you are receiving a loan and that you promise to repay the funds. All loan awards are based on the assumption that you will take and maintain at least six or more credit hours. If you drop below or enroll in less than six credit hours, you will not be eligible to receive the loan funds.

The Entrance Counseling session is a tutorial which explains a student's rights and responsibilities as a borrower.

Instructions for Completing the ATC Federal Direct Loan Application Process

1. Complete the [Free Application for Federal Student Aid \(FAFSA\)](#). Be sure to list ATC's school code: 010056 on the application.
2. Submit all requested documentation to the Financial Aid Office (FAO)
3. Once your file is processed, you will receive an e-mail instructing you to view your award letter on the MyATC Portal. Should you be ineligible for any financial aid, you will receive an e-mail informing you of your options.
4. If you wish to apply for a loan, complete the [Direct Loan Request](#) form at www.atc.edu. See the [financial aid forms web page](#).
5. You must complete a Master Promissory Note (MPN) at www.StudentLoans.gov. **The MPN is a legally binding agreement to repay your loan to the Department of Education.** To sign your MPN, you will need your FAFSA PIN. Go to "Manage My Direct Loan" and sign in with your PIN. Select "Complete MPN" under "Master Promissory Note" section. Click on "Subsidized/Unsubsidized", and follow instructions. If you don't remember your PIN, visit the PIN site at www.pin.ed.gov.
6. If you are a first time student borrower at ATC, you must complete the online entrance loan counseling at www.StudentLoans.gov. Follow the same procedures in #5 to sign in. Select "Complete Entrance Counseling" under "Counseling" section, and follow instructions.
7. You will receive another award letter from the Financial Aid Office notifying you of your loan award. You must sign and return the award letter to the Financial Aid Office before the funds will be available for tuition payment purposes or for purchases in the ATC Bookstore.
8. You will receive disbursement information from the Department of Education.
9. Loan funds will be disbursed in about two weeks through Higher One if the loan is requested after initial refunds are issued.

South Carolina National Guard College Assistance Program (SCNG-CAP)

The SCNG-CAP is designed to assist members of the SC National Guard with educational expenses toward a one-year certificate or two-year associate degree. Maximum funding is \$4,500 for South Carolina National Guard and \$9,000 for SC Air National Guard per academic year not to exceed the cost of attendance. Award allocations are prorated based on enrollment. To be eligible, students must be a member in good standing with the active National Guard, U.S. citizen or eligible non-citizen, enrolled at least part-time as a degree seeking student, and maintain Title IV Standards of Academic Progress. Students who have exceeded 130 semester hours, earned a bachelor's degree, earned a one-year certificate or two-year associate degree, and receive a full Reserve Officers' Training Corps Scholarship cannot receive funds from this program. To apply, students must annually complete and submit the SCNB-CAP application to the National Guard between June 1 and August 1 of each year. Any applications submitted after the August 1 deadline will not be accepted.

Scholarships

Scholarships are offered through a variety of sources with a variety of eligibility requirements. Students can receive scholarships in addition to federal and state aid. However, the total of all scholarships and financial

aid received cannot exceed the cost of attendance as determined by the ATC FAO.

Institutional Scholarships

The ATC Foundation awards scholarships to students who have demonstrated outstanding academic achievement in high school or college level course work. Some scholarships are based on general academic achievement, while others are based on potential in specific academic areas. Students are selected primarily during the spring semester (March) for scholarships to be awarded for the following academic year. A listing of the scholarships offered and their eligibility requirements are listed online at www.atcfoundation.org. Completion of an ATC Foundation Scholarship Application and the FAFSA is necessary to be considered for one of the college's scholarships.

State Legislative Incentive for Future Excellence (LIFE) Scholarship

The LIFE Scholarship is an academic scholarship funded by the state of South Carolina and all applicants must meet the following criteria:

- Must be a legal resident of South Carolina
- Must be U. S. Citizen or a permanent resident
- Must have:
 - A. Graduated from a high school located in the state of South Carolina
 - OR-
 - B. Graduated from a home school program in SC in the manner required by law
 - OR-
 - C. Graduated from a high school located outside of SC, while a dependent of a parent or guardian who is a legal resident of SC and has custody of the student;
- Must attend an eligible SC public or private college or university
- Must have no felony convictions or any alcohol or other drug related misdemeanors
- Must not be a SC HOPE Scholarship, Palmetto Fellows Scholarship or Lottery Tuition Assistance recipient
- Must not be in default nor owe a refund or repayment on any Federal or State financial aid

LIFE GPA: Continuing and transfer students are required to provide official high school and college transcripts from each institution attended. All college coursework attempted at another institution or while in high school will be calculated into the LIFE GPA formula after the first year of LIFE receipt.

Students who wish to be considered for the LIFE Scholarship must complete the appropriate forms with the ATC Enrollment Services Center.

To determine if you will need to attend the summer semester, it is recommended that a LIFE GPA calculation be requested from the registrar prior to each summer session.

Additional Criteria for Entering Freshmen

- 3.0 cumulative grade point average (GPA) at the time of high school graduation
- Enroll in 12 or more non-remedial credit hours per semester (15 recommended)

Additional Criteria for Continuing Students

- Complete a minimum of 30 non-remedial credit hours during the previous academic year with a cumulative collegiate GPA of 3.0 or greater
- Enroll in 12 or more non-remedial credit hours per semester (15 recommended)

Additional Criteria for Transferring Students

- Complete a minimum of 30 non-remedial credit hours during the previous academic year from all previously attended institutions with a minimum cumulative collegiate GPA of 3.0
- Enroll in 12 or more non-remedial credit hours per semester (15 recommended)
- Submit official transcripts from all post-secondary institutions attended

Renewal Criteria

In order to retain eligibility for the LIFE Scholarship after the initial year, the student must:

- Enroll full-time (12 or more credit hours) during the period of scholarship disbursement
- Earn and maintain at least a cumulative 3.0 GPA on a 4.0 scale
- Earn 30 non-remedial credit hours by the end of the academic year

The LIFE Scholarship cannot be disbursed for a summer term and cannot be used for continuing education or remedial (transitional) courses. Remedial course work (courses that begin with zero or numbered 100) is not considered earned course work and therefore does not qualify towards the full-time status requirement. A student who must take remedial classes and cannot receive the LIFE Scholarship will have the LIFE Scholarship available for the next semester if the student is enrolled in a minimum of 12 non-remedial credits at that time.

The student can receive the LIFE Scholarship for two semesters if enrolled in a one-year program or for four semesters if enrolled in a two-year program.

Funding for the LIFE Scholarship Program is contingent upon state approval each year. These guidelines may not be inclusive of all eligibility requirements and are subject to change.

For more information regarding the LIFE Scholarship Program and LIFE GPA calculations, visit the SC Commission on Higher Education's Web site at: www.che400.state.sc.us

Employment

Institutional Employment

Institutional employment allows students to work on campus without applying for financial aid. Limited jobs are available year-round and are listed through the Human Resources Office located in Room 126 of the Ashley J. Little Administration Building.

Federal Work Study Program (FWS)

The FWS program is a federal student aid program that allows the student an opportunity to work part-time on campus or at designated off-campus sites to help meet his/her educational expenses. A student can earn up to his/her FWS award during the academic year. Expected earnings cannot be used toward the student's institutional charges of tuition, fees and books. Since positions are limited, students should file the FAFSA early. Notify the FAO if you are interested by sending an e-mail with your name and ATC student ID number to financialaid@atc.edu. Available positions are listed in the Human Resources Office located in Room 126 of the Ashley J. Little Administration Building.

Other Assistance

Technical Scholars

Sponsorships cover all college tuition, fees, textbooks and provide paid part-time jobs for selected students. Students applying for these scholarships must be fully accepted into an appropriate associate's degree program, meet scholarship application criteria, agree to comply with all sponsoring employer's interviews and other required screenings.

Sponsoring employers make the final decision on who is offered scholarship(s) based upon their needs and the applicants' qualifications. Students interested in the Technical Scholars Program should contact Patsy Fields at (803) 508-7278 or Shareffa Harris at (803) 508-7420.

Vocational Rehabilitation

A student with a documented disability or impairment may be eligible for assistance through their county vocational rehabilitation office. The vocational rehabilitation office will require completion of a Form 135. In addition, the student must apply for federal financial aid by completing the FAFSA before being considered for this assistance. Residents of Aiken, Edgefield and Barnwell Counties in South Carolina may call (803) 641-7630 or visit their web site at www.scvrd.net for more information.

Residents of Burke, Columbia, Glascock, Hancock, Jefferson, Jenkins, Lincoln, McDuffie, Richmond, Screven, Taliaferro, Warren, Washington and Wilkes Counties in Georgia, may call (706) 650-5638 or visit their web site at www.vocrehabga.org

Persons seeking accommodations in the classroom should contact Richard Weldon by calling (803) 508-7382.

Free Tuition Program for Children of Certain South Carolina War Veterans

A child of a S.C. wartime veteran may be eligible to receive this benefit. Eligibility and application information may be obtained from any County Veterans Affairs Office, by writing the State of S.C. Office of the Governor, Division of Veteran Affairs; VA Regional Office Building; Suite 1126; 6437 Garners Ferry Rd; Columbia, SC 29209 or visiting the [S.C. Office of Veterans' Affairs website](http://www.scveterans.org). Calls are accepted at (803) 647-2434 fax: (803) 647-2313..

Veterans Assistance

Aiken Technical College is approved for veterans' benefits by the South Carolina Commission on Higher Education for training veterans and dependents under Title 38 of the U.S. Code; Chapter 30, Montgomery G.I. Bill; Chapter 31, Disabled Veterans; Chapter 32, Chapter 33, Post 9-11, VEAP; Chapter 35, children and widows of totally disabled or deceased veterans resulting from service-connected conditions; Title 10 of the U.S. Code; Chapter 1606 and Chapter 1607, members of the Selected Reserve.

Application for Benefits

Before applying for benefits, a veteran must first be accepted into a program of study by the ATC Enrollment Services.

All applicants must:

1. Complete and return the Application Packet for VA Educational Benefits to the Enrollment Services Center.
2. The Applications for Benefits can be submitted online at www.gibill.va.gov

OR

1. Complete the paper Application for Benefits and attach required documents and submit to the Enrollment Services Center with the application packet.

The Veteran must furnish the Enrollment Services Center with an official transcript from the high school of graduation and official transcripts from all colleges attended for evaluation. The veteran must have an evaluation of his/her military and college transcripts completed by the end of the first semester of a new program of study.

Information related to transcript evaluation is obtained from the Enrollment Services Center. Veterans Affairs may not pay benefits beyond two semesters unless this evaluation process has been completed. It is the responsibility of the veteran to make sure the evaluation has been completed. In order to change programs, a veteran must complete a VA Change of Program Form available in the Enrollment Services Center.

Conditions for Interruption of Veterans Benefits

In addition to the college's academic standards of progress described in the catalog, the veteran/dependent must also meet the standards of progress set by the VA listed below.

Each veteran and eligible dependent must maintain a 2.0 cumulative GPA to receive benefits. An evaluation of progress will be done at the end of each semester on each VA recipient.

If a 2.0 cumulative GPA is not maintained during any semester, the veteran will be placed on VA Probation for the following semester. If a 2.0 cumulative GPA is achieved during the probationary semester, the probation status will be removed.

Failure to achieve a 2.0 cumulative GPA during the probationary (two consecutive) semesters will result in termination of VA Educational Benefits for unsatisfactory progress. Benefits are terminated until the student obtains a 2.0 cumulative GPA. If reinstated, the student's present program of study may have to be changed to remain eligible.

A student whose benefits have been reinstated after being terminated, but who fails to obtain at least a 2.0 cumulative GPA the next semester of enrollment is suspended from further benefits until he/she completes a semester with a 2.0 cumulative GPA or better. Unsatisfactory grade reports (below 2.0 cumulative GPA) in any subsequent semester will again result in the suspension of benefits until he/she attains a satisfactory GPA.

Grading Procedures for Veterans

In 1976, Congress amended the "G.I. Bill" to encourage veterans to move toward the attainment of their educational career goals. The law provides that no payment will be made to an eligible veteran for auditing a course or taking a course in which the grade assigned is not used in computing graduation requirements.

The following rules apply to those who receive veterans' benefits:

1. The "I" grade is a non-punitive grade as defined by the Veterans Administration. The grade is not permanent and carries only a message of a temporary condition that will change to a letter grade of A, B, C, D or F.
2. In the event that the veteran receives an "I" at the end of a semester, he/she must accomplish further work in the course at his/her own expense without government reimbursement.
3. A veteran cannot be certified for an "AU," "E," or "NC" grade.
4. A veteran cannot be certified for any course not listed in his/her curriculum. If electives are listed as part of the curriculum, the veteran must not exceed the total number of elective hours designated by the program. A veteran must take only electives that are listed as approved electives or electives that have been approved in writing by the department head.
5. A veteran cannot be certified for developmental or prerequisite courses that do not count toward graduation without written verification of test results indicating a need for such courses.

Veterans Change of Status

A recipient of VA benefits **must** notify the VA/Records Office within the Enrollment Services Center immediately of any changes that may affect his/her pay status. Such changes include a change of program, change of courses, change of dependency, and change of address. A veteran can obtain the necessary forms and instructions in the VA/Records Office. Interested parties may obtain additional information on VA benefits by calling the Enrollment Services Center at (803) 508-7263.

General Information

Drug Free Campus Policy

The South Carolina Technical College System prohibits the unlawful manufacture, distribution, dispensation, possession or use of alcohol, narcotics, drugs or other controlled substances at the workplace and in the educational setting. Unlawful use for these purposes is defined as a violation of federal/state/local regulations, policy, procedures, rules and legal statutes.

Educational setting includes both institutional premises and approved educational sites off campus. Students may be suspended or dismissed from the college for violations of this policy. For the complete policy, see the Drug & Alcohol Policy in the Student Handbook.

English Fluency Requirements

ATC maintains procedures to ensure that all permanent and adjunct faculty possess adequate proficiency in both written and spoken English. The college will respond appropriately to student concerns regarding an instructor's English fluency. Students should address any concerns about English fluency an Enrollment Advisor in the Enrollment Services Office.

General Educational Development (GED)

Although the college does not provide testing for the GED or a program for GED students, a student who wishes to prepare to take the General Educational Development (GED) Test to receive a high school equivalency certificate may take classes in writing, reading and math. Day and evening classes are available. To receive a GED, the interested parties should contact the Adult Basic Education Office within their local public school district.

Health Services and First Aid

ATC is a commuter campus, therefore, the college provides only basic first aid for minor injuries. However, the college will assist a student who becomes ill in securing transportation home or to a doctor or hospital.

Student Conduct

The Student Handbook section of this catalog contains the Student Code and the Student Grievance Procedure. It is the responsibility of all students to be aware of their rights and responsibilities while attending ATC.

A student may be dismissed for aggravated or repeated violations of student regulations. A student dismissed because of his/her conduct may be readmitted only upon the recommendation of the Dean of Enrollment Services and

the approval of the college President.

The ATC Student Honor Code represents a standard of conduct to which each student should aspire: "As a member of the Aiken Technical College community, I am committed to the ideal and practice of honorable behavior. I will conduct myself in a civil manner, respect the rights and property of others, and support the College's values and educational mission. I will maintain personal and academic integrity in all aspects of campus life. I recognize the dignity of all individuals and will respect and learn from the ideas represented in our collective diversity. I will uphold the Aiken Technical College standard of excellence."

Student Insurance

A group policy paid by ATC from student fees provides accident insurance for all registered students. Students are insured while on college premises during scheduled class days and on college-sponsored activities and trips. Coverage does not extend to students attending athletics events as spectators or attending other social activities.

Student Parking

All vehicles on campus must display a current ATC parking permit. Parking permits are valid for the duration of the student's stay at ATC. Students should obtain permanent and temporary permits during registration or later through the ATC Bookstore. Students must submit a class schedule and a valid vehicle registration when requesting a parking permit. Permits must be clearly visible and may not be altered. Temporary decals may be obtained in the bookstore for students driving a different vehicle on a temporary basis. At no time may an enrolled student park in visitor or faculty parking spaces. Unpaid traffic fines double five working days from issuance. Grades, transcripts and registration privileges will be withheld until all parking fines are paid. For all information on parking regulations and fines, refer to the [Parking Regulations](#) web page.

Telephone Calls

ATC cannot provide for the receipt or delivery of personal messages, flowers, etc. Classes will not be interrupted for this purpose.

Should a family emergency occur such as death, serious illness or serious injury, Student Development will make every effort to notify the student of the situation.

Tobacco Products

The use of tobacco products is prohibited on the ATC campus. Banned products include, but are not limited to: cigarettes, electronic cigarettes of all types, cigars, pipes and smokeless tobacco. (ATC policy [2-3-106](#) and [2-3-106.1](#))

Visitors

Visitors not attending a specific ATC function must check in with the Enrollment Services Center upon their arrival on campus. Students may not take visitors to class with them except with special administrative approval. Under no circumstances should children of students be allowed to enter classrooms or be left unattended on campus. No pets except seeing-eye dogs are allowed on campus. Owners of seeing-eye dogs must make prior arrangements for their animals to accompany them to class.

Academic Support Services

Bookstore

The ATC Bookstore, located in the Gregg-Graniteville Student Activities Center, carries textbooks and materials to support all classes offered by the college.

Bookstore Hours

Monday-Thursday 9:00 a.m. - 5: 00 p.m.
Friday 9:00 a.m. - 1:00 p.m.

In addition to textbooks and other school supplies, the bookstore offers a large selection of ATC sportswear.

Textbook ISBN numbers and prices are listed on our website at bookstore.atc.edu.

Returns

Academic Textbooks:

15 calendar days after start of class, a copy of the student's class schedule is required when returning textbooks.

Non-Textbook Merchandise:

15 calendar days from date of purchase, a receipt is required when returning merchandise.

No Returns on:

Reference items, clearance items, print credits, special orders or perishable items.

An original cash register receipt must be presented to the bookstore as proof of purchase on all items. Returned textbooks must be in their original shrink-wrap for return. Textbooks must be in their original condition, free from markings or damage of any manner. Store personnel decisions are final on the condition of the return. Software, multimedia products and electronics are refundable in their original, unopened packaging only.

Refunds

If you paid by check, a check refund form must be completed. A refund check will be processed and mailed from the ATC Business Office. If you paid by credit card, your return will be credited back to your credit card account. If you paid by a sponsor voucher or Pell Grant, the return will be credited to the sponsor or Pell.

Print Credits

Print credits may be purchased in \$5 increments from the bookstore and may be used for library and classroom printing.

Book Buyback

In-Store Book Buyback: A national wholesale vendor will conduct a book buyback in accordance with the academic calendar scheduling for final exams at the end of each semester. All books are eligible to receive a wholesale value as determined by the wholesale vendor. Buyback value is determined by the wholesale company and based on the national demand for a title. Not all books have a buyback value.

Online Book Buyback: Online book buyback is available through MBS at the following web page: [ATC Bookstore](http://bookstore.atc.edu). This option will be available to students and others when the in-store buyback is not in session.

Online Learning

Aiken Technical College offers a variety of online and hybrid courses. Courses considered to be online are 100% online with no face-to-face meetings, while those that are hybrid are a 50/50 mix of online and face-to-face work. While online courses are not place sensitive, occasionally, they may be time sensitive or students may be allowed access to instruction at any time of the day or night. Because instructors and classmates are not physically present, students who take online classes must be strong, independent learners.

More information about online learning is provided in the [Online Learning](#) section of the college's web site. This area also lists hybrid/online course offerings for each semester.

Enrollment procedures are usually, but not always, the same for online and hybrid learning courses as they are for traditional courses. Contact your advisor for information about distance learning courses offered in your program of study.

Library and Learning Resources Center

The ATC Library serves students, faculty, staff and residents of the college's service area. It contains a collection of more than 55,000 items including books, periodicals, audiovisual materials and online databases.

The library supports the academic, technical and job training programs of the college.

The Library and Learning Resources Center include a full-service media department, areas for study and research, and areas for viewing audiovisual materials. Two fully equipped computer labs are also available for patron use.*

Printers and a coin-operated copier are also available in the library.

Overdue book fines are computed at **25 cents per day** for regular two-week loan items. **Students must present a valid ATC identification card to check out materials.**

Reference and Research Assistance

- Interlibrary loan
- Instruction on library research skills
- Self-service photocopying equipment
- Full library services to Distance Learning students
- Online databases available off campus

Computerized Library Technology

- Computer work stations to assist with class research projects *
- Student access to the Internet *
- Wireless internet access

Library Hours

Monday- Thursday	8:00 a.m.-9:00 p.m.
Friday	8:00 a.m.-4:00 p.m.
Saturday	8:00 a.m.-12:00 p.m. (Closed in Summer)

Sunday CLOSED

Variations for holidays, break sessions, and exam periods are posted in the library in advance. The library is closed on Saturdays during the summer term.

* Computer Use Statement

Student computer workstations are reserved for the express purpose of providing access to computer programs and the Internet, and are NOT to be used to store a student's personal or course work information. Unless an instructor has given specific instructions, a student's personal or class work files must be stored on portable media such as a USB storage device or diskette.

Unauthorized stored files, including those saved on a hard drive, may be deleted without prior notice. The college assumes no liability for the loss of unauthorized stored files.

According to ATC Computer Ethics Procedure ([4-4-108.2](#)), the college reserves the right to monitor, manage, and control the usage of computer resources and to make changes in these procedures without prior notice to users. The following is a partial list of the kinds of uses that could subject users to penalties by the college or an outside authority:

- Harassment (unwanted communication)
- Sexual harassment (including accessing pornographic sites offensive to others)
- Violation of another's privacy
- Destruction of equipment or software
- Violation of computer security system
- Unauthorized use of accounts or access codes
- Attempts to capture or break passwords
- Violation of copyright or software agreements (especially downloading multimedia or other documents)
- Academic dishonesty (plagiarizing or purchasing online assignments)
- Violation of college policy or local, state or federal law
- Criminal, unethical, or dishonest usage: "spamming," "spoofing," etc
- Using computing facilities for personal gain without contractual agreement with the college
- Changing computer settings, such as removing, altering, or installing software, wall paper or screen savers unless instructed to do so as a part of a class, etc.

Student violation of the above may result in the following disciplinary actions initiated by the Dean of Student Development:

- Verbal warning (usually first offense);
- The assignment of ten (10) hours of Community Service completed within two weeks; or
- Immediate suspension from ATC classes (administrative withdrawal without refund) if the disciplinary action is not completed or the offense warrants immediate action by the college.

Teaching and Technology Center

The Teaching and Technology Center (TTC) provides faculty with support for curriculum and instructional development, as well as course delivery in face-to-face, online, and hybrid learning environments. See the [Online Learning](#) section above for information on student support for online courses.

Test Center

The Test Center provides a quiet, supervised environment where students can take make-up tests. The testing coordinator administers make-up tests, placement tests and a variety of continuing education and skills certification tests. Students must present a current ATC student ID or a valid government issued picture ID.

Test Center Hours

Monday & Thursday 8:00 a.m.-6:00 p.m.

Tuesday & Wednesday 8:00 a.m.-5:00 p.m.

Friday 9:00 a.m.-1:00 p.m.

Saturday	9:00 a.m.-1:30 p.m.
Sunday	CLOSED

Tutoring Services

Aiken Technical College's Academic Success Center (ASC) is located in room 770. The Center's purpose is to enhance student learning by offering support services in a friendly customer-oriented environment. The ASC provides currently enrolled students free tutoring in math and English. Tutoring for other subjects is available upon request or qualified tutor availability. Appointments are not necessary, but services are contingent upon the availability of qualified tutors and offered on a first-come, first-served basis.

The Academic Success Center is open Monday through Thursday from 8:00 a.m. to 6:00 p.m. and Friday 8:00 a.m. to 12:00 p.m. during fall and spring semesters and hours will be announced during summer sessions. Study skills workshops are available through the ASC each semester. Topics will vary, but upcoming workshop dates, times, and details will be posted on My ATC and around campus.

Student Support Services

Career Development and Employment Services

Career Development Services

The college's Office of Enrollment Services provides prospective and enrolled students with a range of career planning services designed to help students choose a career path. Utilizing various assessment instruments, career exploration resources, and educational program information, counselors help students establish career goals. ATC encourages all students to utilize career services resources.

Career services include consultation on résumé and cover letter development and job search strategies.

Counseling Services

The mission of Counseling Services is to support students by empowering them to address barriers to success. ATC maintains a staff of professional counselors who are available both day and evening to counsel any student confidentially regarding academic, professional, personal or social concerns. Counseling Services staff members also provide assistance for students affected by emergency situations. A student can meet with a counselor on a walk-in basis or by making an appointment.

Orientation

There are several types of orientation available to a student entering ATC. Entering students meet with an enrollment advisor at the point of acceptance to the college. The meeting provides an explanation of placement test scores and information about placement. The meeting also provides students with basic information concerning getting started in college, including policies about transfer, conduct rules, refunds, advanced standing and academic standards. Information will also

be provided about academic advising, financial aid opportunities, tutoring and campus safety and locations of key services. In addition, each semester ATC offers a credit course titled College Skills (COL 103). This class provides a student with the resources needed to develop learning strategies, self-management skills, enhance test-taking skills and explore career opportunities. Finally, the college offers a New Student and Family Orientation to provide students and their families with an

Protected Health Information

Release of Student Information

The Family Educational Rights and Privacy Act (FERPA) of 1974, as amended, describes the conditions under which information about a student can be released. It is the policy of Aiken Technical College to follow these guidelines to protect the privacy of students.

The following student rights are covered by the Act and afforded to all eligible students of the college:

1. The right to inspect and review information in the student's educational records.
2. The right to request amendment of the contents of the student's educational records if believed to be inaccurate, misleading, or otherwise in violation of the student's privacy or other rights.
3. The right to prevent disclosure without consent of personally identifiable information from the student's records (with certain exceptions).
4. The right to secure a copy of the college's policy.
5. Parents who can establish proof of dependency by presenting a copy of their tax return to the Director of Enrollment Services or designee may view the records of a dependent without the written consent of said dependent.
6. The right to file complaints with the U.S. Department of Education concerning alleged failures by the college to comply with the provisions of the Act.

Each of these rights, with any limitations or exceptions, is explained in the college's policy statement which may be obtained from Enrollment Services. A form authorizing parents or others to review student financial aid or student services files is available in the Enrollment Services Center.

Note:

As of January 3, 2012, the U.S. Department of Education's FERPA regulations expand the circumstances under which your education records and personally identifiable information (PII) contained in such records — including your Social Security Number, grades, or other private information — may be accessed without your consent. First, the U.S. Comptroller General, the U.S. Attorney General, the U.S. Secretary of Education, or state and local education authorities ("Federal and State Authorities") may allow access to your records and PII without your consent to any third party designated by a Federal or State Authority to evaluate a federal- or state-supported education program. The evaluation may relate to any program that is "principally engaged in the provision of education," such as early childhood education and job training, as well as any program that is administered by an education agency or institution. Second, Federal and State Authorities may allow access to your education records and PII without your consent to researchers performing certain types of studies, in certain cases even when we object to or do not request such research. Federal and State Authorities must obtain certain use-restriction and data security promises from the entities that they authorize to receive your PII, but the Authorities need not maintain direct control over such entities. In addition, in connection with Statewide Longitudinal Data Systems, State Authorities may collect, compile, permanently retain, and share without your consent PII from your education records, and they may track your participation in education and other programs by linking such PII to other personal information about you that they obtain from other Federal or State data sources, including workforce development, unemployment insurance, child welfare, juvenile justice, military service, and migrant student records systems.

Directory Information

The college may provide directory information in accordance with the provisions of the Act without the written consent of an eligible student, unless that student requests in writing that such information not be disclosed. The items listed below are designated as directory information and may be released on any student for any purpose at the discretion of the college unless a written request for non-disclosure is on file: name, address, e-mail, telephone number, dates of attendance, major field of study, awards, honors, degree(s) conferred and previous institution(s) attended.

A student who wishes to request non-disclosure of the above items may submit a written request to Enrollment Services. The college may not provide the parent of a student over eighteen years of age any information about the student's progress without the explicit written consent of the student or a copy of IRS tax forms indicating the student is a dependent of the parent seeking such information.

Services for Students with Disabilities

ATC provides special services to students with disabilities. Our goal is to improve the educational development of all students by offering an accessible and supportive campus environment. The Director of Counseling Services coordinates the provision of services for students with disabilities. In order for a student to receive accommodations based on a disability, the student must submit documentation from a qualified professional. The Director of Counseling Services will review the documentation, determine the appropriate accommodation(s), and provide a Faculty Notification Form to the student. Students receiving reasonable accommodations will submit a Faculty Notification Form to their instructor(s) each academic term.

Programs of Study Indexed by Topic Cluster

The college's education and training certificates, diplomas and degrees are organized under career clusters based on an occupational and industrial approach. The clusters are organized around broad industry areas or economic sectors. The clusters are provided to allow students the opportunity to pursue a full range of educational programs based on a career interest.

Business, Marketing and Finance Programs

Associate in Applied Science: Major in Management

The Associate in Applied Science with a Major in Management degree prepares the student to perform the basic functions of management including planning, organizing, staffing, directing and controlling. Students also develop skills enabling them to communicate effectively using both written and verbal formats; develop and apply business ethics in managerial decision making; analyze and perform accounting operations; recognize and apply legal principles as they relate to business crimes, torts, and contracts; apply the principles of economics to business; and apply the principles of human resource management to the development of a competent business staff. This program is accredited by the Accreditation Council for Business Schools and Programs (ACBSP).

Admission to the Associate in Applied Science with a Major in Management program is restricted to those who have met the prerequisite requirements and/or have the permission of the Department Chair.

In order to enter the Management program, the following courses must be successfully completed with a grade "C" or higher: [ENG 032](#); [RDG 032](#); [MAT 032](#). While completing these courses, students may enter the Occupational Studies - Emphasis in Business certificate program.

Associate in Applied Science: Major in Marketing

The Associate in Applied Science with a Major in Marketing degree prepares the student to perform the basic marketing functions including advertising, personal sales, public relations and sales promotion. The student will also develop the skills necessary to communicate effectively both orally and in writing; recognize patterns of consumer behavior; develop and apply basic market planning techniques; and have a general understanding of fundamental business operations, including accounting, computer applications and economic principles. This program is accredited by the Accreditation Council for Business Schools and Programs (ACBSP).

Admission to the Associate in Applied Science with a Major in Marketing program is restricted to those who have met the prerequisite requirements and/or have the permission of the program coordinator.

In order to enter the Marketing program, the following courses must be successfully completed with a grade "C" or higher: [ENG 032](#); [RDG 032](#); [MAT 032](#).

While completing the above courses, you may enter the Occupational Studies - Emphasis in Business Certificate program. All classes in the certificate program will transfer to the degree program.

Associate in Applied Science: Major in Accounting

The Associate in Applied Science with a Major in Accounting prepares the student to record and post transactions, prepare adjusting entries and financial statements, perform general accounting operations, process accounting information using a microcomputer to produce various accounting records and maintain books for municipalities, state and government agencies. A graduate will be prepared to work independently or as a team member with management.

This program is accredited by the Association of Collegiate Business Schools and Programs (ACBSP).

Admission to the Associate in Applied Science with a Major in Accounting program is restricted to those who have met the prerequisite requirements and/or have the permission of the academic coordinator. In order to enter the Accounting program, the following courses must be successfully completed with a grade "C" or higher: [ENG 032](#); [RDG 032](#); [MAT 032](#).

While completing the above courses you may enter the Occupational Studies - Emphasis in Business Certificate program. All classes in the certificate program will transfer to the degree program.

Education Programs

Associate in Applied Science: Major in Early Care and Education

The Associate in Applied Science: Major in Early Care and Education degree is designed to prepare candidates for a variety of careers working with children and families in the field of early care and education. Academic, technical, and professional knowledge and skills are cultivated by learning opportunities based on best practices and current research in the field. The program offers a balance of developmental and educational theory and practice; a foundation in ethics, advocacy, and leadership skills; supervised hands-on experiences and general core coursework necessary for successful employment.

Program graduates are qualified for employment in early care and education settings including Head Start, child care centers and 4K programs, elementary school paraprofessional positions, and other agencies serving children and families. The program is accredited by the National Association for the Education of Young Children Commission on Early Childhood Associate Degree Accreditation.

The successful student in the Early Care and Education program must possess effective communication skills with adults and children, strong critical thinking and decision making skills, as well as a well-grounded professional work ethic. These students must enjoy a variety of creative activities and be able to be actively involved with children for extended periods of time.

For all courses requiring off-site field work and the capstone field placement course leading to graduation, the Early Care and Education program requires the following prerequisites:

- Clear criminal background check
- Health assessment denoting good health
- Negative tuberculosis skin test
- Student liability insurance
- Current certification in First Aid and Infant, Child, and Adult CPR (EDU 243)

Admission to the Associate in Applied Science with a Major in Early Care and Education degree program is restricted to those who have met the prerequisite requirements and/or have the permission of the department chair. While some courses may transfer, the program is not designed as a transfer degree and this degree does not lead to teacher certification.

In order to enter the Early Care and Education program, the following courses must be successfully completed with a grade "C" or higher: [ENG 032](#); [RDG 032](#); [MAT 032](#).

While completing these courses, you may enter the Occupational Studies - Emphasis in Early Care & Education Certificate.

A criminal record could make a student ineligible for enrollment or participation in a supervised field experience, creating an inability to graduate from the program. Persons who have been convicted of a felony offense are not employable in the early care and education field.

Note: All students must undergo an authorized records check, provide current TB test results and undergo a health assessment when entering the program.
Every student must obtain certification in CPR and First Aid prior to graduation.

Childcare Management Certificate

The Childcare Management Certificate provides the candidate with knowledge and skills related to management, supervision and administration of early care and education environments. In addition, this certificate introduces small business management concepts, necessary interpersonal competencies and professional ethics required to work with multi-age groups of diverse children, parents, colleagues and the community.

This certificate is designed to enhance the skills of an individual with extensive work experience in the early care and education classroom in preparation for supervision/management positions. Students must currently hold a related associate, bachelor or master's degree to earn this certificate. Admission to this certificate is restricted to those who have met the prerequisite requirements and/or have the permission of the department chair.

For all courses requiring off-site field work and the capstone field placement course leading to graduation, the Childcare Management Certificate requires the following prerequisites:

- Clear criminal background check
- Health assessment denoting good health
- Negative tuberculosis skin test
- Student liability insurance
- Current certification in First Aid and Infant, Child and Adult CPR.

A criminal record could make a student ineligible for enrollment or participation in an off-site field experience and capstone course, creating an inability to graduate from the certificate. Persons who have been convicted of a felony offense are not employable in the early care and education field.

General Studies

General Studies

The General Studies certificate provides an integrated option for students who seek an introduction to a variety of academic disciplines but are unable to gain immediate degree-seeking admission into their desired four-year college or university. This certificate is ideal for students who plan to transfer before completing a degree program at ATC.

Courses in this certificate prepare students for the Associate in Arts degree or Associate in Science degree at ATC; however, students who plan to seek a degree from ATC and then transfer are encouraged to enroll first into the General Studies Certificate program.

Interdisciplinary Studies

ATC offers several courses in [Interdisciplinary Studies](#) (IDS). A student may take these courses as Humanities/Fine Arts choices in all of ATC's Associate's degree programs and the General Studies Certificate. A student may use IDS courses as electives in many of the college's programs. A student should consult his/her program coordinator or advisor about specific program electives. A student who wishes to transfer IDS courses should consult the institution to which he/she plans to transfer.

Health Sciences

Associate in Applied Science: Major in Nursing

The Associate in Applied Science with a Major in Nursing degree prepares graduates to provide direct patient care in a safe, effective manner across multiple settings and prepares students for licensure examination for registered nurses (NCLEX-RN). The course of study includes both theory presentation and supervised experience at affiliating health care agencies.

Students applying for any of the Health Science Programs must go through a separate application after being admitted to the college. There are additional requirements in order to qualify for admission to each of these programs. The competitive admissions criteria is updated annually and students should review the current information for changes in the admissions process. Information packets detailing the application process for each competitive admissions program are available in the Enrollment Services Center and the Dean of Health Sciences Office.

Students will be required to participate in off-campus clinical facilities and therefore will need reliable transportation. The nursing program is accredited by the Accreditation Commission for Education in Nursing (ACEN).

Pre-Allied Health Certificate

The Pre-Allied Health Certificate program provides students with the general academic background required to be successful in a variety of health care related fields. It is also designed to prepare students to meet prerequisites for admission into several health care specialty programs at ATC. Students will earn credits that help meet specific program prerequisites and apply toward program completion should the student be admitted to a selected program. Students should work closely

with academic advisors to select courses that will help confirm their career choices and strengthen their academic skills.

Pre-Nursing Certificate

The Pre-Nursing Certificate allows students to experience providing basic patient care in one course, AHS 117 – The Care of Patients. After successfully completing AHS 117, students may be eligible to test to become a certified nursing aide (CNA). Certified nurse aides, also called nursing assistants, provide basic patient care including monitoring patient vital signs, providing personal hygiene care, serving and assisting with meals, helping with mobility, and functioning as part of the nursing team. Nursing assistants may work in hospitals, private duty, assisted-living facilities, hospices, home health, and nursing homes. To be able to provide direct care to residents of South Carolina Medicaid-Certified nursing facilities, a person must be a certified nurse aide (CNA). Certification comes from South Carolina’s Department of Health and Human Services (DHHS).

The student who successfully completes the Pre-Nursing Certificate will also have the necessary requirements to apply to the DAS Nursing and AAS Nursing Programs. To receive points for admission, the student must score "A's" and "B's" in courses.

Perioperative Nursing Certificate

The Perioperative Nursing Certificate has been designed to provide graduates with the skills necessary to practice safely within their defined scope of practice to promote, protect and improve the health in the operating room. The student will complete the certificate with the necessary skills to function as an entry-level Perioperative Nurse.

DISCLAIMER:

This Certificate program is an organized series of credit courses consisting of 9 credit hours and concentrates on study in a particular field. The certificate is intended to provide the graduate with the training necessary to receive a job in the applicable field. Courses are non-transferrable and are considered the beginning and ending of certification. The certificate does not build into any other diploma or degree.

Entrance Requirements:

- Admission to the college and the successful licensure in Georgia and South Carolina as a Registered Nurse with an unencumbered license

Employment Opportunities:

- Operating Room in any hospital or surgical center setting

Mandatory Requirements:

- Students must have evidence of valid AHA Healthcare Provider CPR certification, and preclinical orientation as applicable
- Completed health physical including required immunizations
- A criminal background check is required for clinical experiences
- Students must be able to attend all clinical experiences
- A negative 10-panel drug screen is required; random drug screens may be performed

throughout the program

Course Requirements..... 9 Credits

- [SUR 114](#) Surgical Specialty Practicum - 7 credits
- [SUR 120](#) Surgical Seminar - 2 credits

Total Credits Required: 9 Credits

Associate in Applied Science: Major in Radiologic Technology

The Associate in Applied Science with a Major in Radiologic Technology degree prepares entry-level individuals to take and successfully pass the certification examination administered by the American Registry of Radiologic Technologists (ARRT) and to develop good communication and strong interpersonal skills to be able to competently perform within the healthcare environment.

Students applying for any of the Health Science Programs must go through a separate application process after being admitted to the college. There are additional requirements in order to qualify for admission to each of these programs. The competitive admissions criteria is updated annually and students should review the current information for changes in the admissions process. Information packets detailing the application process for each competitive admissions program are available in the Enrollment Services Center and the Dean of Health Sciences Office.

Students will be required to participate in off-campus training in working clinical facilities and therefore will need reliable transportation to get to these locations.

Diploma in Applied Science: Major in Expanded-Duty Dental Assisting

The Diploma in Applied Science with a Major in Expanded-Duty Dental Assisting prepares the student to work closely with the dentist as a chair-side assistant, office manager and laboratory assistant providing preventative and restorative care.

Students applying for any of the Health Science Programs must go through a separate application process after being admitted to the college. There are additional requirements in order to qualify for admission to each of these programs. The competitive admissions criteria is updated annually and students should review the current information for changes in the admissions process.

Information packets detailing the application process for each competitive admissions program are available in the Enrollment Services Center and the Dean of Health Sciences Office.

The program is accredited by the Commission on Dental Accreditation of the American Dental Association. A program graduate is eligible to take the Dental Assisting National Board Examination to become a Certified Dental Assistant.

Students will be required to participate in off-campus training in working clinical facilities and therefore will need reliable transportation to get to these locations. Students may be exposed to blood-borne pathogens or infectious diseases when in the clinical setting and are required to follow written infection control protocol. Students may obtain a copy of policies associated with bloodborne pathogens and infectious disease by contacting the EDDA program coordinator, Mrs. Amelia Johnson.

Associate in Applied Science: Major in General Technology Emphasis in Paramedic

Paramedics provide the most advanced care of all EMS professionals. Responsibilities of a Medic include pre-hospital emergency care according to established medical protocols, a variety of emergency medical interventions for children and adults, the ability to triage, and to provide continuing care while en route to an emergency medical facility. The objective of Aiken Technical College's Paramedic program is to equip Paramedics in the cognitive, psychomotor and affective domains with the knowledge, skills, and confidence necessary to perform in the capacity of an entry level paramedic. The Associate Degree program will prepare individuals to perform advanced level assessments, stabilization, and transportation of sick and injured patients in a pre-hospital environment. This program places a high emphasis on skills and leadership abilities being developed in order to provide quality care in unpredictable environments.

ATC's program is comprised of a variety of instructional methodologies designed to accommodate all styles of learning. Training is accomplished through a variety of current pre-hospital paramedic educational resources, interactive simulation lab, scenario based training, forensic autopsies, clinical experiences, community involvement, alternative tissue labs and a host of subject matter experts.

Upon completion of the Paramedic Program students will receive certifications in:

- Advanced Cardiac Life Support**
- Pediatric Advanced Life Support**
- Advanced Medical Life Support**

Trauma Life Support
Neonatal Resuscitation
Advanced Burn Life Support
Rapid Sequence Intubation

Upon successful completion of the Program the student will be eligible to test for the NREMT cognitive and psychomotor exams which enable the student to obtain a State License.

Students applying for any of the Health Science Programs must go through a separate application process after being admitted to the College. There are additional requirements in order to qualify for admission to each of these programs.

Students will place into the Paramedic program according to their previous level of licensing.

Admission to the Associate in Applied Science with a Major in General Technology Emphasis in Paramedic is restricted to those who have met the prerequisite requirements and/or have the permission of the program coordinator.

In order to enter the General Technology program, the following courses must be successfully completed with a grade "C" or higher: [ENG 032](#); [RDG 032](#); [MAT 031](#). Prior to enrollment in the EMS pathway, students must place into [MAT 110](#).

Emergency Medical Technician: Basic Certificate

This academic credit program provides instruction and practice in dealing with medical and traumatic emergencies. Topics include medical, legal and ethical issues, obtaining vital signs, airway management, oxygen administration, airway devices, CPR and AED operation, scene and patient assessments, physical examination, obtaining a medical history, pharmacology, medical emergencies such as heart attack, respiratory distress, strokes, diabetics and poisonings, traumatic injuries such as bleeding control, wound care, shock management, splinting fractures, motor vehicle collisions, and head and spine injuries. Also included are IV maintenance, obstetrics, childbirth, special patient populations, ambulance operations including communication, documentation, infection control, HAZMAT (Hazardous Materials), weapons of mass destruction, terrorism and mass casualty incidents and more. Use of diagnostic equipment, operation of stretchers and ambulances and skills related to prehospital emergency care will be covered in lab sessions and in internship on a 911 ambulance.

Graduates of the Emergency Medical Technician program will be eligible to challenge the National Registry of Emergency Medical Technicians' (NREMT) practical and written certification examinations and are immediately employable upon certification.

Prior to enrollment in the EMS pathway, students must place into [MAT 110](#).

Patient Care Assistant Certificate

DISCLAIMER:

This certificate program is an organized series of credit courses, consisting of 19 credit hours and concentrates on study in a particular field. The certificate is intended to provide the graduate with the training necessary to receive a job in the applicable field. Courses are non-transferrable and are considered the beginning and ending of certification. The certificate does not build into any other diploma or degree.

First Semester

[AHS 117](#) Certified Nursing Assistant - 4 credits

[AHS 163](#) Long-Term Care - 5 credits

Second Semester

[AHS 143](#) Phlebotomy Skills - 6 credits

[AHS 179](#) Cardiac Monitoring Practicum - 4 credits

Total Credit Hours: 19 Credits

Mission Statement:

The Patient Care Assistant Program offers a certificate that has been designed to provide graduates with the skills necessary to practice safely within their defined scope of practice to promote, protect and improve the health of diverse communities. The student will graduate with the necessary skills to function as an entry-level patient care technician.

Entrance Requirements:

- Admission to the college and the successful completion of the Work Keys Assessments (Reading for information, Applied Math and Locating Information). Applicants may also opt to take the COMPASS exam as part of the admissions process.
- Applicant must have a high school diploma and be at least 18 years old (unless taking advantage of the Dual Enrollment process).

Type of Program:

- The program is offered at various times and is completed in one semester
- Graduates of this program are eligible to apply to take the Competency Exams for state certification in Phlebotomy, Electrocardiography and Certified Nursing Assistant (must be taken within one year of completion of courses). An 80% competency is required in all core courses

Type of Degree:

Certificate

Employment Opportunities:

Hospitals, doctors' offices, medical clinics, nursing homes, home health

- This program provides students with the knowledge and skills to prepare for a position as a patient care technician, which is an unlicensed, assistive person working under the direction and supervision of a registered nurse.

Mandatory Requirements once accepted into the program:

- Students must have evidence of valid AHA Healthcare Provider CPR certification, and preclinical orientation as applicable.
- Completed health physical including required immunizations prior to starting the PCA program.
- A criminal background check is required for clinical experiences.
- Students must be able to attend all clinical experiences.

- A negative 10-panel drug screen is required. Random screens be performed throughout the program.
- After registering for the PCA program, students are required to attend a scheduled mandatory orientation meeting.

Electronic Health Records Certificate

DISCLAIMER:

This certificate program is an organized series of credit courses, consisting of 17 credit hours and concentrates on study in a particular field. The certificate is intended to provide the graduate with the training necessary to receive a job in the applicable field. Courses are non-transferrable and are considered the beginning and ending of certification. The certificate does not build into any other diploma or degree.

First Semester

- [AHS 171](#) Introduction to Medical Coding - 4 credits
- [AHS 118](#) Medical Coding and Insurance - 5 credits

Second Semester

- [AHS 172](#) Medical Coding and Classification Systems - 5 credits
- [AHS 174](#) Medical Coding Practicum - 3 credits

Total Credit Hours: 17 Credits

Mission Statement:

The Electronic Health Records Program offers a certificate that has been designed to provide graduates with the skills necessary to work with computerized records kept by insurance companies, physician's offices, hospitals and other health care facilities.

Entrance Requirements:

- Admission to the college and the successful completion of the Work Keys Assessments (Reading for information, Applied Math and Locating Information). Applicants may also opt to take the COMPASS exam as part of the admissions process.
- Applicant must have a high school diploma and be at least 18 years old (unless taking advantage of the Dual Enrollment process).

Type of Program:

- The program is offered at various times and is completed in two semester

Type of Degree:
Certificate

Employment Opportunities:

Insurance companies, physician offices, clinics, hospitals and other helathcare facilities.

Mandatory Requirements once accepted into the program:

- A criminal background check is required for clinical experiences.
- Students must be able to attend all clinical experiences.
- A negative 10-panel drug screen is required. Random screens be performed throughout the program.
- After registering for the PCA program, students are required to attend a scheduled mandatory orientation meeting.

Pharmacy Technician Certificate

The Pharmacy Technician Certificate trains the student to work as a health care specialist under the supervision of a registered pharmacist to properly prepare and dispense medications, perform dosage calculations, maintain patient records/profiles and enter data into record systems.

Students will be required to participate in off-campus training in clinical facilities. Therefore,

students will need reliable transportation since assigned clinical sites are off campus.

The Aiken Technical College Pharmacy Technician Certificate is accredited by the American Society of Health-System Pharmacists.

Medical Coding Certificate

The medical coder is a health information professional trained to assign diagnostic and procedural codes, applying classification systems for optimal reimbursement in a variety of health care settings. The medical coder will establish a familiarity with other coding and classification systems utilized in nontraditional health care settings as well as reimbursement-related issues and skills including DRG assignment/validation, federal reimbursement systems and operations of third party payers and billing departments. Students completing the program are encouraged to sit for the national certification examinations administered by the American Health Information Management Association (AHIMA) and/or the American Academy of Professional Coders (AAPC).

After acceptance to the college, students must complete an additional application and be accepted into the medical coding program. Certain prerequisites must be completed prior to a student being admitted to this program or taking any of the HIM courses listed below. See the Enrollment Services Center or program coordinator for further information.

Hands-on coding practice will be achieved in virtual lab settings, and when possible, at clinical sites located throughout the community.

Medical Assistant Certificate

The Medical Assistant Certificate Program prepares the student to assist the physician in performing selected diagnostic tests as well as business office procedures.

Students applying for the Medical Assistant Program must go through a separate application process after being admitted to the college. There are additional requirements in order to qualify for admission to this program. The admission criteria is updated annually and students should review the current information for changes in the admissions process. Information packets detailing the application process for each admission program can be downloaded from the ATC [website](#) or are available in the Enrollment Services Center and the Dean of Health Sciences Office.

In addition, the student must complete a physical exam, provide proof of immunizations, pass a background check, pass a drug screen check and have student liability insurance.

The Aiken Technical College Medical Assistant Program is accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org) upon the recommendation of the Medical Assisting Education Review Board (MAERB).

Students will be required to participate in off-campus training in working clinical facilities therefore students will need reliable transportation, since assigned clinical sites are off campus.

Information Technology Programs

Associate in Applied Science: Major in Computer Technology

Students majoring in Computer Technology may select an emphasis in either Networking or Programming. The major requirements for both emphasis areas are the same and allow the student to study operating systems, computer hardware, programming languages, web page creation, database management and system analysis and design.

The Networking emphasis provides students with the knowledge and skills in hardware and software-specific concepts needed to install, maintain and troubleshoot today's complex interconnected business systems.

The Programming emphasis provides students with the knowledge and skills in desktop and web programming languages and software applications needed to create, maintain, and troubleshoot software systems and web sites for today's businesses.

Admission to the Associate in Applied Science with a Major in Computer Technology degree is restricted to those who have met the prerequisite requirements and/or have the permission of the department chair.

In order to enter the Computer Technology program, the following courses must be successfully completed with a grade "C" or higher: [ENG 032](#); [RDG 032](#); [MAT 032](#).

While completing the above courses, you may enter the Occupational Studies - Emphasis in Computer Technology Certificate.

Computer Networking Certificate

Graduates who earn the Computer Networking Certificate have the training and skills necessary to design, build and install personal computers and network systems. Personal computer troubleshooting, high-level TCP/IP design and active directory administration are among the skills taught in this certificate.

Admission to the Computer Networking Certificate is restricted to those who have met the prerequisite requirements and/or have the permission of the department chair. The Certificate in Computer Networking is designed to enhance skills of those who already have, or are pursuing, the Associate in Applied Science with a Major in Computer Technology degree and/or have computer programming experience.

Major Course Requirements..... 21 Credits

Internet Programming Certificate

The Internet Programming Certificate prepares students with the skills and training in programming techniques to create, maintain, and troubleshoot web pages and web sites that contain complex programming for E-commerce, dynamic content delivery from databases, and continual updates of web page layout.

Admission to the Internet Programming Certificate is restricted to those who have met the prerequisite requirements and/or have the permission of the department chair. The Certificate in Internet Programming is designed to enhance skills of those who already have, or are pursuing, the Associate in Applied Science with a Major in Computer Technology degree and/or have computer programming experience.

Total Credits Required: 27 Credits

Computer Game Design Certificate

The Computer Game Design Certificate provides students with the skills to understand and apply computer game design and development concepts. Students are prepared for entry-level employment in game design and related fields. Topics covered include game programming fundamentals, game math and physics, 2D and 3D graphics, and animation.

Admission to the Computer Game Design Certificate is restricted to those who have met the prerequisite requirements and/or have the permission of the Department Chair. The Certificate in Computer Game Design is designed to enhance skills of those who already have, or are pursuing, the Associate in Applied Science with a Major in Computer Technology degree and/or have computer programming experience.

Associate in Applied Science: Major in General Technology - Emphasis in Multimedia and Marketing

Graduates of the Associate in Applied Science with a Major in General Technology and an Emphasis in Multimedia and Marketing are prepared to be employed in the field of computer-based

multimedia production in a marketing environment. The degree provides the student with the skills to work with various media — text, graphics, HTML, animation, sound, web and video production — to be used in computer-based multimedia production.

Admission to the Associate in Applied Science with a Major in General Technology: Emphasis in Multimedia and Marketing degree is restricted to those who have met the prerequisite requirements and/or have the permission of the department chair.

In order to enter the Computer Technology/Multimedia/Marketing program, the following courses must be successfully completed with a grade “C” or higher: [ENG 032](#); [RDG 032](#); [MAT 032](#).

While completing these courses you may enter the Occupational Studies - Emphasis in Multimedia and Marketing Certificate.

Associate in Applied Science: Major in Network Systems Management

The Network Systems Management degree will have a primary but not exclusive target audience of enlisted soldiers, sailors and marines in the United States armed forces. The intent of the program is to allow servicemen and women the opportunity to attain this degree without having to attend Aiken Technical College as traditional students. Students will be able to complete the proposed degree program with a combination of approved military training courses, Aiken Technical College on-line courses and industry recognized Information Technology certifications that align with courses in the degree.

This program will prepare graduates in the area of Information Technology in a role as Computer Network, Systems, and Database Administrators and Computer Support Specialists. In order to enter the Network Systems Management degree, the following courses must be successfully completed with a grade "C" or higher: [ENG 032](#); [RDG 032](#); [MAT 032](#). If the student does not have computer technology military training or certifications such as A+, Network+, Server+, Security+, and/or CCNA, we recommend entry into the Associate of Applied Science: Major in Computer Technology with Emphasis in Networking degree.

While completing these courses you may enter the Occupational Studies - Emphasis in Computer Technology Certificate.

Manufacturing Programs

Associate in Applied Science: Major in Industrial Maintenance Technology

The Associate in Applied Science with a Major in Industrial Maintenance Technology degree combines the detailed study of Industrial Electricity/ Electronics and Industrial Maintenance Mechanics to prepare the student to be an electromechanical technician capable of the installation, repair and calibration of both basic and contemporary types of industrial machinery. The program's goal is to produce a graduate with the workmanship, design and problem solving capabilities to allow him/her to excel as a multi-trade technician.

Admission to the Associate in Applied Science with a Major in Industrial Maintenance Technology degree is restricted to those who have met the prerequisite requirements and/or have the permission of the Department Chair.

In order to enter the Industrial Maintenance Technology program, the following courses must be successfully completed with a grade "C" or higher: [ENG 032](#); [RDG 032](#); [MAT 032](#).

While completing the above courses, you may enter the Occupational Studies - Emphasis in Industrial Maintenance Technology Certificate.

Welding Certificate

The Welding Certificate is designed for students that have completed the Occupational Studies Certificate or students that can demonstrate basic welding skills. The Certificate courses cover welding symbols, common weld metal discontinuities, AWS and ASME welder performance qualification requirements and destructive and nondestructive testing methods. Welding proficiency of SMAW, FCAW of full penetration welds on mild steel and GTAW and GMAW of fillet and full penetration welds on aluminum will be accomplished. Students will become proficient in all positions of SMAW and GTAW Pipe

Admission to the Welding Certificate is restricted to those who have met the prerequisite requirements and/or have the permission of the academic coordinator.

Heating, Ventilation, Air Conditioning and Refrigeration Certificate

The Heating, Ventilation, Air Conditioning and Refrigeration Certificate provides students with those additional skills necessary for the installation, repair and calibration of air conditioning, refrigeration and heating systems.

Admission to the Heating, Ventilation, Air Conditioning, and Refrigeration Certificate is restricted to those students who have an associate degree or higher education in a related technical discipline or the Occupational Studies - Emphasis in Air Conditioning/Refrigeration. The Certificate supplements previous education by providing the student with the opportunity to develop the skills necessary as a heating, ventilation, and air conditioning technician.

Computerized Numerical Control (CNC) Certificate

The Computerized Numerical Control Certificate is for machinists desiring to upgrade or start CNC programming. This program includes the principles of CNC and programming, as well as Computer-Aided Design (CAD) and Computer-Aided Manufacturing (CAM).

Admission to the Computerized Numerical Control (CNC) Certificate is restricted to those who have met the prerequisite requirements and/or have the permission of the Department Chair. The Certificate in Computerized Numerical Control (CNC) is designed to enhance skills of those who already have earned the Machine Tool certificate and/or the experienced machinist desiring to upgrade or start CNC programming.

Note: Twelve semester-hours in Machine Tool or equivalent related experience approved by the department chair is required for admission.

Tower Installation I Certificate

This Applied Science certificate program is an organized series of credit courses, totaling 16 credit hours and concentrates on a particular field of study. The certificate is intended to provide the student with the necessary theory and hands-on education necessary to receive a job in the applicable field. Courses are non-transferrable and are considered to be the beginning and ending of the certification. However, a student can use the credit hours earned as the secondary area of study under the South Carolina technical College System approved General Technology degree model since it is an approved technical certificate.

Curriculum Display

Tower Installation I Certificate

The Tower Installation I certificate program will provide students with the entry level knowledge and skills to gain an apprentice position in the wireless installation tower industry. Topics covered

include safety, basic rigging and fall protection, principles of electricity, fiber optics, wireless technology, cell components, antenna basics, and spectrum management. Upon successful completion and graduation students are prepared for a Tower Apprentices position.

Course Requirements..... 16 Credits

All courses will be offered during mini terms each semester.

- [AHS 120](#) Responding to Emergencies (First Aid, CPR, OSHA) - 2 credits
- [ELW 101](#) Introduction to Wireless Technology - 1 credits
- [ELW 102](#) Introduction to Tower Safety - 3 credits
- [ELW 103](#) Introduction to Cable Accessories & Standards - 2 credits
- [ELW 111](#) Introduction to Electrical Line Worker - 3 credits
- [ELW 114](#) Introduction to Overhead Line Construction I - 3 credits
- [ELT 251](#) Special Topics in Electronics (Telecommunications) - 2 credits

Total Credits Required: 16 Credits

Mission Statement

The Tower Assembly certificate program will provide students with the entry level knowledge and skills to gain an apprentice position in the wireless installation tower industry. Topics covered include safety, basic rigging and fall protection, principles of electricity, fiber optics, wireless technology, cell components, antenna basics, and spectrum management. Upon successful completion and graduation students are prepared for a Tower Apprentices position.

Admission Requirements

- Applicant must have a high school diploma or GED
- Be at least 18 years of age
- Complete application to Aiken Technical College
- Submit high school transcript or GED
- Attend advisement session
- Complete WorkKeys assessments
- Complete any financial paperwork as required

Type of Program

Certificate

Employment Opportunities

The Tower certificate is designed for immediate placement as an apprentice in the wireless tower installation field and does not build into any other diploma or degree program. Tower certificate graduates are eligible for placement with:

- Wireless 4 Warrior
- Entry-level employment with 4G LTE Wireless Networks

Mandatory Requirements once accepted into the program:

1. Possess a valid driver's license
2. Possess the physical ability, agility and desire to work outdoors
3. Possess the physical ability to lift and carry up to 70lbs
4. Interested in working flexible hours
5. Submit to a drug screen prior to full employment
6. After registering for the Tower Installation program, students are required to attend a scheduled mandatory orientation on the first day of the 6 week period.

Nuclear

Associate of Applied Science- Major in Nuclear Quality Systems

The Associate in Applied Science with a major in Nuclear Quality Systems (NQS) provides the student with the opportunity to develop the skills necessary to perform quality assurance and quality control duties for construction, operation, maintenance, and manufacturing activities. The program offers two emphasis areas; Quality Control, which focuses on practices, techniques, and inspections in the fields of mechanical technology, electrical technology, and instruments and control technology; Quality Assurance which focuses on types of quality systems and standards, programmatic compliance audits, continuous improvement processes, management of QA records and documentation, and problem solving/critical thinking.

Admission to the Associate in Applied Science with a Major in Nuclear Quality Systems is restricted to those who have met the prerequisite requirements and/or have the permission of the Department Chair.

In order to enter the Nuclear Quality Systems program, the following courses must be successfully completed with a grade "C" or higher: [ENG 032](#); [RDG 032](#); [MAT 032](#).

Certificate of Applied Science- Major in Nuclear Quality Engineering Principles

This certificate is designed to develop the skills necessary to perform quality engineering duties related to the design of construction, operation, maintenance, and manufacturing related projects. These duties include understanding types of quality systems and standards, following the continuous improvement process (plan, do, check, act), planning programmatic compliance audits, managing records and documentation, applying quality assurance practices to the procurement cycle, awareness of how software affects quality, and practicing problem solving/critical thinking.

Admission to the Nuclear Quality Engineering Principles Certificate is restricted to those who have met the prerequisite requirements and/or have the permission of the Department Chair. The Certificate Nuclear Quality Engineering Principles is designed to augment skills of those who already have a related Associate or higher degree, significant work experience in quality systems, or related credentials.

Total Credits Required: 40 Credits

Certificate of Applied Science- Major in Electrical & I/C Nuclear Quality Control Inspection

The certificate supplements the previous education by providing the student with the opportunity to develop the skills necessary to perform quality control duties in the fields of electrical technology and instruments and control technology. These duties include understanding and applying quality systems, following the continuous improvement process (plan, do, check, act), managing Quality records and documentation, practicing problem solving/ critical thinking, source inspection, receipt inspection, in-process inspection (during fabrication or construction), final inspection, and the use of witness and hold points.

Admission to the Electrical & I/C Nuclear Quality Control Inspection Certificate is restricted to those

who have met the prerequisite requirements and/or have the permission of the Department Chair. The Certificate Electrical & I/C Nuclear Quality Control Inspection is designed to augment skills of those who already have a technical-related Associate or higher degree, significant work experience in quality control inspection, or related credentials.

Associate in Applied Science: Major in Radiation Protection Technology

The Associate in Applied Science with a major in Radiation Protection Technology (RPT), also known as Radiological Control (RADCON), provides the student with the opportunity to develop the skills necessary to evaluate a work site requiring radiological controls. Students will be able to design a plan to minimize personnel exposure to radiation, perform required radiological surveys for radiation and radioactive contamination, and manage a radiation protection program at a nuclear or Department of Energy (DOE) facility within the boundaries of radiological protection standards. Additionally, students will examine radiological survey data to detect and resolve errors in equipment operations.

Admission to the Associate in Applied Science with a Major in Radiation Protection Technology program is restricted to those who have met the prerequisite requirements and/or have the permission of the Department Chair.

In order to enter the Radiation Protection Technology program, the following courses must be successfully completed with a grade "C" or higher: [ENG 032](#); [RDG 032](#); [MAT 102](#).

While completing the above courses, you may enter the Occupational Studies - Emphasis in Radiation Protection Technology program.

Radiological Control Technology Certificate

The Certificate in Radiological Control Technology (RADCON), also known as Radiation Protection Technology, is meant for those students who possess an Associate Degree or higher in a science-related discipline. The certificate supplements the previous education by providing the student with the opportunity to develop the skills necessary to evaluate a work site requiring radiological controls. Students will be able to design a plan to minimize personnel exposure to radiation, perform required radiological surveys for radiation and radioactive contamination, and manage a radiation protection program at a nuclear or Department of Energy (DOE) facility within the boundaries of radiological protection standards. Additionally, students will examine radiological survey data to detect and resolve errors in equipment operations.

Admission to the Radiological Control (RADCON) Certificate is restricted to those who have met the prerequisite requirements and/or have the permission of the Department Chair. The Certificate in Radiological Control (RADCON) is designed to augment skills of those who already have a science-related Associate or Bachelor degree.

Associate in Applied Science: Major in Criminal Justice

The Associate in Applied Science with a Major in Criminal Justice degree is designed for the student currently working in the Criminal Justice field who wants to complete a degree program that will allow him/her to transfer to a senior institution and for the student who does not want to transfer to a senior institution, but seeks to complete a formal educational process in his/her chosen professional field. It is also designed for the student who is seeking an introduction to higher education in the field of Criminal Justice.

Admission to the Associate in Applied Science with a Major in Criminal Justice degree is restricted to those who have met the prerequisite requirements and/or have the permission of the department chair.

In order to enter the Associate in Applied Science: Major in Criminal Justice degree, the following courses must be successfully completed with a grade "C" or higher: [ENG 032](#); [RDG 032](#); [MAT 032](#).

While completing the above courses, you may enter the Occupational Studies - Emphasis in Criminal Justice Certificate.

Associate in Arts: Criminal Justice Transfer

The Associate in Arts: Criminal Justice Transfer Track degree provides ATC transfer students with the first two years (68 hours) of undergraduate credit towards a degree in Criminal Justice at the Citadel. All of the courses listed below, even those not found on the [Technical College Courses Transferable to Senior Institutions list*](#), will transfer to the Citadel under the ATC-Citadel Criminal Justice articulation agreement. AA-CRJ transfer students must maintain a minimum 2.0 GPA and are expected to apply to the Citadel in the evening studies program.

Science & Technology Programs

Associate in Applied Science: Major in Electronic Engineering Technology

The Associate in Applied Science with a Major in Electronic Engineering Technology degree prepares technicians who support electrical/electronics engineers and other technical professionals in the design, development, modification and testing of electronic circuits, devices and systems. This major and emphasis also includes instruction in science, mathematics and the electronics necessary to support learning in practical circuit feasibility, prototype development and testing, systems analysis (including design, selection, installation, calibration, and testing), solid-state and microminiature circuits and the application of technical data to specific problems in the electronics field.

Admission to the Associate in Applied Science with a Major in Electronic Engineering Technology degree is restricted to those who have met the prerequisite requirements and/or have the permission of the department chair.

In order to enter the Electronic Engineering Technology degree, the following courses must be successfully completed with a grade "C" or higher: [ENG 032](#); [RDG 032](#); [MAT 102](#).

While completing the above courses, you may enter the Occupational Studies - Emphasis in Electronic Engineering Technology Certificate.

Computer Electronics Certificate

Admission to the Computer Electronics Certificate requires the completion of the prerequisites listed below. Graduates of the Certificate in Computer Electronics receive the skills and training in digital electronics, microprocessor interfacing, computer hardware/software and networking. Graduates should qualify for employment opportunities in electronics technology, computer service, computer networks and other areas requiring knowledge of electronics and computer systems.

Admission to the Computer Electronics Certificate is restricted to those who have met the prerequisite requirements and/or have the permission of the department chair. The Certificate in Computer Electronics is designed to enhance skills of those who already have the Associate in Applied Science with a Major in Electronics Engineering Technology degree.

Entry into this program is restricted to those students having met all prerequisites for the following courses.

Associate in Applied Science: Major in General Technology - Emphasis in Engineering Graphics

The Associate in Applied Science with a Major in General Technology, Emphasis in Engineering Graphics Technology degree is the combined study of Industrial Drafting, Computer-Aided Drafting and Computer-Aided Manufacturing.

This degree is designed to produce a drafter capable of creating detailed engineering drawings. Emphasis is on computer-generated drawings and programming for Computer-Aided Manufacturing using AutoCAD and MICROSTATION software for computer-aided drafting and FeatureCAM software for computer-aided manufacturing.

Admission to the Associate in Applied Science with a Major in General Technology, Emphasis in Engineering Graphics degree is restricted to those who have met the prerequisite requirements and/or have the permission of the department chair.

In order to enter the Engineering Graphics degree, the following courses must be successfully completed with a grade "C" or higher: [ENG 032](#); [RDG 032](#); [MAT 032](#).

While completing these courses, you may enter the Occupational Studies - Emphasis in Engineering Graphics Technology Certificate.

Physical and Chemical Sciences Certificate

This Physical and Chemical Sciences Certificate prepares graduates for work in the physical and chemical processing industry. The certificate is a blend of math and science disciplines that expose students to a broad spectrum of learning outcomes associated with modern physical and chemical principles and processes.

The certificate will also provide graduates with the strong base of knowledge needed for additional study in physical, nuclear and/or chemical sciences.

Associate in Arts: Social and Behavioral Sciences Track

The Associate in Arts: Social and Behavioral Sciences Track provides students with an opportunity to learn a variety of theories, approaches, methodologies and perspectives pertaining to behavioral and sociological concepts. These courses emphasize a multidisciplinary approach to the understanding and study of individuals and groups and the societies and institutions they create.

The degree of Associate of Arts: Social and Behavioral Science Track is intended for students who plan to complete a Bachelor's degree at a transfer institution in a social and behavioral science-related major such as Sociology, Psychology or Social Work.

General Education Elective Courses

Students in technical programs may select any of the courses listed below to satisfy program requirements for courses in the Humanities/Fine Arts category and/or courses in the Social/Behavioral Sciences category.

Note:
Students enrolled in the Associate in Arts, Associate in Science and General Studies Certificate MUST select courses from these official courses to fulfill degree and certificate requirements. Courses not underlined are currently not offered at Aiken Technical College.

Courses may be taken online or in the classroom. Students should consult with their advisors before enrolling in an online course.

ACC-100 Basic Accounting

Credits: 3
This course introduces basic accounting principles, including the accounting cycle, bookkeeping, the debit-credit procedure, journals, ledgers and trial balances. 3.0-0.0-3.0
Prerequisite(s)..... [MAT-032](#) and [RDG-032](#) or acceptable placement scores for math and reading.

ACC-101 Accounting Principles I

Credits: 3
This course introduces basic accounting procedures for analyzing, recording, and summarizing financial transactions, adjusting and closing the financial records at the end of the accounting cycle, and preparing financial statements. 3.0-0.0-3.0
Prerequisite(s)..... [MAT-101](#) AND [RDG-032](#) OR [ACC-100](#)

ACC-102 Accounting Principles II

Credits: 3
This course emphasizes managerial accounting theory and practice in basic accounting and procedures for cost accounting, budgeting, cost-volume analysis, and financial statement analysis. 3.0-0.0-3.0
Prerequisite(s)..... [ACC-101](#)

ACC-120 Federal Income Tax

Credits: 3
This course is a study of the income tax structure from the standpoint of the individual, partnership, and corporation. 2.0-3.0-3.0
Prerequisite(s)..... [ACC-101](#)

ACC-150 Payroll Accounting

Credits: 3
This course introduces the major tasks of payroll accounting, employment practices, federal, state and local governmental laws and regulations, internal controls, and various forms and records. Computer simulation included. 3.0-0.0-3.0
Prerequisite(s)..... [ACC-101](#) [CPT-101](#)

ACC-201 Intermediate Accounting I

Credits: 3
This course explores the fundamental processes of accounting theory, including the preparation of financial statements. 3.0-0.0-3.0
Prerequisite(s)..... [ACC-102](#)
Corequisite(s)..... [ACC-202](#)

**Numbering System
3.0-0.0-3.0**

Following each course description, a numerical system will be displayed describing the following:

- 1st #:** Class hours per week
- 2nd #:** Lab hours per week
- 3rd #:** Credits earned for completed course

ACC-202 Intermediate Accounting II

Credits: 3

This course covers the application of accounting principles and concepts in account evaluation and income determination, including special problems peculiar to corporations and the analysis of financial reports. 3.0-0.0-3.0

Prerequisite(s)..... None

ACC-230 Cost Accounting I

Credits: 3

This course is a study of the accounting principles involved in job order cost systems. 3.0-0.0-3.0

Prerequisite(s)..... [ACC-102](#), [ACC-150](#)

ACC-231 Cost Accounting II

Credits: 3

This course is a study of the accounting principles involving processing and standard cost systems. 3.0-0.0-3.0

Prerequisite(s)..... [ACC-230](#)

ACC-240 Computerized Accounting

Credits: 3

This course is a study of using the computer to design and implement various accounting functions, including financial transactions, records, statements, reports and documents. 3.0-0.0-3.0

Prerequisite(s)..... [ACC-101](#) [CPT-101](#)

ACC-265 Not-For-Profit Accounting

Credits: 3

This course introduces the special accounting needs of municipalities, counties, states, the federal government and governmental agencies, and other not-for- profit organizations. 3.0-0.0-3.0

Prerequisite(s)..... [ACC-231](#) OR [ACC-202](#)

ACR-101 Fundamentals of Refrigeration

Credits: 5

This course covers the refrigeration cycle, refrigerants, pressure/temperature relationship, and system components. 3.0-6.0-5.0

Prerequisite(s)..... [MAT-031](#) and [RDG-031](#)

ACR-102 Tools and Service Techniques

Credits: 3

This course is a basic study of the uses of tools and service equipment used in the installation and repair of HVAC equipment. 2.0-3.0-3.0

Prerequisite(s)..... [ACR-101](#)

ACR-107 Wiring Diagrams

Credits: 2

This course covers the basic requirements for interpretation of wiring diagrams used in air conditioning and refrigeration equipment. 2.0-0.0-2.0

Prerequisite(s)..... [MAT-031](#), [RDG-031](#), [ACR-110](#), and [ACR-120](#)

Corequisite(s)..... [ACR-210](#)

ACR-110 Heating Fundamentals

Credits: 4

This course covers the basic concepts of oil, gas, and electric heat, their components and operations. 2.0-6.0-4.0

Prerequisite(s)..... None

ACR-120 Basic Air Conditioning

Credits: 4

This course is a study of various types of air conditioning equipment including electrical components, schematics. 2.0-6.0-4.0

Prerequisite(s)..... [ACR-101](#)

ACR-131 Commercial Refrigeration

Credits: 4

This course is a study of maintenance and repair of commercial refrigeration systems. 2.0-6.0-4.0

Prerequisite(s)..... [ACR-101](#)

ACR-140 Automatic Controls

Credits: 3

This course is a study of the adjustment, repair, and maintenance of a variety of pressure and temperature-sensitive automatic controls. 2.0-3.0-3.0

Prerequisite(s)..... None

ACR-210 Heats Pumps

Credits: 4

This course is a study of theory and operational principles of the heat pump. 3.0-3.0-4.0

Prerequisite(s)..... None

ACR-221 Residential Load Calculations

Credits: 2

This course is a study of heat losses/gains in residential structures. 2.0-0.0-2.0

Prerequisite(s)..... [MAT-101](#), [ACR-101](#), [EGT-123](#)

ACR-242 Electronic Controls

Credits: 2

This course covers the basic fundamentals for the adjustment, repair, and maintenance of electronic controls used in air conditioning systems. 1.0-3.0-2.0

Prerequisite(s)..... [ACR-101](#), [ACR-140](#), [EEM-145](#)

AHS-102 Medical Terminology

Credits: 3

This course covers medical terms including roots, prefixes, and suffixes with emphasis on spelling, definition, and pronunciation. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#) and [RDG-032](#)

AHS-105 Medical Ethics and Law

Credits: 2

This course provides a study of ethical conduct and legal responsibilities related to health care. 2.0-0.0-2.0

Prerequisite(s)..... [RDG-032](#)

AHS-113 Head and Neck Anatomy and Physiology

Credits: 1

This course provides a detailed study of the structure of the head and neck with emphasis on structure as it pertains to the study of dental science. 0.0-3.0-1.0

Prerequisite(s)..... [BIO-112](#) and admissions to the EDA program.

AHS-117 The Care of Patients

Credits: 4

This course includes ma study of concepts required in nurse assisting. 3.0-3.0-4.0

Prerequisite(s)..... None

AHS-118 Medical Coding and Insurance

Credits: 5

This course includes a study of coding procedures and their relationship to insurance. 5.0-0.0-5.0

Prerequisite(s)..... None

AHS-120 Responding to Emergencies

Credits: 2

This course is a study of emergency care procedures utilizing first aid and CPR. 2.0-0.0-2.0

Prerequisite(s)..... None

AHS-126 Health Calculations

Credits: 1

This course is a study of the mathematical concepts needed in health science studies. 0.0-3.0-1.0

Prerequisite(s)..... [MAT-032](#)

AHS-143 Phlebotomy Skills

Credits: 6

This course is a study of phlebotomy equipment, procedures, techniques, and practical experience.

Prerequisite(s)..... [AHS-117](#) [AHS-163](#)

AHS-144 Phlebotomy Practicum

Credits: 5

This course provides a detailed study and practice of phlebotomy procedures utilized in hospital settings, clinical facilities, and physician's offices. 1.0-12.0-5.0

Prerequisite(s)..... None

AHS-145 Electrocardiography

Credits: 2

This course provides the basick skills necessary to perform ECG's in a hospital, Physician's offices or other health care settings. The student will be able to perform and interpret basic ECG's. 0.0-6.0-2.0

Prerequisite(s)..... [AHS-117](#) and [AHS-163](#)

AHS-155 Special Topics in Health Care

Credits: 3

This course emphasizes specialized job-related education in health care. 1.0-6.0-3.0

Prerequisite(s)..... [ENG-032](#) and [RDG-032](#)

AHS-163 Long Term Care

Credits: 5

This course emphasizes the basic skills needed to care for residents in the long-term care setting. Students will apply practical use of these skills through clinical experiences in a long-term care facility. 3.0-6.0-5.0

Prerequisite(s)..... [AHS-117](#)

AHS-171 Introduction to Medical Coding

Credits: 4

This course is an introduction to the concepts of health care billing and reimbursement using guidelines of Current Procedural Terminology (CPT) nomenclature and ICD9 (International Classification of Disease).

Prerequisite(s)..... None

AHS-172 Med Coding and Classification Systems

Credits: 5

This course is an advanced study and application of CPT and ICD9 principles as related to the procedures used by private and governmental health insurance programs. Ethical concerns related to reimbursement principles will be emphasized. 5.0- 0.0-5.0

Prerequisite(s)..... None

AHS-174 Medical Coding Practicum

Credits: 3

This course is a practicum with the focus on application of coding skills and interface with billing methodologies. 0.0-9.0-3.0

Prerequisite(s)..... [AHS-172](#)

AHS-177 Cardiac Monitoring Application

Credits: 4

This course is a study of cardiac monitoring techniques including basic cardiovascular anatomy and physiology, electrophysiology, rhythms and dysrhythmia recognition and equipment maintenance. 2.0-6.0-4.0

Prerequisite(s)..... None

AHS-179 Cardiac Monitoring Practicum

Credits: 4

This course provides a comprehensive cardiac monitoring experience in a clinical setting. This is a practicum experience designed to enhance student performance as a health unit coordinator. Students will also observe monitored patients for any type of cardiac involvement.

Prerequisite(s)..... [AHS-117](#) and [AHS-163](#)

ANT-202 Cultural Anthropology

Credits: 3

This course includes an exploration and comparison of selected contemporary cultures, including their languages. The course also includes an introduction to the concepts, methods, and data of sociocultural anthropology and anthropological linguistics. 3.0-0.0-3.0

Prerequisite(s)..... [RDG-032](#)

ART-101 Art History and Appreciation

Credits: 3

This is an introductory course to the history and appreciation of art, including the elements and principles of the visual arts. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#) and [RDG-032](#) or acceptable placement score

ART-105 Film As Art

Credits: 3

This course provides an introduction to the appreciation of film and covers the elements and principles of cinema with historical and contemporary examples. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

ART-108 History of Western Art

Credits: 3

This course is a visual and historical survey of western art forms from the Renaissance through modern times. The techniques, forms, and expressive content of painting, sculpture, and architecture will be studied within the context of the cultural environment which produced them. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

ART-111 Basic Drawing I

Credits: 3

This course provides an introduction to the materials and basic techniques of drawing. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#) or acceptable placement score

ART-112 Basic Drawing II

Credits: 3

This course covers a study of the materials and the basic techniques of drawing building on the techniques covered in Art 111. 3.0-0.0-3.0

Prerequisite(s)..... [ART-111](#)

ART-289 Digital Photography

Credits: 3

This course is an exploration of the opportunities and possibilities of the digital photography revolution. The class will include instruction and assignments in the theory, practice, and use of digital cameras, scanners, and printers. 2.0-3.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#) or acceptable placement score

ARV-121 Design

Credits: 3

This course covers basic theories, vocabulary, principles, techniques, media and problem solving in basic design. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

ARV-212 Digital Photography

Credits: 3

This course is a study of the principles, terminology, techniques, tools, and materials of basic digital photography. Images produced in this course will address the needs of the visual communication industry. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#) or acceptable placement score

Search for... Programs of Study Courses

BAF-201 Principles of Finance

Credits: 3

This is an introductory course to the field of finance. The monetary and credit system are examined along with how the demand for funds is met in both the public and private sector. Quantitative features include financial ratios, the time value of money, capital budgeting and working capital budgeting. 3.0-0.0-3.0

Prerequisite(s)..... [ACC-101](#), [BUS-140](#)

BAF-230 Computers in Finance

Credits: 3

This course is a study of the operations of computers and available software. Spreadsheet software for financial applications, including amortization schedules, capital budgeting and times value problems is utilized. Quickbooks software application for the small business entrepreneur is utilized. 3.0-0.0-3.0

Prerequisite(s)..... [ACC-101](#), [CPT-101](#)

BIO-101 Biological Science I

Credits: 4

This course is a study of the scientific method, basic biochemistry, cell structure and function, cell physiology, cell reproduction and development, Mendelian genetics, population genetics, natural selection, evolution, and ecology. Laboratory exercises supplement lectures. 3.0-3.0-4.0

Prerequisite(s)..... [RDG-032](#); High school biology is recommended

BIO-102 Biological Science II

Credits: 4

This course is a study of the classification of organisms and structural and functional considerations of all kingdoms (particularly major phyla as well as viruses). Vertebrate animals and vascular plants are emphasized. Laboratory exercises supplement lectures. 3.0-3.0-4.0

Prerequisite(s)..... [BIO-101](#) or permission of the Department Chair

BIO-105 Principles of Biology

Credits: 4

This is an introductory biology course, unifying biology concepts and principles at all levels. Emphasis is on current topics in biology. 3.0-3.0-4.0

Prerequisite(s)..... [RDG-032](#); High school biology is recommended

BIO-112 Basic Anatomy and Physiology

Credits: 4

This course is a basic integrated study of the structure and function of the human body. Laboratory sessions relate closely to lecture material. 3.0-3.0-4.0

Prerequisite(s)..... [RDG-032](#); High school biology is recommended

- 1st #:** Class hours per week
- 2nd #:** Lab hours per week
- 3rd #:** Credits earned for completed course

BIO-115 Basic Microbiology

Credits: 3

This is a general course in microbiology, including epidemiology, presence, control, and identification of microorganisms. The student performs routine microbiologic laboratory procedures with emphasis on practical application of classroom studies. 2.0-3.0-3.0

Prerequisite(s)..... [RDG-032](#) and successful completion of any college science course with laboratory or consent of program coordinator.

BIO-150 Anatomy Review for Kinesiology

Credits: 1

This course is a study of the fundamentals of human movement to include detailed musculoskeletal and neuromuscular anatomy, an introduction to kinesiological terms, joint planes of movement, and analysis of motion. 1.0-0.0-1.0

Prerequisite(s)..... [BIO-210](#), [BIO-211](#)

BIO-210 Anatomy and Physiology I

Credits: 4

This is the first in a sequence of courses, including an intensive coverage of the body as an integrated whole. All body systems are studied. Laboratory sessions emphasize microscopic studies and dissections. 3.0-3.0-4.0

Prerequisite(s)..... [RDG-032](#); [BIO-112](#) or other college biology or chemistry course is strongly recommended

BIO-211 Anatomy and Physiology II

Credits: 4

This is a continuation of a sequence of courses, including intensive coverage of the body as an integrated whole. All body systems are studied. Laboratory sessions emphasize microscopic studies and dissections. 3.0-3.0-4.0

Prerequisite(s)..... [BIO-210](#)

BIO-216 Physiology

Credits: 4

This course is a study of human physiological processes in relation to homeostasis. 3.0-3.0-4.0

Prerequisite(s)..... None

BIO-225 Microbiology

Credits: 4

This is a detailed study of microbiology as it relates to infection and the disease processes of the human body. Topics include immunity, epidemiology, medically important microorganisms, and diagnostic procedures for identification. 3.0-3.0-4.0

Prerequisite(s)..... [RDG-032](#) and successful completion of any college science course with a laboratory or consent of Department Chair.

BUS-135 Wage and Salary Administration

Credits: 3

This course is a study of the proper recording and reporting of payroll with special emphasis on internal controls. Payroll computations - both manual and computer-generated - are included. 3.0-0.0-3.0

Prerequisite(s)..... [ACC-101](#), [CPT-101](#)

BUS-140 Business Mathematics

Credits: 3

This course provides applications of business mathematics in the study of discounting, marking up, inventory and insurance. Other topics may include payrolls and commission computations, introduction to stocks and bonds and other accepted business practices.

Prerequisite(s)..... [MAT-032](#)

BUS-210 Introduction to E-Commerce in Business

Credits: 3

This course is the study of electronic commerce and the operations and applications from the business perspective. Emphasis is placed on business concepts and strategies and how they apply to the process of buying and selling goods and services online. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

BUS-225 Social, Ethical, Legal Aspects of Business

Credits: 3

This course is a study of how the social, legal, economic, political, technological and ecological dimensions of the external environment affect business. Specific topics include values and ethics in business, government and business relations, corporate social responsibility and business law. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-101](#), [MAT-032](#), [MGT-101](#)

BUS-275 Business Internship

Credits: 3

This course includes practical experiences in an approved business setting in conjunction with regular class meetings. The Class sessions will be devoted to discussing topics that will enhance the student's employability skills. 1.0-8.0-3.0

Prerequisite(s)..... [ENG-101](#) AND [SPC-205](#) OR [SPC-209](#) AND 75% of courses required for Accounting, Management, and Marketing degree.

Search for... Programs of Study Courses

CHM-105 General Organic and Biochemistry

Credits: 4

This course is a study of fundamental principles of chemistry, including atomic and molecular structure, common substances and reactions, introduction to organic chemistry and biochemistry. 3.0-3.0-4.0

Prerequisite(s)..... [MAT-102](#)

CHM-110 College Chemistry I

Credits: 4

This is the first course in a sequence which includes the following topics: atomic and molecular structure, nomenclature and equations, properties, reactions and states of matter, stoichiometry, gas laws, solutions and equilibria. 3.0-3.0-4.0

Prerequisite(s)..... [MAT-102](#)

CHM-111 College Chemistry II

Credits: 4

This is a continuation of the study of atomic and molecular structure, nomenclature and equations, properties, reactions, and state of matter, stoichiometry, gas laws, solutions, and equilibria. Other topics included are kinetics, thermodynamics, and electrochemistry. 3.0-3.0-4.0

Prerequisite(s)..... [CHM-110](#)

CHM-211 Organic Chemistry I

Credits: 4

This is the first in a sequence of courses that includes nomenclature, structure and properties, and reaction mechanisms of basic organic chemistry. 3.0-3.0-4.0

Prerequisite(s)..... [CHM-111](#)

CIM-131 Computer Integrated Manufacturing

Credits: 3

This course is a comprehensive review of the total manufacturing operation. This is the Project Lead the Way (PLTW) specialty course Computer Integrated Manufacturing. 2.0-3.0-3.0

Prerequisite(s)..... [EET-140](#) OR [EGR-130](#) OR [EGT-152](#) AND [MAT-102](#) OR [MAT-155](#)

COL-103 College Skills

Credits: 3

This course may include selected topics such as career planning, study skills, stress management, tutoring, group guidance, and other subjects to facilitate student success. It is designed to help students gain confidence in their ability to learn and succeed in college. 3.0-0.0-3.0

Prerequisite(s)..... None

2014 - 2015 Student Handbook

Numbering System 3.0-0.0-3.0

Following each course description, a numerical system will be displayed describing the following:

1st #: Class hours per week
2nd #: Lab hours per week
3rd #: Credits earned for completed course

CPT-101 Introduction to Computers

Credits: 3

This course covers basic computer history, theory and applications, including word processing, spreadsheets, data bases, and the operating system. Applications covered include MS Word, MS Access, MS Excel, email and the Windows operating system. 2.0-3.0-3.0

Prerequisite(s)..... [RDG-032](#)

CPT-160 Digital Vector Graphics I

Credits: 3

This course is a study of the principles, terminology, techniques and tools used in vector computer graphics software to create and modify electronic art. Topics include selection tools, drawing paths, creating shapes, adding type, applying transformations, and managing layers. Software used is Adobe Illustrator. 2.0-3.0-3.0

Prerequisite(s)..... [RDG-032](#)

CPT-161 Intro to Digital Raster Graphics I

Credits: 3

This course is a study of the fundamental tools and techniques used in basic digital image creation and manipulation of raster computer files. Topics include selection techniques, adding type, managing layers, applying special effects, and using painting tools. Software used is Adobe Photoshop. 2.0-3.0-3.0

Prerequisite(s)..... [RDG-032](#)

CPT-162 Introduction to Web Page Publishing

Credits: 3

This course is a study of the fundamentals of web page design and implementation. This course teaches the foundation concepts of the HTML language. The use of styles for formatting web page appearance, both within the HTML page and in Cascading Style Sheets, are covered in depth. 2.0-3.0-3.0

Prerequisite(s)..... [RDG-032](#)

CPT-209 Computer Systems Management

Credits: 3

This course examines the methods and procedures used in maintaining microcomputer systems. Topics include hardware and software installation, configuration, operations, and troubleshooting. This course is applicable to the Associate in Applied Science: Major in Computer Technology and the Associate in Applied Science: Major in Telecommunications Systems Management degree: it is equivalent to A+ Certification. 2.0-3.0-3.0

Prerequisite(s)..... [RDG-032](#)

CPT-212 Visual Basic Programming

Credits: 3

This course focuses on Windows programming using Visual Basic to create graphical user interfaces. The course examines forms, controls, graphical controls, loops, control arrays, database and traditional file processing, and application class scheduling. 2.0-3.0-3.0

Prerequisite(s)..... [CPT-232](#)

CPT-232 C++ Programming I

Credits: 3

This introductory course in C++ Programming I emphasizes the designing, coding, testing, and debugging of C++ programs involving input/output operations, data types, storage classes, decision structures, looping, functions, arrays, simple pointers, and strings. The focus of instruction is the use of C++ for advanced game programming. 2.0-3.0-3.0

Prerequisite(s)..... [CPT-168](#) or [MAT-101](#)

CPT-233 C++ Programming II

Credits: 3

This course introduces object-oriented design techniques using C++. Topics include classes, friends, overloading operators, inheritance, and virtual functions. The focus of instruction is the use of C++ for advanced game programming. 2.0-3.0-3.0

Prerequisite(s)..... [CPT-232](#)

CPT-238 Internet Scripting

Credits: 3

This course is a study of Internet programming including the syntax of scripting languages and Internet programming concepts and examines topics related to client-side scripting language programming as well as introducing topics related to server-side scripting. This course focuses on JavaScript, including the jQuery library. 2.0-3.0-3.0

Prerequisite(s)..... [CPT-232](#), [CPT-162](#), AND [CPT-212](#) OR [CPT-239](#)

CPT-239 Active Server Pages

Credits: 3

This course is a study of Active Server Pages (ASP) programming to build, implement, and execute ASP scripts. Examines topics related to the syntax of server-side ASP scripting as well as the use of ASP with databases. ASP is covered. 2.0-3.0-3.0

Prerequisite(s)..... [CPT-162](#) AND [CPT-232](#) OR [CPT-168](#)

CPT-240 Internet Programming With Databases

Credits: 3

This course is a study of the implementation of dynamic web pages focusing on the development of web sites that interact with databases utilizing current server-side technologies along with the databases to deliver dynamic content to the client browser. This course continues the study of web programming using PHP and MySQL. 2.0-3.0-3.0

Prerequisite(s)..... [CPT-239](#), [CPT-242](#)

CPT-242 Database

Credits: 3

This course introduces data base models and the fundamentals of data base design. Topics include data base structure, database processing, and application programs which access a data base. SQL is covered in detail using MySQL as the database management system. 2.0-3.0-3.0

Prerequisite(s)..... [CPT-232](#) OR [CPT-168](#)

CPT-251 Digital Video Production

Credits: 3

This course is the study of basic aspects of digital video production. Topics include planning the project, asset creation and acquisition, management of assets, digital editing techniques, transition, titles, audio, and other effects. Also includes export of product to various media, including web export. Software used is Adobe Premiere. 2.0-3.0-3.0

Prerequisite(s)..... [RDG-032](#)

CPT-252 Digital Animation

Credits: 3

This course is the study of basic aspects of computer animation. Topics include frame-by- frame animation, motion paths, tweening, import and export of objects, including web integrated export, morphing, layering, and creating special effects for web use. Software used is Adobe Flash. 2.0-3.0-3.0

Prerequisite(s)..... [RDG-032](#)

CPT-257 Operating Systems

Credits: 3

This course examines the theory of operating systems and how the operation system theory is implemented in current operating systems. 2.0-3.0-3.0

Prerequisite(s)..... [RDG-032](#)

CPT-265 Advanced Systems and Procedures

Credits: 3

This course uses a complete case study to show the design, development, and implementation business system. The case study will be developed using a team approach to problem solving and systems development. 2.0-3.0-3.0

Prerequisite(s)..... [CPT-212](#), [CPT-233](#), [CPT-239](#), and [CPT-242](#)

CPT-269 3D Digital Animation

Credits: 3

This course is a study of 3D computer graphics and animation. Topics include philosophy of 3D space, 3D modeling, texturing, lighting, materials, particles, dynamics, animation, cameras, and rendering. Software used is Maya. 2.0-3.0-3.0

Prerequisite(s)..... [RDG-032](#)

CPT-284 ActionScript Programming I

Credits: 3

Introduction to the ActionScript programming language. Topics include syntax, event handlers, objects, functions, and working with Flash animations to design dynamic web pages. 2.0-3.0-3.0

Prerequisite(s)..... [CPT-252](#) AND [CPT-232](#) OR [CPT-168](#)

CPT-288 Computer Game Development I

Credits: 3

This course introduces computer game design and development using Windows API model. Topics include creating 3D models using matrices, transformation, rotation, texture mapping, 3D lighting, meshes, sprites, particles, special effects, and the application of game math and physics techniques. 2.0-3.0-3.0

Prerequisite(s)..... [CPT-233](#)

CPT-293 Advanced Multimedia Applications

Credits: 3

This course covers advanced topics for micro- computer multimedia development utilizing advanced techniques in the use of text, graphics, animation, sound, video, and compact disk. Script language programming and its use in the development of interactive multimedia software used is Adobe Creative Suite. 2.0-3.0-3.0

Prerequisite(s)..... [CPT-160](#), [CPT-161](#), [CPT-162](#), and [IST-238](#)

CPT-295 Desktop Publishing Applications

Credits: 3

This course is a study of application software used to design, edit and produce a variety of documents for marketing purposes. Software used is Adobe InDesign. 2.0-3.0-3.0

Prerequisite(s)..... [RDG-032](#)

CRJ-101 Introduction to Criminal Justice

Credits: 3

This course includes an overview of the functions and responsibilities of agencies involved in the administration of justice to include police organizations, court systems, correctional systems, and juvenile justice agencies. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

CRJ-110 Police Patrol

Credits: 3

This course provides an understanding of the duties, extent of authority, and responsibilities of the uniformed patrolman. Special emphasis is placed on patrol function-line activities, including traffic control and investigation, community relations, vice control, tactical units,civil disturbances, and preventive control. 2.0-3.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

CRJ-120 Constitutional Law

Credits: 3

This course covers the analysis of the historical development of the U.S. Constitution and the relationship of rights contained therein to the State and the individual. The application of the Bill of Rights to federal and state systems is examined. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#),[RDG-032](#)

CRJ-125 Criminology

Credits: 3

This course is a study of the various theories of criminal causation and control, the identification of criminal typologies, and the reaction of society to crime and criminals. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

CRJ-140 Criminal Justice Report Writing

Credits: 3

This course is a study of the proper preparation and retention of criminal justice records and reports,

including observational skills, formatting and the value of accurate, complete and selective written articulation of information and observations. 2.0-3.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

CRJ-202 Criminalistics

Credits: 3

This course covers and introduction to investigative techniques which stress the examination of questioned documents, fingerprint techniques, polygraph examinations, firearms identifications, pathology, toxicology, ballistics and clandestine operations. 2.0-3.0-3.0

Prerequisite(s)..... [CRJ-120](#) and [CRJ-140](#)

CRJ-217 Crime Scene Invest for Major Incidents &

Credits: 3

This course introduces students to securing, documenting and processing a large geographical crime scene. Topics include implementation of an effective incident command system, obtaining necessary resources and overcoming unexpected obstacles associated with investigating a large geographical event. In addition, police tactical operations and approaching and resolving dangerous situations will be studied. 2.0-3.0-3.0

Prerequisite(s)..... [CRJ-120](#)

CRJ-224 Police Community Relations

Credits: 3

This course is a study of the importance of two-way communication between the criminal justice system and the community to foster a working relationship to control crime. A variety of topics are studied, including citizen involvement in crime prevention and police officer interpersonal relations. Furthermore, different ethical systems that police officers may encounter and how behaviors are judged will be discussed. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

CRJ-230 Criminal Investigation I

Credits: 3

This course is a study of the fundamentals of interviewing witnesses and interrogating suspects. Different methods of conducting crime scene searches and methods used in investigating various crimes are studied in this course. 2.0-3.0-3.0

Prerequisite(s)..... [CRJ-120](#), [CRJ-140](#)

CRJ-235 Practical Crime Scene Investigations

Credits: 3

This course is a study of practical, hand-on instruction in methodology and policies for the identification, interpretation, collection, packaging, preservation and chain of custody of crime scenes and evidence taken from the crime scenes. In addition, the science of fingerprints and the fingerprinting process at the jail will be studied. 2.0-3.0-3.0

Prerequisite(s)..... [CRJ-120](#), [CRJ-140](#)

CRJ-236 Criminal Evidence

Credits: 3

This course is a study of the established rules of evidence from arrest to release in the administration of criminal justice. 3.0-0.0-3.0

Prerequisite(s)..... [RDG-032](#) and [ENG-032](#)

CRJ-237 Defensive Tactics of Law Enforcement

Credits: 3

This course is the study of the methodologies and tactics for solving critical incidents that law enforcement must face, such as the arrest process, handcuffing, and felony car stops. In addition, levels of force will be studied. 2.0-3.0-3.0

Prerequisite(s)..... [CRJ-120](#)

CRJ-239 Terrorism & Homeland Security

Credits: 3

This course provides an overview of the problem of terrorism and homeland security efforts by drawing on several disciplines. An emphasis is placed on problems and countermeasures within an "all-hazards" approach to protecting people and assets. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

CRJ-242 Correctional Systems

Credits: 3

This course is an introduction to aspects of correctional function in criminal justice, including organization, process, procedure, and clients incarcerated and on conditional release. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

CRJ-247 Law Enforcement and Latino Community

Credits: 3

This course is designed to assist criminal justice personnel in Spanish language and culture to facilitate their interaction with the Hispanic population. 2.0-3.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

CRJ-250 Criminal Justice Internship I

Credits: 3

This course includes practical experience in a criminal justice or private security setting. 0.0-9.0-3.0

Prerequisite(s)..... [CJR-115](#) OR [CRJ-120](#) AND current certification in CPR and Basic First Aid (eight hour course). This course requires a clear background check, and approval of Department Chair.

CRJ-251 Criminal Justice Internship II

Credits: 3

This course includes additional practical experience in a criminal justice or private security setting. 0.0-9.0-3.0

Prerequisite(s)..... [CRJ-246](#) or [CRJ-250](#)

CRJ-260 Seminar in Criminal Justice

Credits: 3

This course includes a study of new trends in criminal justice. 3.0-0.0-3.0

Prerequisite(s)..... None

CRJ-275 Criminal Investigation, P.S. & Traffic

Credits: 3

This course covers the comprehensive duties of patrol officers and the ability to use a variety of police tools. Areas of study include public service and presentation, radio and electronic communications, constitutional law, report writing, traffic and criminal investigations and enforcement. 2.0-3.0-3.0

Prerequisite(s)..... [CRJ-202](#), [CRJ-230](#), [CRJ-235](#) and approval of Department Chair.

CWE-101 Cooperative Work Experience Prep

Credits: 1

CWE opportunities are available in a variety of college programs. The student should have completed approximately half of his/her course work, have a good academic average, and be accepted by the applicable business or industry. See your academic advisor for details.

Prerequisite(s)..... None

CWE-112 Cooperative Work Experience I

Credits: 2

This course includes cooperative work experience in an approved setting.

Prerequisite(s)..... None

CWE-113 Cooperative Work Experience I

Credits: 3

This course includes cooperative work experience in an approved setting.

Prerequisite(s)..... None

CWE-114 Cooperative Work Experience I

Credits: 4

This course includes cooperative work experience in an approved setting.

Prerequisite(s)..... None

CWE-122 Cooperative Work Experience II

Credits: 2

This course includes cooperative work experience in an approved setting.

Prerequisite(s)..... None

CWE-123 Cooperative Work Experience II

Credits: 3

This course includes cooperative work experience in an approved setting.

Prerequisite(s)..... None

CWE-124 Cooperative Work Experience II

Credits: 4

This course includes cooperative work experience in an approved setting.

Prerequisite(s)..... None

CWE-132 Cooperative Work Experience III

Credits: 2

This course includes cooperative work experience in an approved setting.

Prerequisite(s)..... None

CWE-133 Cooperative Work Experience III

Credits: 3

This course includes cooperative work experience in an approved setting.

Prerequisite(s)..... None

CWE-134 Cooperative Work Experience III

Credits: 4

This course includes cooperative work experience in an approved setting.

Prerequisite(s)..... None

Search for... Programs of Study Courses

DAT-105 Dental Charting and Documentation

Credits: 3

This course is the study of dental charting and documentation as it relates to direct patient care in general dentistry. The course will include a clinical observation with emphasis on documentation and clinical records. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-160](#), [BIO-112](#) and admission to the EDA program.

DAT-113 Dental Materials

Credits: 4

This course is a study of the physical and chemical properties of matter and identification, characteristics, and manipulation of dental materials. 3.0-3.0-4.0

Prerequisite(s)..... [BIO-112](#), [ENG-160](#), and admission to the EDA program.

DAT-115 Ethics and Professionalism

Credits: 1

This course introduces a cursory history of dental assisting, professional associations, scope of service in dentistry, and ethical, legal and professional considerations. The state Dental Practice Act is reviewed. 1.0-0.0-1.0

Prerequisite(s)..... [ENG-160](#) and admission to the EDA program.

DAT-118 Dental Morphology

Credits: 2

This course emphasizes the development, eruption, and individual characteristics of each tooth and the surrounding structures. An overview of basic oral embryology and oral histology is also given. 1.0-3.0-2.0

Prerequisite(s)..... [BIO-112](#) and admission to the EDA program.

DAT-121 Dental Health Education

Credits: 2

This course defines the responsibilities of the dental assistant in individual and community dental health education with emphasis on the etiology of dental disease, methods for prevention, and principles of nutrition in relationship to oral health and preventive dentistry. 1.0-3.0-2.0

Prerequisite(s)..... [BIO-112](#), [ENG-160](#) and admission to the EDA program.

DAT-122 Dental Office Management

Credits: 2

This course provides a study of the business aspects of a dental office. 2.0-0.0-2.0

Prerequisite(s)..... [AHS-113](#), [DAT-113](#), [DAT-115](#), [DAT-118](#), [DAT-121](#), [DAT-154](#), [MAT-160](#).

- 3rd #:** Credits earned for completed course

DAT-123 Oral Medicine / Oral Biology

Credits: 3

This course presents a basic study of oral pathology, pharmacology, nutrition, and common emergencies as related to the role of the dental assistant. 3.0-0.0-3.0

Prerequisite(s)..... [AHS-113](#), [DAT-113](#), [DAT-115](#), [DAT-118](#), [DAT-121](#), and [DAT-154](#).

DAT-124 Expanded Functions/Specialties

Credits: 1

This course offers practice in performing the expanded clinical procedures designated by the South Carolina State Board of Dentistry for Dental Assistants. 0.0-3.0-1.0

Prerequisite(s)..... [AHS-113](#), [DAT-113](#), [DAT-115](#), [DAT-118](#), [DAT-121](#), and [DAT-154](#).

DAT-127 Dental Radiology

Credits: 4

This course provides the fundamental back- ground and theory for the safe and effective use of x- radiation in dentistry. It encompasses the history of x-rays, production and use of radiation, radiographic film, exposure factors, interpretation of radiographs and radiation hygiene. 3.0-3.0-4.0

Prerequisite(s)..... [AHS-113](#), [DAT-113](#), [DAT-115](#), [DAT-118](#), [DAT-121](#), and [DAT-154](#).

DAT-154 Clinical Procedures I

Credits: 4

This course includes preparation to assist dentist efficiently in four-handed dentistry. Emphasis is on the names and functions of all dental instruments, the principles involved in their use, and the dental assistants' role in dental instrumentation.

Prerequisite(s)..... [ENG-160](#), [BIO-112](#) and admission to the EDA program.

DAT-164 Clinical Procedures II

Credits: 4

This course introduces the instruments and chair-side procedures of the dental specialties. Students also participate in office rotations. 2.0-6.0-4.0

Prerequisite(s)..... AHS 113, DAT 105, DAT 113, DAT 115, DAT 121, and DAT 154

DAT-177 Dental Office Experience

Credits: 7

This course consists of practice in the dental office or clinic with rotation of assignments to encompass experiences in office management and clinical experience in all areas of dentistry. 0.0-21.0-7.0

Prerequisite(s)..... [DAT-122](#), [DAT-123](#), [DAT-124](#), [DAT-127](#) and [DAT-164](#).

ECD-101 Introduction to Early Childhood

Credits: 3
This course includes an overview of the history, theories, and curriculum models of early education. Emphasis is on current trends/issues, with a review of state/national regulations. Characteristics of quality programs and professional teachers are explored in the course. 3.0-0.0-3.0
Prerequisite(s)..... None

ECD-102 Growth and Development I

Credits: 3
This course is an extensive study of philosophies and theories of growth and development of infants/toddlers. Focus is on "total" development of the child, with emphasis on physical, social, emotional, cognitive, and nutritional areas. Developmental tasks and appropriate activities are explored in the course. 3.0-0.0-3.0
Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

ECD-105 Guidance-Classroom Management

Credits: 3
This course is an overview of developmentally appropriate, effective guidance and classroom management techniques for the teacher of young children. A positive, proactive approach is stressed in the course. 3.0-0.0-3.0
Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

ECD-106 Observation of Young Children

Credits: 3
This course includes a variety of observation skills and techniques for the purposes of achieving program goals and objectives, providing for individual needs, guiding children, and designing environments. Focus is on the practical and appropriate use of these skills and techniques. 2.0-3.0-3.0
Prerequisite(s)..... [ENG-101](#)

ECD-107 Exceptional Children

Credits: 3
This course includes an overview of special needs children and their families. Emphasis is on prevalence of disorders, treatment modalities, community resources serving exceptional children, the teacher's role in mainstreaming and early identification, and federal legislation affecting exceptional children. 3.0-0.0-3.0
Prerequisite(s)..... [ECD-102](#), [ENG-032](#) OR [PSY-210](#)

ECD-108 Family and Community Relations

Credits: 3
This course is an overview of techniques and materials for promoting effective family/program partnerships to foster positive child development. Emphasis is on availability and accessibility of

community resources and on developing appropriate communication skills. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-101](#)

ECD-109 Administration and Supervision

Credits: 3

This course is a study of the role and responsibilities of an early childhood administrator. Special focus is on program monetary matters, space management, curriculum, health and food services, licensing requirements, and relations among the public, staff and parents. 2.0-3.0-3.0

Prerequisite(s)..... [ECD-101](#), [ENG-032](#) and [RDG-032](#)

ECD-131 Language Arts

Credits: 3

This course is a study of methods and materials in age-appropriate language experiences. Opportunities are provided to develop listening, speaking, prereading, and pre-writing skills through planning, implementation, and evaluation of media, methods, techniques, and equipment. Methods of selection, evaluation, and presentation of children's literature are included. 2.0-3.0-3.0

Prerequisite(s)..... [ECD-101](#), [ECD-102](#), [ENG-032](#) , AND [RDG-032](#) OR [PSY-210](#)

ECD-132 Creative Experiences

Credits: 3

This course stresses the importance of creativity and independence in creative expression. A variety of age-appropriate media, methods, techniques, and equipment are utilized. Students plan, implement, and evaluate instructional activities. 2.0-3.0-3.0

Prerequisite(s)..... [ECD-101](#), [ECD-102](#), [ENG-032](#) OR writing sample placement, and [RDG-032](#) OR acceptable placement test scores

ECD-133 Science and Math Concepts

Credits: 3

This course includes an overview of pre- number and science concepts developmentally appropriate for young children. Emphasis is on the planning, implementation, and evaluation of developmentally appropriate activities using a variety of methods and materials. 2.0-3.0-3.0

Prerequisite(s)..... [ECD-101](#), [ECD-102](#), [MAT-031](#), and [ENG-032](#)

ECD-135 Health, Safety, and Nutrition

Credits: 3

This course covers a review of health/safety practices recommended for childcare and includes information on common diseases and health problems. Certification preparation is provided in pediatric safety, CPR, and first aid. Guidelines and information on nutrition and developmentally appropriate activities are also studied in the course. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-031](#), [RDG-031](#)

ECD-138 Movement and Music for Children

Credits: 3

This course is a study of criteria for selecting and implementing appropriate experiences to support the physical and musical development of young children. Emphasis is on the selection of materials, equipment, and related design of indoor/outdoor environment. 2.0-3.0-3.0

Prerequisite(s)..... [ECD-101](#), [ECD-102](#), AND [ENG-032](#) OR [PSY-210](#)

ECD-201 Principal of Ethics and Leadership in Early Care and Education

Credits: 3

This course includes an overview of historical views on leadership and issues and challenges of leadership in early care and education. Emphasis is on current trends and issues. This course also reviews ethical principles as they relate to children, families, colleagues, and the community and society. 3.0-0.0-3.0

Prerequisite(s)..... [ECD-101](#), [ENG-101](#)

ECD-203 Growth and Development II

Credits: 3

This course is in an in-depth study of preschool children growing and developing in today's world. Focus is on "total" development of the child, with emphasis on physical, social, emotional, cognitive, and nutritional areas of development. Developmental tasks and appropriate activities are explored in the course. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#), [ECD-102](#)

ECD-237 Methods and Materials

Credits: 3

This course includes an overview of developmentally appropriate methods and materials for planning, implementing, and evaluating environments. Emphasis is on integrating divergent activities in each curriculum area. 2.0-3.0-3.0

Prerequisite(s)..... [ENG-101](#), [ECD-107](#), [ECD-131](#), [ECD-132](#), [ECD-133](#) and [ECD-203](#)

ECD-243 Supervised Field Experience I

Credits: 3

This course includes emphasis on planning, implementing, and evaluating scheduled programs, age-appropriate methods, materials, activities, and environments of early childhood principles and practices. 1.0-8.0-3.0

Prerequisite(s)..... [ECD-237](#)(Grade "C" or better), [ECD-105](#), [ECD-106](#), [ECD-201](#) and approval of Department Chair

ECD-252 Diversity Issues in Early Care and Ed

Credits: 3

This course meets the growing need for students in early care and education to learn how to interact with people who are different from them. It also allows students to examine and appreciate the differences that exist because of diversity from race, language, ethnicity, age and socioeconomic levels. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

ECO-105 Introduction to Economic Principles

Credits: 3

This course is a study of basic micro/macro economic concepts, including economic problems and decisions. Topics include the free enterprise and other economic systems. 3.0-0.0-3.0

Prerequisite(s)..... None

ECO-201 Economic Concepts

Credits: 3

This course is a study of basic micro/macro economic concepts, including economic problems and decisions. Topics include the free enterprise and other economic systems. 3.0-0.0-3.0

Prerequisite(s)..... None

ECO-210 Macroeconomics

Credits: 3

This course includes the study of fundamental principles and policies of a modern economy to include markets and prices, national income accounting, cycles, employment theory and fiscal policy, banking and monetary controls, and the government's role in economic decisions and growth. 3.0-0.0-3.0

Prerequisite(s)..... [MAT-032](#), [ENG-032](#) and [RDG-032](#)

ECO-211 Microeconomics

Credits: 3

This course includes the study of the behavior of households and firms, including supply and demand, elasticity, price/input in different market structures, pricing of resources, regulations, and comparative advantage and trade. 3.0-0.0-3.0

Prerequisite(s)..... [MAT-032](#), [ENG-032](#) and [RDG-032](#)

EEM-117 Ac/Dc Circuits I

Credits: 4

This course is a study of direct and alternating current and voltage in resistors, capacitors and inductors. Series, parallel, and complex circuits are covered. Circuits are constructed and tested. 3.0-3.0-4.0

Prerequisite(s)..... [RDG-032](#), [MAT-032](#)

Corequisite(s)..... [MAT-101](#)

EEM-145 Control Circuits

Credits: 3

This course covers the principles and applications of component circuits and methods of motor control. 2.0-3.0-3.0

Prerequisite(s)..... [MAT-032](#) and [RDG-032](#) or acceptable placement scores in math and reading

EEM-162 Process Control

Credits: 3

This course is an introduction to control systems theory and process control characteristics. 2.0-3.0-3.0

Prerequisite(s)..... [EEM-201](#)

EEM-166 Commercial/Industrial Wiring

Credits: 4

This course is a study of wiring methods and practice in commercial and industrial applications. The installation of miscellaneous raceway, conductor, and cable systems with relative mechanical fittings and electrical devices. 3.0-3.0-4.0

Prerequisite(s)..... [MAT-031](#) and [RDG-031](#) or acceptable placement scores

EEM-201 Electronic Devices I

Credits: 3

This course is a study of the fundamental principles of common electronic devices and circuits. Emphasis is placed on solid-state principles and applications. 2.0-3.0-4.0

Prerequisite(s)..... [MAT-102](#) and [RDG-032](#) OR [MAT-155](#) and [RDG-032](#)

EEM-215 DC/AC Machines

Credits: 3

This course is a study of applications, operations, and construction of DC and AC machines. Generators, motors, and transformers are examined as energy converting power devices. 2.0-3.0-3.0

Prerequisite(s)..... [MAT-102](#) OR [MAT-115](#) AND [EEM-201](#) OR [EET-114](#)

EEM-221 Dc/Ac Drives

Credits: 3

This course covers the principles of operation and application of DC drives and AC drives. 2.0-3.0-3.0

Prerequisite(s)..... [EEM-145](#), [EEM-215](#), and [EEM-251](#)

EEM-231 Digital Circuits I

Credits: 3

This course is a study of the logic elements, mathematics, components, and circuits utilized in digital equipment. Emphasis is placed on the function and operation of digital integrated circuit devices. Students will predict and verify output logic based on input conditions. 2.0-3.0-3.0

Prerequisite(s)..... None

EEM-251 Programmable Controllers

Credits: 3

This course is an introduction to programmable control systems with emphasis on basic programming techniques. A variety of input/output devices and their applications are covered. Programs are designed and tested in response to problem solving. 2.0-3.0-3.0

Prerequisite(s)..... [EET-140](#)

EEM-275 Technical Troubleshooting

Credits: 3

This course consists of a systematic approach to troubleshooting. Techniques used to analyze proper circuit operation and malfunctions are studied. 2.0-3.0-3.0

Prerequisite(s)..... [EEM-145](#), [EEM-215](#), [EEM-251](#), [IMT-126](#)

EET-113 Electrical Circuits I

Credits: 4

This course is a study of direct and alternating currents, covering resistance and impedance in series, parallel, and series-parallel circuits using Ohm's Law, Kirchoff's Law, and basic circuit theorems. Circuits are analyzed using mathematics and verified using electrical instruments. 3.0-3.0-4.0

Prerequisite(s)..... [MAT-102](#) or equivalent high school algebra course.

EET-114 Electrical Circuits II

Credits: 4

This course is a continuation in electrical circuits, including advanced network theorems. Circuits are analyzed using mathematics and verified using electrical instruments. 3.0-3.0-4.0

Prerequisite(s)..... [MAT-110](#) and [EET-113](#)

Corequisite(s)..... [MAT-111](#)

EET-130 Network Devices

Credits: 3

This course studies semiconductor theory and principles, diodes and diode circuits, transistors, transistor circuits, and other components. Circuits are modeled, constructed, and tested. 2.0-3.0-3.0

Prerequisite(s)..... [EET-113](#)

EET-140 Digital Electronics

Credits: 3

This course is a study of the fundamentals of logic theory and circuits. Circuits and analyzed mathematically and tested using simulation software and electronic instruments. 2.0-3.0-3.0

Prerequisite(s)..... [MAT-101](#)

EET-141 Electronic Circuits

Credits: 4

This course is a study of electronic circuits using discrete and integrated devices, including analysis, construction, testing and trouble- shooting. 3.0-3.0-4.0

Prerequisite(s)..... [EET-140](#)

EET-227 Electrical Machinery

Credits: 3

This course is a study of AC and DC electromechanical energy conversion devices, theory, applications and control. Devices are tested and verified using electrical instruments. 2.0-3.0-3.0

Prerequisite(s)..... [EET-114](#)

EET-231 Industrial Electronics

Credits: 4

This course is a survey of topics related to industrial application of electronic devices and circuits. The course covers switches, DC and AC motor controls, sensors and transducers, open and closed loop control circuits and voltage converting interfaces. Circuits are constructed and tested. 3.0-3.0-4.0

Prerequisite(s)..... [EET-131](#) OR [EET-141](#) OR [EEM-201](#)

EET-235 Programmable Controllers

Credits: 3

This course is a study of relay logic, ladder diagrams, theory of operations and applications. Loading ladder diagrams, debugging and troubleshooting techniques are applied to programmable controllers. 2.0-3.0-3.0

Prerequisite(s)..... [EET-140](#)

EET-241 Electronic Communications

Credits: 4

This course is a study of the theory of transmitters and receivers, with an emphasis on receivers, mixers, IF amplifiers, and detectors. Some basic FCC rules and regulations are also covered. In addition modulation technique, wave theory, antennas, and transmission lines. The mathematical analysis of these topics is emphasized. The course also prepares students for FCC and Certified Electronics Technicians tests. 3.0-3.0-4.0

Prerequisite(s)..... [EET-140](#)

EET-251 Microprocessor Fundamentals

Credits: 4

This course is study of binary numbers, microprocessor operation, architecture, instruction sets, and interfacing with operating systems, and applications in control, data acquisition, and data reduction and analysis. Programs are written and tested. 3.0-3.0-4.0

Prerequisite(s)..... [MAT-102](#), [EET-140](#)

EGR-104 Engineering Technology Foundations

Credits: 3

This problem-based course introduces the student to fundamental concepts of electrical, mechanical, thermal, fluids, optical, and material systems related to engineering technology. Workplace readiness skills such as laboratory safety, communications, and teamwork are integrated into the course. 2.0-3.0-3.0

Prerequisite(s)..... [MAT-102](#), [RDG-032](#), [ENG-032](#) OR acceptable placement scores

EGR-105 Safety in Workplace

Credits: 1

This course is a survey of safety regulations and personal safety. Emphasis is placed on industrial settings but will include general safety considerations such as eye protection, ergonomics, falls, general electrical hazards, bloodborne pathogens, MSDS, and OSHA requirements. 1.0-0.0-1.0

Prerequisite(s)..... [ENG-031](#), [MAT-031](#) and [RDG-031](#)

EGR-130 Engineering Technical Applications & Programming

Credits: 3

This course covers the development and use of computer programs to solve engineering technology problems. 2.0-3.0-3.0

Prerequisite(s)..... [MAT-102](#) or have completed high school algebra

EGR-245 Principles of Parametric Cad

Credits: 3

This course is the study of 3D product and machine design utilizing state-of-the-art parametric design software.

Prerequisite(s)..... None

EGR-255 Engineering Technology Senior Systems Project

Credits: 2

This course includes an instructor approved project which is designed, specified, constructed and

tested. 0.0-6.0-2.0

Prerequisite(s)..... [EET-130](#), [EET-141](#), [EET-235](#), [MAT-111](#) AND [EEM-251](#) OR [EET-251](#)

EGR-280 Chemical Process Operations

Credits: 3

This course is a study of chemical process principles. Topics include material and energy balances in the chemical industry, including reactive and non-reactive systems. Properties of gases, liquids and solids are also emphasized. 2.0-3.0-3.0

Prerequisite(s)..... [CHM-110](#), [MAT-110](#)

EGT-105 Basic Civil Drafting

Credits: 2

This course covers the application of drawing techniques to structures, map topography, and other civil applications. 2.0-0.0-2.0

Prerequisite(s)..... None

EGT-110 Engineering Graphics I

Credits: 4

This is an introductory course in engineering graphics science which includes beginning drawing techniques and development of skills to produce basic technical drawings. Topics covered include sketching, geometric construction, orthographic drawing, sections, shop processes, and dimensioning. 2.0-6.0-4.0

Prerequisite(s)..... [RDG-031](#) or acceptable placement scores;

Corequisite(s)..... [EGT-152](#)

EGT-115 Engineering Graphics II

Credits: 4

This course in engineering graphics science includes additional drawing techniques for industrial applications. 2.0-6.0-4.0

Prerequisite(s)..... [EGT-110](#) OR Both [EGT-102](#) and [EGT-109](#)

Corequisite(s)..... [EGT-155](#)

EGT-117 Welding Print Principles

Credits: 2

This course covers welding symbols and their application to pipe fabrication. 2.0-0.0-2.0

Prerequisite(s)..... [EGT-123](#)

EGT-123 Industrial Print Reading

Credits: 2

This course covers basic print reading and sketching for the industrial trades area. Sketching of geometric shapes and interpretation of working shop drawings are also included. 2.0-0.0-2.0

Prerequisite(s)..... [MAT-031](#) and [RDG-031](#) or acceptable placement test scores

EGT-130 Geometric Dimensioning & Tolerancing Aps

Credits: 3

This course covers interpreting, calculating tolerancing, inspecting, computing geometrics of rejected parts, and analyzing the concepts of geometric control. 3.0-0.0-3.0

Prerequisite(s)..... [MAT-102](#) and [EGT-110](#) OR both [EGT-102](#) and [EGT-109](#)

EGT-150 Basic Cad

Credits: 2

This course covers the basics of computer aided drafting, including hardware, software systems and operating systems and development of skills for creating and plotting simple technical drawings. 1.0-3.0-2.0

Prerequisite(s)..... [MAT-031](#) and [RDG-031](#) or acceptable placement test scores

Corequisite(s)..... [EGT-110](#)

EGT-151 Introduction to CAD

Credits: 3

This course covers the operation of a computer aided drafting system. The course includes interaction with a CAD station to produce technical drawings. This is an introductory course in Intergraph (Microstation). 2.0-3.0-3.0

Prerequisite(s)..... [MAT-031](#) and [RDG-031](#) or acceptable placement test scores

EGT-152 Fundamentals of CAD

Credits: 3

This course includes a related series of problems and exercises utilizing the computer graphics station as a drafting tool. The student will interact with the computer terminal, digitizer, and plotter to produce engineering drawings. This is an introductory course to AutoCAD. 2.0-3.0-3.0

Prerequisite(s)..... [MAT-101](#) or have completed high school algebra and [RDG-032](#) or acceptable reading placement test score

EGT-215 Mechanical Drawing Applications

Credits: 4

This advanced drawing course covers industrial applications. 3.0-3.0-4.0

Prerequisite(s)..... [EGT-110](#) AND [EGT-150](#) OR [EGT-152](#)

EGT-220 Structural and Piping Applications

Credits: 4

This advanced drawing course covers structural steel and process piping applications. 3.0-3.0-4.0

Prerequisite(s)..... [EGT-110](#) AND [EGT-150](#) OR [EGT-152](#)

EGT-225 Architect Drawing Applications

Credits: 4

This is an advanced drawing course for architectural applications. 3.0-3.0-4.0

Prerequisite(s)..... [EGT-110](#) AND [EGT-150](#) OR [EGT-152](#)

EGT-245 Principles of Parametric Cad

Credits: 3

This course is the study of 3D product and machine design utilizing state-of-the-art parametric design software. 2.0-3.0-3.0

Prerequisite(s)..... [EGT-110](#) AND [EGT-150](#) OR [EGT-152](#)

EGT-281 Prototype Modeling

Credits: 3

This course provides hands-on model making using a variety of tools and materials. 2.0-3.0-3.0

Prerequisite(s)..... [EGT-110](#) and [EGT-150](#) OR [EGT-152](#) and [MTT-145](#)

ELT-251 Special Topics in Electronics

Credits: 2

This course covers a special phase or area of electronics - telecommunications. 2.0.2

Prerequisite(s)..... None

ELW-101 Introduction to Wireless Technology

Credits: 1

This course introduces the fundamental elements of wireless technology relevant to tower installation. Topics include wireless networks, applications, services, a basic technical overview of spectrum principles and characteristics. 1.0-0.0-1.0

Prerequisite(s)..... None

ELW-102 Intro to Tower Safety Procedures

Credits: 3

This course introduces the fundamental aspects of fall protection and rescue theory. Coursework will provide practical application of tower safety practices. Topics include fall hazards, protection regulations, understand, use, and assess full body harnesses, and energy absorbing lanyard. 3.0-0.0-3.0

Prerequisite(s)..... None

ELW-103 Intro to Cable Accessories & Standards

Credits: 2

This course introduces the fundamentals and characteristics of cable accessories and carrier installation standards for a broad cross section of wireless construction. Topics include communication cables, weather proofing, handling and support, grounding, and the components of cell systems. 2.0-0.0-2.0

Prerequisite(s)..... None

ELW-111 Intro to Electrical Line Worker

Credits: 3

This course introduces basic principles of electricity, safety standards and basic line worker tools. Topics include electrical distribution systems and components, line installation and maintenance applications. 3.0-0.0-3.0

Prerequisite(s)..... None

ELW-114 Overhead Line Construction I

Credits: 3

This course introduces the basics of overhead power line construction. Topics include safe work habits, protective equipment and pole climbing techniques. 3.0-0.0-3.0

Prerequisite(s)..... None

EMS-110 Basic Emergency Medical Care

Credits: 5

This is an introductory course to the health care system and the function, role, and responsibility of emergency medical providers within the system. Emphasis is placed on legal and ethical practices and stress management. A team approach is emphasized in the study of the initial assessment and management of illness and injury. 4.0-3.0-5.0

Prerequisite(s)..... None

EMS-111 Intermediate Emergency Care

Credits: 5

This course is a study of the concepts and skills related to general patient assessment, initial management of life threatening emergencies, airway management, pulmonary ventilation and oxygen administration, the pathophysiology of shock and treatment modalities for the shock syndrome, and pharmacological actions of groups of drugs and fluids. Emphasis is placed on administration of medication and fluid therapy, basic vehicle extrication, and rescue. 4.0-3.0-5.0

Prerequisite(s)..... [EMS-110](#)

EMS-119 Emergency Medical Services Operations

Credits: 2

This course is a multi-faceted approach to theory of EMS operations. Topics include expanded provider roles, EMS systems overview, medical/legal aspects, theory of ambulance operations, mass casualty incident management, rescue awareness, crime scenes, terrorism, and weapons of mass destruction. 1.0-3.0-2.0

Prerequisite(s)..... [EMS-220](#)

EMS-120 Pharmacology

Credits: 3

This course is a study of concepts related to the pharmacological actions of groups of drugs and includes the development of skills related to the administration of medications and intravenous therapy. Physiology of systems affected drug action is also included in the course. 3.0-0.0-3.0

Prerequisite(s)..... [EMS-110](#)

EMS-151 Paramedic Clinical I

Credits: 2

This course provides an introduction to hospital care in an emergency and trauma setting. Emphasis is placed on care for adult, obstetrical, pediatric and behavioral patients. 0.0-6.0-2.0

Prerequisite(s)..... None

EMS-210 Advanced Emergency Medical Care I

Credits: 5

This course is a study of concepts related to EMS communications, trauma, obstetric/ gynecological emergencies, neonatal transport, psychiatric emergencies, central nervous system, GI/GU systems,

anaphylaxis, toxicological emergencies, drug abuse, infectious diseases, geriatric and pediatric patients, and environmentally related emergencies. 3.0-6.0-5.0

Prerequisite(s)..... [BIO-112](#) [EMS-115](#), [EMS-116](#) [EMS-120](#) [EMS-220](#).

EMS-212 Ems Field Internship

Credits: 2

This course includes experiences with advanced life support emergency medical services. 0.0-6.0-2.0

Prerequisite(s)..... None

EMS-213 Advanced Emergency Medical Care II

Credits: 4

This course is a study of the concepts and skills related to care of specific medical problems. Emphasis is placed on the pathophysiology and treatment modalities related to the respiratory system, cardiovascular system, and the endocrine system. Concepts related to the classification, therapeutic actions, and side effects of common chemotherapeutic agents are emphasized. 2.0-6.0-4.0

Prerequisite(s)..... None

EMS-217 Introduction to Electrocardiography

Credits: 2

This course covers the basic principles of recognizing and interpreting EKG tracings. Laboratory emphasis is placed on the operation of electrocardiographic equipment. 1.0-3.0-2.0

Prerequisite(s)..... None

EMS-220 Paramedic Internship I

Credits: 3

This course includes experiences with advanced life support emergency medical service providers. 2.0-3.0-3.0

Prerequisite(s)..... None

EMS-221 Paramedic Internship II

Credits: 3

This course builds on the experiences gained in Paramedic Internship I. Focus is on the student and their ability to apply knowledge gained in the classroom during an emergency situation while treating a wide variety of patients in different situations. 2.0-3.0-3.0

Prerequisite(s)..... None

EMS-222 Paramedic Internship III

Credits: 3

This course builds on the experiences gained in Paramedic Internship II. Focus is centered on the student's ability to function as the EMS team leader and direct patient care in any emergency situation. 0.0-9.0-3.0

Prerequisite(s)..... [EMS-210](#), [EMS-214](#), [EMS-221](#)

EMS-223 Paramedic Clinical I

Credits: 2

This course includes hospital clinical experiences in many areas, such as the emergency center, surgery, labor and delivery, and pediatric centers. 1.0-3.0-2.0

Prerequisite(s)..... [EMS-220](#)

EMS-224 Paramedic Clinical II

Credits: 2

This course builds on skills gained in Paramedic Clinical I and includes continued hospital clinical experiences in many areas, such as the emergency center, surgery, labor and delivery and pediatric centers. The student is expected to become proficient in medication administration, iv initiation and patient assessment of all age groups. 1.0-3.0-2.0

Prerequisite(s)..... [EMS-223](#)

EMS-231 Paramedic Clinical II

Credits: 2

This course provides application of the knowledge and skills learned in the classroom to patients in the emergency department setting and in other appropriate clinical facilities. 0.0-6.0-2.0

Prerequisite(s)..... None

EMS-232 Paramedic Internship I

Credits: 2

This course provides application of the knowledge and skills learned in the classroom using the team approach to emergency medical patients in the pre-hospital environment. 0.0-3.0-2.0

Prerequisite(s)..... None

EMS-241 Paramedic Clinical III

Credits: 2

This course is an advanced clinical experience and provides an overview of holistic patient care from the point of entry into the emergency department until patient discharge. 0.0-6.0-2.0

Prerequisite(s)..... None

EMS-242 Paramedic Internship II

Credits: 2

This course provides hands-on experience for initial patient care in the pre-hospital environment and focuses on the ability to assess, care for and transport medical and trauma patients. 0.0-6.0-2.0

Prerequisite(s)..... None

EMS-271 Advanced Emergency Operations

Credits: 4

This course introduces the concepts of EMS procedures including vehicle operations, hazardous materials response, and interaction with larger teams of emergency responders. 3.0-3.0-4.0

Prerequisite(s)..... [EMS-110](#)

ENG-031 Developmental English

Credits: 3

Developmental English Basics is intended for students who need assistance with basic writing skills.

Based on assessment of students' needs, instruction includes basic grammar and usage, mechanics, sentence structure, and basic writing. Assignments will include the writing of a variety of unified and coherent compositions with evidence of a controlling idea, introduction, body, and conclusion. 3.0-0.0-3.0

Prerequisite(s)..... None

ENG-032 Developmental English

Credits: 3

Developmental English is an intensive review of grammar and usage; mechanics of punctuation, spelling, and capitalization; sentence structure; and the writing process. Evidence of planning, organizing, drafting, editing, and revising are emphasized in this course along with a study of different modes of writing for a variety of rhetorical situations. The primary composition for this course is the five-paragraph essay. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-031](#) or acceptable placement score

ENG-101 English Composition I

Credits: 3

This is a college transfer course in which the following topics are presented: a study of composition in conjunction with appropriate literary selections, with frequent theme assignments to reinforce effective writing. A review of standard usage and the basic techniques of research are also presented. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#) or writing sample placement and [RDG-032](#) or acceptable placement test score

ENG-102 English Composition II

Credits: 3

This is a college transfer course in which the following topics are presented: development of writing skills through logical organization, effective style, literary analysis and research. An introduction to literary genre is also included. Assignments will include critical thinking exercises, a research paper, and the study of a selected novel. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-101](#) with a grade of "C" or higher

ENG-160 Technical Communications

Credits: 3

This course is a study of various technical communications such as definitions, processes, instructions, descriptions, and technical reports. Both oral and written communication essential to job effectiveness and professionalism are emphasized. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#) or writing sample placement and [RDG-032](#) or acceptable placement score

ENG-201 American Literature I

Credits: 3

This course is a study of American Literature from the colonial period to the civil war. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-101](#)

ENG-202 American Literature II

Credits: 3

This course is a study of American Literature from the civil war to the present. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-101](#)

ENG-205 English Literature I

Credits: 3

This is a college transfer course in which the following topics are presented: the study of English literature from the old English period to the romantic period with emphasis on major writers and periods. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-101](#)

ENG-206 English Literature II

Credits: 3

This is a college transfer course in which the following topics are presented: the study of English literature from the romantic period to the present with emphasis on major writers and periods. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-101](#)

ENG-207 Literature for Children

Credits: 3

This course provides an introduction to children's literature in America through an examination of picture books & novels that depict Americans of various backgrounds and experiences. It focuses on defining quality in children's book writing & illustration, and assessing concerns in the field. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-101](#)

ENG-208 World Literature I

Credits: 3

This course is a study of masterpieces of world literature in translation from the ancient world to the sixteenth century. It includes literary analysis and research. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-101](#)

ENG-209 World Literature II

Credits: 3

This course is a study of masterpieces of world literature in translation from the seventeenth century to the present. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-101](#)

ENG-236 African American Literature

Credits: 3

This course is a critical study of African- American literature examined from historical, social, and psychological perspectives. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-101](#)

ENG-260 Advanced Technical Communication

Credits: 3

This course develops skills in research techniques and increases proficiency in technical communications. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-160](#) or [ENG-101](#) and [SPC-205](#)

[ATC.EDU](#) | [Activities](#) | [Blackboard](#) | [Bookstore](#) | [Contact Us](#) | [Distance Learning](#) | [Financial Data](#) | [Library](#) | [MyATC](#) | [Test Center](#)

GEO-101 Introduction to Geography

Credits: 3
This course is an introduction to the principles and methods of geographic inquiry. 3.0-0.0-3.0
Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

GEO-102 World Geography

Credits: 3
This course includes a geographic analysis of the regions of the world, i.e., North and South America, Europe, Australia, Asia, and Africa. Diversity of each region is emphasized by examining its physical environment, natural resources, social, cultural, economic and political systems. 3.0-0.0-3.0
Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

HIM-110 Health Information Science I

Credits: 3
This course provides an in-depth study of the content, retrieval, control and retention of health information systems. 3.0-0.0-3.0
Prerequisite(s)..... None

HIM-130 Billing & Reimbursements

Credits: 3
This course provides an introduction to medical insurance billing and reimbursement practices with emphasis on the primary payers such as Medicare and Medicaid. 3.0-0.0-3.0
Prerequisite(s)..... [HIM-225](#)

HIM-135 Medical Pathology

Credits: 3
This course is a study of disease processes, general classification of disease including signs and symptoms, systems affected by disease, diagnostic measures, types of treatment including surgical and/or chemical interventions, and terminology. 3.0-0.0-3.0
Prerequisite(s)..... [BIO-112](#)

HIM-137 Pharmacology for Coders

Credits: 1
This course is a study of therapeutic agents in relation to medical record coding and reimbursement issues. 1.0-0.0-1.0
Prerequisite(s)..... None

HIM-140 Current Procedural Terminology I

Student Handbook**

**Numbering System
3.0-0.0-3.0**

Following each course description, a numerical system will be displayed describing the following:

- 1st #:** Class hours per week
- 2nd #:** Lab hours per week
- 3rd #:** Credits earned for completed course

Credits: 3

This course provides a basic study of the CPT and HCPCS coding and classification systems particular to the physician's office setting. Students will learn how to assign codes to capture the professional component of services provided. 2.0-3.0-3.0

Prerequisite(s)..... [HIM-216](#)

HIM-150 Coding Practicum I

Credits: 3

This course provides clinical practice in the application of basic coding and classification system guidance in selected health care facilities. 0.0-9.0-3.0

Prerequisite(s)..... [HIM-140](#), [HIM-225](#)

Corequisite(s)..... [HIM-227](#)

HIM-216 Coding & Classifications I

Credits: 3

This course includes a study of disease, procedural coding and classification systems. 2.0-3.0-3.0

Prerequisite(s)..... None

HIM-225 Coding & Classifications II

Credits: 3

This course provides a study of advanced coding and classification systems. 2.0-3.0-3.0

Prerequisite(s)..... [HIM-216](#)

HIM-227 Senior Professional Competencies

Credits: 3

This capstone course is designated to promote interactive discussion related to the HIM profession to include career issues and opportunities. The course includes specific projects and capstone competencies in a mock testing environment. 3.0-0.0-3.0

Prerequisite(s)..... [HIM-150](#)

HIS-101 Western Civilization to 1689

Credits: 3

This course is a survey of western civilization from ancient times to 1689, including the major political, social, economic, and intellectual factors shaping western cultural tradition. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

HIS-102 Western Civilization: Post 1689

Credits: 3

This course is a survey of western civilization from 1689 to the present, including the major political, social, economic, and intellectual factors which shape the modern western world. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

HIS-201 American History: Discovery to 1877

Credits: 3

This course is a survey of U.S. history from discovery to 1877. This course includes political, social, economic, and intellectual developments during this period. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

HIS-202 American History: 1877 to Present

Credits: 3

This course is a survey of U.S. history from 1877 to the present. This course includes political, social, economic, and intellectual developments during this period. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

HIS-235 American Military History

Credits: 3

This course explores the development of the American military from the 1600s through the Vietnam War. Study focuses on the military's actions during conflicts with other nations, its relation to society, and its role in the evolution of the American nation. 3.0-0.0-3.0

Prerequisite(s)..... [HIS-201](#) or [HIS-202](#)

Search for... Programs of Study Courses

IDS-101 Human Thought and Learning

Credits: 3

This course explores the principles, methods, and application of human thought and learning, including such topics as attention, information processing, problem-solving, hypothesis testing, memory, argumentation, learning theory, and cognitive awareness. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-101](#) or [ENG-160](#)

IDS-156 Personal Customer Service Skills

Credits: 1

This course takes an in-depth look at the application and implementation of personal communication skills essential to managing successful customer service relations.

Prerequisite(s)..... [RDG-032](#), [MAT-032](#)

IDS-201 Leadership Development

Credits: 3

This course focuses on the development of leadership, including philosophy, morals/ethics, and individual ability/style. It is designed to increase students understanding of themselves and the theories and techniques of leadership and group processes by integrating theoretical concepts with the reality of application within a group setting. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-101](#) or [ENG-160](#)

IMT-113 Power Tools Operations

Credits: 2

This course covers the use of power tools and their applications in industrial and service areas. 1.0-3.0-2.0

Prerequisite(s)..... [MAT-031](#), [RDG-031](#); OR acceptable placement scores

IMT-121 Drive Systems

Credits: 2

This course covers drive systems consisting of belts and pulleys, chains and sprockets, and gear drives used to transmit power. 1.0-3.0-2.0

Prerequisite(s)..... [MAT-032](#), [RDG-032](#); OR acceptable placement scores

IMT-122 Couplings

Credits: 2

This course covers methods used to install various types of couplings, both flexible and rigid, used to transmit energy. 1.0-3.0-2.0

Prerequisite(s)..... [IMT-121](#), [MAT-031](#), [RDG-031](#); OR acceptable placement scores.

**2014 - 2015

3.0-0.0-3.0**

Following each course description, a numerical system will be displayed describing the following:

- 1st #:** Class hours per week
- 2nd #:** Lab hours per week
- 3rd #:** Credits earned for completed course

IMT-126 Introduction to Mechanical Installation

Credits: 2

This course includes and introduction to the skills required for rigging, installing, and repairing machinery. 1.0-3.0-2.0

Prerequisite(s)..... [IMT-113](#), [IMT-121](#), [IMT-122](#), [IMT-151](#)

IMT-131 Hydraulics and Pneumatics

Credits: 4

This course covers the basic technology and principles of hydraulics and pneumatics. Upon completion of this course, the student should understand basic terminology, symbols, and principles and be able to maintain a basic fluid power system. 3.0-3.0-4.0

Prerequisite(s)..... [MAT-101](#), [RDG-032](#); OR acceptable placement scores in math and reading

IMT-151 Piping Systems

Credits: 3

This course covers plumbing and piping systems used in industrial, commercial, and/or residential construction. Emphasis is placed on the reading and sketching of piping schematics as well as the fabrication and design of piping systems. The student learns to thread pipe, solder/flare copper tubing, and make up plastic pipe joints. 2.0-3.0-3.0

Prerequisite(s)..... [MAT-031](#), [RDG-031](#); OR acceptable placement scores in math and reading

IMT-219 Maintenance Welding

Credits: 3

This course is designed to teach students the principles of basic welding safety, SMAW equipment and setup, electrodes and selection. 2.0-3.0-3.0

Prerequisite(s)..... [WLD-108](#), [WLD-130](#), [EGT-123](#)

IST-201 Cisco Internetworking Concepts

Credits: 3

This course is a study of current and emerging computer networking technology. Topics covered include safety, networking, network terminology and protocols, network standards, LANs, WANs, OSI models, cabling, cabling tools, Cisco routers, router programming, star topology, IP addressing and network standards. 2.0-3.0-3.0

Prerequisite(s)..... [RDG-032](#); OR acceptable placement scores

IST-202 Cisco Router Configuration

Credits: 3

This course is a study of LANs, WANs, OSI models, Ethernet, token ring, fiber distributed data interface TCP/IP addressing protocol, dynamic routing, routing, and the network administrator's role and function. 2.0-3.0-3.0

Prerequisite(s)..... [IST-201](#)

IST-203 Advanced Cisco Router Configuration

Credits: 3

This course is a study of configuring Cisco Routers. Topics include LAN Switching, VLANs, LAN design, IGRP, Access Lists, Novell IP, and the use of numerous case studies. 2.0-3.0-3.0

Prerequisite(s)..... [IST-202](#)

IST-204 Cisco Troubleshooting

Credits: 3

This course is a study troubleshooting network problems. Topics include WAN, WAN design, PPP, ISDN, Frame Relay and the use of numerous case studies. 2.0-3.0-3.0

Prerequisite(s)..... [IST-202](#)

IST-215 Health Information Networking

Credits: 3

This course studies the application of information technology principles in a health care environment. Topics include electronic health records, medical group LANs and WANs, and effective security and support strategies for medical group networks. 2.0-3.0-3.0

Prerequisite(s)..... [IST-204](#)

IST-220 Data Communications

Credits: 3

This course is a study of the fundamentals of data communications. Basic signaling, networking, and various transmission media are covered. This course is specific to the Associate in Applied Science: Major in Network Systems Management degree. 2.0-3.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

IST-238 Advanced Tools for Website Design

Credits: 3

This course is a study of an advanced (4th generation) web authoring tool (such as Dreamweaver) to develop increased efficiency and sophistication in website design and web project management. 2.0-3.0-3.0

Prerequisite(s)..... [CPT-162](#)

IST-241 Network Architecture I

Credits: 3

This course is a study of how computer architecture relates to the interconnecting of various network components, the environment in which applications processes execute, and the overall plan defining services to be provided in a distributed environment. This course is specific to the Associate in Applied Science: Major in Network Systems Management degree and is equivalent to Network+ Certification. 2.0-3.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

IST-246 Integrated Digital Network

Credits: 3

This course discusses the characteristics and operation of packet switching and networking technologies such as ISDN, Frame Relay, and ATM. The course includes fundamental Wide Area Networking technology. This course covers the theoretical and practical aspects of creating an Active Directory network, including various Active Directory components such as IntelliMirror, DNS, disk imaging, replication and troubleshooting. 2.0-3.0-3.0

Prerequisite(s)..... [CPT-257](#) OR [IST-201](#)

IST-261 Advanced Network Administration

Credits: 3

This course is an advanced study of the networking operating system. Topics include installation upgrades, IP services, internet infrastructure, advanced server management, and security, NDS management, and server optimization. 2.0-3.0-3.0

Prerequisite(s)..... [IST-204](#) OR [IST-246](#)

IST-263 Designing Windows Network Security

Credits: 3

This course is an advanced study of security features of networks including authentication protocol, public key infrastructure, IPsec, and Certificate servers. This course is specific to the Associate in Applied Science: Major in NetworkSystems Management degree and is equivalent to Server+ Certification. 2.0-3.0-3.0

Prerequisite(s)..... [IST-241](#)

IST-265 Designing a Windows Directory Services

Credits: 3

This course is a study of directory services infrastructure design including design of a domain structure, tree and forest structures, organizational unit structure and other related topics. This course is specific to the Associate in Applied Science: Major in NetworkSystems Management degree. 2.0-3.0-3.0

Prerequisite(s)..... [IST-241](#)

IST-290 Spec Topics in Info Sci

Credits: 3

This course covers special topics in information sciences technologies. This course is specific to the Associate in Applied Science: Major in NetworkSystems Management degree. 2.0-3.0-3.0

Prerequisite(s)..... [RDG-032](#), [ENG-032](#)

IST-291 Fundamentals of Network Security I

Credits: 3

This course is the study of intro levels of security processes based on a security policy, emphasizing hands-on skills in the areas of secure perimeter, security connectivity, security management, identity services, and intrusion detection. The course prepares students to manage network security. This course prepares students to manage network security. This course is applicable to the Associate in Applied Science: Major in Computer Technology and the Associate in Applied Science: Major in Network Systems Management degree; it is equivalent to Security+ Certification. 2.0-3.0-3.0

Prerequisite(s)..... [CPT-257](#), [IST-201](#)

IST-292 Fundamentals of Network Security II

Credits: 3

This course is the study of advanced security processes based on a security policy, emphasizing hands-on skills in the areas of secure perimeter, security connectivity, security management, identity services, and intrusion detection. The course prepares students to install/configure secure firewalls. This course prepares students to install/configure secure firewalls. This course is specific to the Associate in Applied Science: Major in NetworkSystems Management degree and is equivalent to CCNA Security Certification. 2.0-3.0-3.0

Prerequisite(s)..... [IST-204](#)

IST-295 Fundamentals of Voice Over Ip

Credits: 3

This course is an introduction to features of Voice over IP protocols, including VOIP hardware selection and network design considerations. Concepts include analog and digital voice encoding signaling and Quality of Service (QOS) and troubleshooting and configuration of VOIP networks. This course is specific to the Assoicatein Applied Science: Major in NetworkSystems Management degree. 2.0-3.0-3.0

Prerequisite(s)..... [IST-202](#)

Search for... Programs of Study Courses

MAT-031 Developmental Mathematics

Credits: 3
Developmental Mathematics is intended for students who need assistance in basic arithmetic skills. Based on assessment of student needs, instruction includes performing the four arithmetic operations with whole numbers, fractions, decimals, and percents. Application skills are emphasized. 2.0-3.0-3.0
Prerequisite(s)..... None

MAT-032 Developmental Mathematics

Credits: 3
Developmental Mathematics includes a review of arithmetic skills, and focuses on the study of measurement and geometry, basic algebra concepts, and data analysis. Application skills are emphasized. 2.0-0.0-3.0
Prerequisite(s)..... [MAT-031](#) or acceptable placement score

MAT-101 Beginning Algebra

Credits: 3
This course includes the study of rational numbers and their applications, operations with algebraic expression, linear equations and applications, linear inequalities, graphs of linear equations, operations with exponents and polynomials, and factoring. 2.0-3.0-3.0
Prerequisite(s)..... [MAT-032](#) or acceptable placement score

MAT-102 Intermediate Algebra

Credits: 3
This course includes the study of linear systems and applications; quadratic expressions, equations, functions and graphs; and rational and radical expressions and functions. 2.0-3.0-3.0
Prerequisite(s)..... [MAT-101](#) or acceptable placement score

MAT-110 College Algebra

Credits: 3
This course includes the following topics: polynomial, rational, logarithmic, and exponential functions; inequalities; systems of equations and inequalities; matrices; determinants; and solutions of higher degree polynomials. A graphing calculator is required for this course. 3.0-0.0-3.0
Prerequisite(s)..... [MAT-102](#) with a grade of "C" or higher, or acceptable placement score

MAT-111 College Trigonometry

Credits: 3
This course includes the following topics: trigonometric functions; trigonometric identities; solution of right and oblique triangles; solution of trigonometric equations; polar coordinates; complex numbers, including DeMoivre's Theorem; vectors; conic sections; and parametric equations. Graphing calculator is required. 3.0-0.0-3.0

3.0-0.0-3.0**

Following each course description, a numerical system will be displayed describing the following:

- 1st #:** Class hours per week
- 2nd #:** Lab hours per week
- 3rd #:** Credits earned for completed course

Prerequisite(s)..... [MAT-110](#) with a grade of "C" or higher, or acceptable placement score

MAT-120 Probability & Statistics

Credits: 3

This course includes the following topics: introductory probability and statistics, including organization of data, sample space concepts, random variables, counting problems, binomial and normal distributions, central limit theorem, confidence intervals, and test hypotheses for large and small samples; types I and II errors; linear regression; and correlation. Graphing calculator is required. 3.0-0.0-3.0

Prerequisite(s)..... [MAT-102](#) with a grade of "C" or higher, or acceptable placement score

MAT-122 Finite College Mathematics

Credits: 3

This course includes the following topics: logic; sets; Venn Diagrams; counting problems; probability; matrices; systems of equations; linear programming, including the simplex method and applications; graphs; and networks. Graphing calculator is required. 3.0-0.0-3.0

Prerequisite(s)..... [MAT-110](#) with a grade of "C" or higher, or acceptable placement score

MAT-130 Elementary Calculus

Credits: 3

This course includes the following topics: differentiation and integration of polynomials; rational, logarithmic, and exponential functions; and interpretation and application of these processes. 3.0-0.0-3.0

Prerequisite(s)..... [MAT-110](#) with a grade of "C" or higher, or acceptable placement score

MAT-140 Analytical Geometry & Calculus I

Credits: 4

This course includes the following topics: derivatives and integrals of polynomials; rational, logarithmic, exponential, trigonometric, and inverse trigonometric functions; curve sketching; maxima and minima of functions; related rates; work; and analytic geometry. Graphing calculator is required. 4.0-0.0-4.0

Prerequisite(s)..... [MAT-111](#) with a grade of "C" or higher, or acceptable placement score

MAT-141 Analytical Geometry & Calculus II

Credits: 4

This course includes the following topics: continuation of calculus of one variable, including analytic geometry, techniques of integration, volumes by integration, and other applications; infinite series, including Taylor series and improper integrals. Graphing calculator is required. 4.0-0.0-4.0

Prerequisite(s)..... [MAT-140](#)

MAT-155 Contemporary Mathematics

Credits: 3

This course includes techniques and applications of the following topics: properties of and operations with real numbers, elementary algebra, consumer mathematics, applied geometry, measurement, graph sketching and interpretations, and descriptive statistics. 3.0-0.0-3.0

Prerequisite(s)..... [MAT-101](#) or acceptable placement score

MAT-160 Math for Business & Finance

Credits: 3

This course includes the following topics: commissions, mark-on, depreciation, interest on unpaid balances, compound interest, payroll, taxes, and graphs. 3.0-0.0-3.0

Prerequisite(s)..... [MAT-032](#)

MAT-240 Analytical Geometry & Calculus III

Credits: 4

This course includes the following topics: multivariable calculus, including vectors; partial derivatives and their applications to maximum and minimum problems with and without constraints; line integrals; multiple integrals in rectangular and other coordinates; and stokes' and green's theorems. 4.0-0.0-4.0

Prerequisite(s)..... [MAT-141](#)

MAT-250 Elementary Mathematics

Credits: 3

This course provides students with an understanding of the meaning of numbers, fundamental operations of arithmetic, structure of the real number system & its subsystems, & elementary numbers theory. Note: Within the parameters of an approved articulation agreement, this course may transfer to an accredited Education Program at a comprehensive four-year college or university. 3.0-0.0-3.0

Prerequisite(s)..... [MAT-102](#) with a grade of "C" or higher, or acceptable placement score

MAT-251 Elementary Mathematics II

Credits: 3

This course provides students with an understanding of informal geometry and basic concepts of algebra. Note: Within the parameters of an approved articulation agreement, this course may transfer to an accredited Education program at a comprehensive four-year college or university. 3.0-0.0-3.0

Prerequisite(s)..... [MAT-110](#) OR [MAT-250](#)

MED-103 Medical Assisting Introduction

Credits: 3

This course provides an introduction to the profession of medical assisting, including qualifications, duties, and the role of the medical assistant. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#) and approval of Program Coordinator.

MED-105 Medical Office Skills I

Credits: 5

This course provides a study of receptionist duties, records maintenance, insurance form processing, and office machine use. 4.0-3.0-5.0

Prerequisite(s)..... [MED-103](#), and either [CPT-101](#) or [AOT-105](#) or approval of Program Coordinator

MED-107 Medical Office Management

Credits: 4

This course provides a study of the principles and practices of banking and accounting procedures, billing methods, and office management. 4.0-0.0-4.0

Prerequisite(s)..... [MED-103](#), AND [MAT-160](#) or [MAT-101](#)

MED-112 Medical Assisting Pharmacology

Credits: 2

This course provides a study of principles of pharmacology, drug therapy, and the administration of medication. 1.0-3.0-2.0

Prerequisite(s)..... None

MED-114 Medical Assisting Clinical Procedures

Credits: 4

This course covers examination room techniques, including vital signs, specialty examination, minor surgical techniques and emergency procedures. 3.0-3.0-4.0

Prerequisite(s)..... None

MED-156 Clinical Experience

Credits: 6

This course provides direct experience in a physician's office or other selected medical facilities. 1.0-15.0-6.0

Prerequisite(s)..... [MED-105](#), [MED-107](#), [MED-114](#)

Corequisite(s)..... [MED-112](#)

MGT-101 Principles of Management

Credits: 3

This course is a study of management theories, emphasizing the management functions of planning, decision making, organizing, leading, and controlling. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-031](#) [RDG-032](#)

MGT-120 Small Business Management

Credits: 3

This course is a study of small business management and organization, forms of ownership, and the process of starting a new business. 3.0-0.0-3.0

Prerequisite(s)..... [MGT-101](#) or approval of Department Chair

MGT-150 Fundamentals of Supervision

Credits: 3

This course is a study of supervising principles and techniques required to effectively manage human resources in an organization. First-line management is emphasized. 3.0-0.0-3.0

Prerequisite(s)..... [MGT-101](#)

MGT-201 Human Resources Management

Credits: 3

This course is a study of personnel administration functions within a business organization. Major areas of study include job analysis; recruitment, selection and assessment of personnel; and wage, salary, and benefit administration. 3.0-0.0-3.0

Prerequisite(s)..... [MGT-101](#)

MGT-270 Managerial Communications

Credits: 3

This course is a study of the skills used to create a climate for effective communication in the decision making and problem solving process. This is the capstone course for the Accounting, Marketing and Management associate degree programs. 3.0-0.0-3.0

Prerequisite(s)..... [BUS-225](#) AND [SPC-205](#) OR [SPC-209](#)

MKT-101 Marketing

Credits: 3

This course covers an introduction to the field of marketing with a detailed study of the marketing concept and the processes of product development, pricing, promotion and distribution. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-031](#) [RDG-032](#)

MKT-110 Retailing

Credits: 3

This course is a study of the importance of retailing in American business and covers the concepts of store location, layout, merchandising, display, pricing, inventory control, promotional programs and profit management. 3.0-0.0-3.0

Prerequisite(s)..... [MKT-101](#)

MKT-120 Sales Principles

Credits: 3

This course is a study of the personal selling process with special emphasis on determining customer needs and developing effective communications and presentation skills. 3.0-0.0-3.0

Prerequisite(s)..... [MKT-101](#)

MKT-140 E-Marketing

Credits: 3

This course is a study of electronic marketing. In addition to traditional marketing topics, special emphasis will be placed on internet marketing fundamentals, strategies, and trends as well as the usage of specific internet tools such as email campaigns, social media, search and mobile marketing. 2.0-3.0-3.0

Prerequisite(s)..... [MKT-101](#) and [CPT-101](#)

MKT-240 Advertising

Credits: 3

This course is a study of the role of advertising in the marketing of goods and services, including types of advertising, media, how advertising is created, agency functions, and regulatory aspects of advertising. 2.0-3.0-3.0

Prerequisite(s)..... [MKT-101](#)

MTT-111 Machine Tool Theory & Practice I

Credits: 5

This course is an introduction to the basic operation of machine shop equipment. 3.0-6.0-5.0

Prerequisite(s)..... [MAT-101](#), [RDG-032](#); OR acceptable placement scores

MTT-112 Machine Tool Theory & Practice II

Credits: 5

This course is a combination of the basic theory and operation of machine shop equipment. 3.0-6.0-5.0

Prerequisite(s)..... [MTT-111](#) or approval of Department Chair

MTT-123 Machine Tool Theory II

Credits: 3

This course covers the principles involved in machining parts using machine tools, including lathes, mills, drill presses, jig bores, and the attachments for each. 2.0-3.0-3.0

Prerequisite(s)..... [IMT-113](#), [EGR-105](#), [RDG-031](#), [MAT-032](#) or acceptable placement scores

MTT-143 Precision Measurements

Credits: 2

This course is a study of precision measuring instruments. Instruments related to the machine tool industry will be demonstrated along with hands-on use by the student to obtain accurate readings.1.0-3.0-2.0

Prerequisite(s)..... [MAT-101](#), [RDG-031](#)

MTT-145 Machining of Metals

Credits: 3

This course covers theoretical and practical training in the physical properties of metals, their required stock removal/speeds/feeds/and depths of cut, and finish requirements. 2.0-3.0-3.0

Prerequisite(s)..... [IMT-113](#), [EGR-105](#), [RDG-031](#), [MAT-032](#) or acceptable placement scores.

MTT-171 Industrial Quality Control

Credits: 2

This course covers the methods and procedures of quality control. 2.0-0.0-2.0

Prerequisite(s)..... None

MTT-247 Plastic Moldmaking II

Credits: 3

This course is an advanced study of moldmaking and plastics. 2.0-3.0-3.0

Prerequisite(s)..... None

MTT-250 Principles of CNC

Credits: 3

This course is an introduction to the coding used in CNC programming. The Cartesian Coordinate System, along with machine coordinates, will also be taught. The program Master CAM will be used. 2.0-3.0-3.0

Prerequisite(s)..... [MTT-145](#) AND [MAT-102](#) or [MAT-155](#) or approval of Department Chair.

MTT-254 CNC Programming I

Credits: 3

This course is a study of CNC programming, including machine language and computer-aided programming. 2.0-3.0-3.0

Prerequisite(s)..... [MTT-250](#)

MTT-255 CNC Programming II

Credits: 3

This course includes CNC programming with simulated production conditions. The course will be taught using the latest version of Master CAM software. 2.0-3.0-3.0

Prerequisite(s)..... [MTT-254](#)

MTT-256 Cnc Programming III

Credits: 3

This course is a study of advanced CNC programming methods using multi-axis machining centers. 2.0-3.0-3.0

Prerequisite(s)..... None

MTT-290 Selected Topics in Machine

Credits: 3

This course is a study of current topics related to machine tool technology. 3.0-0.0-3.0

Prerequisite(s)..... None

MUS-105 Music Appreciation

Credits: 3

This course is an introduction to the study of music with focus on the elements of music and their relationships, the musical characteristics of representative works and composers, common musical forms and genres of various western and non-western historical style periods, and appropriate listening experiences. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#) or acceptable palcement scores.

Search for... Programs of Study Courses

NET-105 Reactor Components and Systems

Credits: 3
This course reviews nuclear power plant (NPP) operations, components and systems. Topics covered include reactor types, heat transfer/fluid flow, chemistry, properties of reactor plant materials and reactor plant protection and safety. 3.0-0.0-3.0

Prerequisite(s)..... [MAT-102](#)

NET-130 Radiological Protection

Credits: 3
This course is a study of basic radiological protection principles. Topics include detectors, basic nuclear instrumentation, portable survey equipment and related topics in radiation protection protocols. 2.0-3.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#), [MAT-101](#)

NET-237 Nuclear Safety

Credits: 2
This course explains the basic concepts related to nuclear protection, accident analysis, transient prevention and mitigation of damage and accident management. Topics provide a summary of basic information about major industry operating experience and accident case studies. 2.0-0.0-2.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

NQS-101 Introduction to Nuclear Quality Systems

Credits: 3
This course studies the basic principles of a quality program in the nuclear industry. Topics include an introduction to quality assurance and control, organizational independence, and the general roles and responsibilities of associated personnel. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#), [MAT-032](#)

NQS-105 Nuclear Quality Standards and Specificat Specification

Credits: 3
This course is s survey of codes, standards, and specifications typical of the nuclear industry. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#), [MAT-032](#)

NQS-110 Introduction to Nuclear Quality Control

Credits: 3
This course addresses the basic application of a quality control inspection program in a nuclear industry setting. Topics include a study of qualification requirements, responsibilities and authority, document control and records, corrective actions and the control of nonconforming items. 2.0-3.0-3.0

Prerequisite(s)..... [NQS-101](#), [NQS-105](#), [NET-105](#), [NET-237](#)

NQS-111 Introduction to Nuclear Quality Assurance

Credits: 3

This course develops a basic understanding of the purpose, roles and responsibilities associated with a quality assurance audit. Topics include planning and scheduling, collection and evaluation of evidence, corrective action, and reporting. 2.0-3.0-3.0

Prerequisite(s)..... [NQS-101](#),[NQS-105](#),[NET-105](#),[NET-237](#)

NQS-120 Overview of Associated Nuclear Quality

Credits: 3

This course is a study of collateral quality functions outside of standard maintenance activities. Topics include environmental qualifications, procurement requirements, material control, fire assemblies, nondestructive examinations, document control and records management. 2.0-3.0-3.0

Prerequisite(s)..... [NQS-101](#),[NQS-105](#),[NET-105](#),[NET-237](#)

NQS-201 Electrical and I&c Inspection I

Credits: 3

This course covers basic quality control inspection concepts related to electrical and instrumentation and control maintenance activities. Topics include electrical safety, equipment testing, and circuit upgrading/downgrading. 2.0-3.0-3.0

Prerequisite(s)..... None

NQS-202 Electrical and I&c Inspection II

Credits: 3

This course covers quality control inspection oversight related to specific electrical and instrumentation and control activities. Topics include equipment installation, preventive maintenance programs, supports and electrical boxes. 2.0-3.0-3.0

Prerequisite(s)..... [NQS-201](#)

NQS-211 Mechanical Inspection I

Credits: 3

This course provides the student with a basic understanding of a variety of mechanical components to include mechanical fasteners, pumps, valves, hangers, supports, restraints and snubbers. 2.0-3.0-3.0

Prerequisite(s)..... None

NQS-212 Mechanical Inspection II

Credits: 3

This course introduces the student to a variety of mechanical inspection activities including piping, hydrostatic testing, and rigging, as well as the alignment, installation, removal, and preventive maintenance of equipment. 2.0-3.0-3.0

Prerequisite(s)..... [NQS-211](#)

NQS-221 Nuclear Quality Assurance Auditing I

Credits: 3

This course provides a basic understanding of the quality assurance surveillance process, including the various types of observations, the purpose and use of checklists, the different types of objective

evidence, and the process used for the review of records and controlled documents. 2.0-3.0-3.0

Prerequisite(s)..... None

NQS-222 Nuclear Quality Assurance Auditing II

Credits: 3

This course provides basic understanding of quality assurance audit processes including the roles and responsibilities of audit team, communication with the audited organization, collection and evaluation of evidence, and preparation of the audit report. 2.0-3.0-3.0

Prerequisite(s)..... [NQS-221](#)

NQS-261 Nuclear Quality Engineering Principles I

Credits: 3

This course studies basic principles of quality engineering program in the nuclear industry. Topics include an introduction to the development and operation of quality control systems, application and analysis of testing and inspection procedures, and the use of metrology and statistical methods. 2.0-3.0-3.0

Prerequisite(s)..... [NQS-221](#)

NQS-262 Nuclear Quality Engineering Principles

Credits: 3

This course buildss on the basic understanding of the purpose, roles and responsibilities of a quality engineering program. Topics include quality organization and management, the human dimension of quality, quality planning, quality and the law, designing experiments, and risk management. 2.0-3.0-3.0

Prerequisite(s)..... [NQS-261](#)

NUR-101 Fundamentals of Nursing

Credits: 6

This course facilitates the development of beginning technical competency in the application of the nursing process to assist in meeting the needs of selected patients of varying ages. 3.5-7.5-6.0

Prerequisite(s)..... [BIO-210](#), [ENG-101](#), [MAT-110](#), [PSY-201](#)

Corequisite(s)..... [NUR-106](#), [BIO-211](#)

NUR-106 Pharmacologic Basic in Nursing Practice

Credits: 2

This introductory course outlines the basic concepts of pharmaceuticals, pharmacokinetics, pharmacodynamics, and pharmacotherapeutics. The process of clinical calculations is introduced, as well as the major drug classifications. 2.0-0.0-2.0

Prerequisite(s)..... [BIO-210](#), [ENG-101](#) [MAT-110](#), [PSY-201](#)

Corequisite(s)..... [NUR-101](#), [BIO-211](#)

NUR-162 Psychiatric & Mental Health Nursing

Credits: 3

This course covers application of critical thinking skills and nursing concepts in the care of adult clients with selected mental health problems in a variety of settings. The course includes the study of dynamics of human behavior ranging from normal to extreme. 2.0-3.0-3.0

Prerequisite(s)..... [NUR-212](#), [NUR-265](#)
Corequisite(s)..... [NUR-216](#) and [NUR-267](#)

NUR-165 Nursing Concepts & Clinical Practice I

Credits: 6
This course covers applications of critical thinking skills and nursing concepts in the care of adult clients with selected health problems in a variety of settings. 4.0-6.0-6.0

Prerequisite(s)..... [NUR-101](#), [NUR-106](#), [BIO-211](#)
Corequisite(s)..... [NUR-211](#), [BIO-225](#)

NUR-201 Transition Nursing

Credits: 3
This course facilitates the transition of the practical nurse graduate to the role of the associate degree nursing student. 2.0-3.0-3.0

Prerequisite(s)..... [BIO-210](#), [BIO-211](#), [ENG-101](#), [MAT-110](#), [PSY-201](#), [PSY-203](#), [BIO-225](#)
Corequisite(s)..... [SPC-205](#)

NUR-211 Care of the Childbearing Family

Credits: 4
This course facilitates the application of the nursing process to assist in meeting the needs of the childbearing family. 2.0-6.0-4.0

Prerequisite(s)..... [NUR-101](#), [NUR-106](#), [BIO-211](#)
Corequisite(s)..... [NUR-165](#), [BIO-225](#)

NUR-212 Nursing Care of Children

Credits: 4
This course facilitates the application of the nursing process to assist in meeting the needs of children with acute and chronic health problems. Focus is on growth and development and anticipatory guidance. 3.0-3.0-4.0

Prerequisite(s)..... [NUR-211](#), [NUR-165](#) or [NUR-201](#), [SPC- 205](#), [PSY-203](#), [BIO-225](#).
Corequisite(s)..... [NUR-265](#)

NUR-216 Nursing Seminar

Credits: 1
This course is an exploration of concepts related to selected nursing topics. 1.0-0.0-1.0

Prerequisite(s)..... [NUR-212](#), [NUR-265](#)
Corequisite(s)..... [NUR-162](#), [NUR-267](#)

NUR-265 Nursing Concepts & Clinical Practice II

Credits: 6
Continuation of the application of critical thinking skills and nursing concepts in the care of the adult clients with selected health problems in a variety of settings. 4.0-6.0-6.0

Prerequisite(s)..... [NUR-211](#), [NUR-165](#) or [NUR-201](#), [BIO-225](#), [PSY-203](#), [SPC-205](#)

Corequisite(s)..... [NUR-212](#)

NUR-267 Nursing Concepts & Clinical Practice IV

Credits: 6

This course is a continuation of the application of critical thinking skills and nursing concepts in the care of clients with complex, multi-system health problems in a variety of settings. This course covers concepts of leadership, management, and professional role development. 3.0-9.0-6.0

Prerequisite(s)..... [NUR-212](#), [NUR-265](#)

Corequisite(s)..... [NUR-216](#)

Search for... Programs of Study Courses

PHI-101 Introduction to Philosophy

Credits: 3

This course includes a topical survey of the three main branches of philosophy - epistemology, metaphysics, and ethics - and the contemporary questions related to these fields. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

PHI-105 Introduction to Logic

Credits: 3

This course is an introduction to the structure of argument, including symbolization, proofs, formal fallacies, deductions, and inductions. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

PHI-106 Logic II Inductive Reasoning

Credits: 3

This elementary logic course is an introduction to inductive reasoning. Patterns of inductive reasoning including analogical reasoning, inductive generalizations, scientific reasoning, and casual reasoning will be examined. Probability theory, decision analysis, and the criteria for the acceptability of inductive arguments will be covered also. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

PHI-110 Ethics

Credits: 3

This course is a study of the moral principles of conduct emphasizing ethical problems and modes of ethical reasoning. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

PHI-115 Contemporary Moral Issues

Credits: 3

This course examines moral issues in contemporary society, including basic principles and applications of ethics. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

PHM-101 Introduction to Pharmacy

Credits: 3

This course provides a study of the and introduction to pharmacy and the role of the pharmacy in providing patient care services. 2.0-3.0-3.0

Prerequisite(s)..... [ENG-160](#), [AHS-102](#), [MAT-101](#)

PHM-110 Pharmacy Practice

**2014 - 2015
Online Catalog**

Following each course description, a numerical system will be displayed describing the following:

- 1st #:** Class hours per week
- 2nd #:** Lab hours per week
- 3rd #:** Credits earned for completed course

Credits: 4

This course provides a study of theory and practice in procuring, manipulating and preparing drugs for dispensing. 3.0-3.0-4.0

Prerequisite(s)..... [ENG-160](#), [MAT-101](#), [AHS-102](#)

Corequisite(s)..... [PHM-101](#)

PHM-113 Pharmacy Technician Math

Credits: 3

This course includes a review of basic mathematics focusing on its application to common pharmaceutical calculations. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-160](#), [MAT-101](#), [AHS-102](#)

Corequisite(s)..... [PHM-101](#)

PHM-114 Therapeutic Agents I

Credits: 3

This course provides an introductory study of therapeutic drug categories. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-160](#), [MAT-101](#), [AHS-102](#)

Corequisite(s)..... [PHM-113](#)

PHM-118 Community Pharmacy Seminar

Credits: 1

This course is a study of the pharmacy issues related to the community pharmacy practice. 1.0-0.0-1.0

Prerequisite(s)..... [PHM-101](#)

PHM-124 Therapeutic Agents II

Credits: 3

This course includes a study of therapeutic drug categories. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-160](#), [MAT-101](#), [AHS-102](#)

Corequisite(s)..... [PHM-110](#)

PHM-152 Pharmacy Technician Practicum I

Credits: 2

This course provides a practical introduction to the pharmacy environment.

Prerequisite(s)..... [PHM-114](#)

PHM-164 Pharmacy Technician Practicum II

Credits: 4

This course provides practical application of pharmacy skills in pharmacy environments.

Prerequisite(s)..... Must have completed [PHM-152](#) Pharmacy Technician Practicum I.

Corequisite(s)..... [PHM-124](#)

PHM-201 Pharmacy Management

Credits: 2

This course will provide a study of managing personnel, materials and work flow in a pharmacy. 2.0-0.0-2.0

Prerequisite(s)..... [ENG-160](#), [MAT-101](#), and [AHS-102](#)

PHM-250 Special Topics in Pharmacy

Credits: 3

This course provides opportunities for specialized studies of unique topics in pharmacy, such as pediatric pharmacology, advanced chemotherapy and IV preparation, and advanced medication order entry and interpretation. 3.0-0.0-3.0

Prerequisite(s)..... None

PHS-101 Physical Science I

Credits: 4

This is the first of a sequence of courses in physical science and includes an introduction to science with emphasis on science terminology and investigations of the physical world. Topics are selected from astronomy, chemistry, geology, and physics. 3.0-3.0-4.0

Prerequisite(s)..... None

PHS-102 Physical Science II

Credits: 4

This is a continuation of the introduction to science with emphasis on science terminology and investigations of the physical world. Topics are selected from astronomy, chemistry, geology, and physics. 3.0-3.0-4.0

Prerequisite(s)..... None

PHS-111 Conceptual Physics I

Credits: 3

This course is an introduction to the mechanical concepts of distance, time, mass, force, energy, and power. 3.0-0.0-3.0

Prerequisite(s)..... None

PHY-181 Integrated Physics I

Credits: 3

This problem-based course covers electrical theory and concepts that support engineering technology principles. The course includes concepts such as thermal, fluids, and optics. Mathematics, communications, and technology are integrated throughout the course. 2.0-3.0-3.0

Prerequisite(s)..... [MAT-102](#)

PHY-182 Integrated Physics II

Credits: 3

This problem-based course covers mechanical theory and concepts that support engineering technology principles. The course includes concepts such as thermal, fluids, and optics. Mathematics, communications, and technology are integrated throughout the course. 2.0-3.0-3.0

Prerequisite(s)..... [MAT-102](#)

PHY-201 Physics I

Credits: 4

This is the first in a sequence of physics courses. Topics include mechanics, wave motion, sound, heat, electromagnetism, optics, and modern physics. Laboratory exercises are used to emphasize these topics. 3.0-3.0-4.0

Prerequisite(s)..... [MAT-110](#), [MAT-111](#)

PHY-202 Physics II

Credits: 4

This course covers physics topics, including mechanics, wave motion, sound, heat, electromagnetism, optics, and modern physics. Laboratory exercises are used to emphasize these topics. 3.0-3.0-4.0

Prerequisite(s)..... [MAT-110](#), [MAT-111](#), [PHY-201](#)

PHY-221 University Physics I

Credits: 4

This is the first of a sequence of courses. The course includes a calculus based treatment of the following topics: vectors, laws of motion, rotation, vibratory and wave motion. 3.0-3.0-4.0

Prerequisite(s)..... [MAT-140](#)

PHY-222 University Physics II

Credits: 4

This course is a continuation of calculus based treatment of the following topics: thermodynamics, kinetic theory of gases, electricity and magnetism, including electrostatics, dielectrics, electric circuits, magnetic fields, and induction phenomena. 3.0-3.0-4.0

Prerequisite(s)..... [PHY-221](#), [MAT-140](#)

PNR-110 Fundamentals of Nursing

Credits: 5

This course provides an introduction to basic principles and beginning skills necessary to the nursing process. Concepts are intergraded relating to the physiological and psychosocial needs of the individual. Legal and ethical roles of the Practical Nurse are emphasized. 3.0-6.0-5.0

Prerequisite(s)..... [BIO-210](#), [BIO-211](#), [ENG-101](#), [MAT-110](#), [PSY-201](#)

Corequisite(s)..... [PNR-122](#), [PNR-181](#) and [PNR-182](#)

PNR-122 Pharmacology

Credits: 3

This is an introductory course to the concepts of pharmacology and medication administration. Emphasis is on calculation of dosages, administration of medications, and correct use of abbreviations. Effects of specific drugs are presented. Nursing implications are stressed for utilization within the framework of the nursing process. 3.0-0.0-3.0

Prerequisite(s)..... [BIO-210](#), [BIO-211](#), [ENG-101](#), [MAT-110](#), [PSY-201](#)

Corequisite(s)..... [PNR-110](#) and [PNR-181](#), [PNR-182](#)

PNR-128 Medical/Surgical Nursing I

Credits: 7

This course is a beginning study utilizing the nursing process. Concepts include the physiological, psychosocial, and health and safety needs of the adult. Pharmacology and nutrition are integrated. Clinical experiences address selected commonly occurring health problems having predictable outcomes. 4.0-9.0-7.0

Prerequisite(s)..... [PNR-110](#), [PNR-181](#), [PNR-182](#), [PNR-122](#)

PNR-138 Medical/Surgical Nursing II

Credits: 7

This course is a continuation of the study of the nursing process. Concepts include the physiological, psychosocial, and health and safety needs of the adult. Pharmacology and nutrition are integrated. Clinical experiences address selected commonly occurring health problems having predictable outcomes. 5.0-6.0-7.0

Prerequisite(s)..... [PNR-128](#)

Corequisite(s)..... [PNR-154](#)

PNR-154 Maternal Infant & Child Nursing

Credits: 5

This course is a study utilizing the nursing process, integrating pediatrics to meet the needs of the childbearing family. Clinical experiences address the care of the mother, newborn, and the care of the child with commonly occurring illnesses. 4.0-3.0-5.0

Prerequisite(s)..... [PNR-128](#)

Corequisite(s)..... [PNR-138](#)

PNR-181 Special Topics in Practical Nursing

Credits: 1

This course covers special topics in practical nursing. 1.0-0.0-1.0

Prerequisite(s)..... [BIO-210](#), [BIO-211](#), [ENG-101](#), [MAT-110](#), [PSY-201](#),

Corequisite(s)..... [PNR-110](#), [PNR-122](#) and [PNR-182](#)

PNR-182 Special Topics in Practical Nursing

Credits: 2

This course covers special topics in practical nursing.2.0-0.0-2.0

Prerequisite(s)..... [BIO-210](#), [BIO-211](#) [ENG-101](#) [MAT-110](#), [PSY-201](#).

Corequisite(s)..... [PNR-110](#), [PNR-122](#) and [PNR-181](#)

PSC-201 American Government

Credits: 3

This course is a study of national governmental institutions with emphasis on the constitution, the functions of the executive, legislative and judicial branches, civil liberties and the role of the electorate. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

PSC-215 State and Local Government

Credits: 3

This course is a study of state, county, and municipal government systems, including inter-relationships between these systems and within the federal government. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

PSY-105 Personal/Interpersonal Psychology

Credits: 3

This course emphasizes the principles of psychology in the study of self awareness and interpersonal adjustment and behavior in contemporary society. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-031](#), [RDG-031](#)

PSY-201 General Psychology

Credits: 3

This course includes the following topics and concepts in the science of behavior: scientific method, biological bases for behavior, perception, motivation, learning memory, development, personality, abnormal behavior, therapeutic techniques, and social psychology. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

PSY-203 Human Growth and Development

Credits: 3

This course is a study of the physical, cognitive, and social factors affecting human growth, development, and potential. 3.0-0.0-3.0

Prerequisite(s)..... [PSY-201](#); or [PSY-105](#), [ENG-032](#) and [RDG-032](#)

PSY-206 Health Psychology

Credits: 3

This course is a science-based study of the psychological and behavioral influences on health. Topics may include the mind-body connection, the professional and academic field, systems of the body, prevention, stress coping, health care, and managing illness. 3.0-0.0-3.0

Prerequisite(s)..... [PSY-201](#)

PSY-208 Human Sexuality

Credits: 3

This course is a study of biological, psychological, and sociological perspectives of human sexuality. Historical, cross-cultural, and ethical issues are considered in the course. 3.0-0.0-3.0

Prerequisite(s)..... [PSY-201](#)

PSY-210 Educational Psychology

Credits: 3

This course is the study of the teaching-learning process with emphasis on learning theory, transfer, problem solving, habit formation, individual difference, and other factors that facilitate learning. 3.0-0.0-3.0

Prerequisite(s)..... [PSY-201](#)

PSY-212 Abnormal Psychology

Credits: 3

This course is the study of the nature and development of behavioral disorders, including the investigation of contemporary treatment procedures. 3.0-0.0-3.0

Prerequisite(s)..... [PSY-201](#)

PSY-218 Behavior Modification

Credits: 3

This course is an introduction to the terminology, methods, and procedures used in behavior modification, including the application of these procedures and techniques in specific areas of human services. 3.0-0.0-3.0

Prerequisite(s)..... [PSY-201](#)

PSY-220 Psychology of Personality

Credits: 3

This course is a study of classical and modern theories of personality. Research implications are evaluated. 3.0-0.0-3.0

Prerequisite(s)..... [PSY-201](#)

PSY-231 Counseling Techniques

Credits: 3

This course is a study of a variety of counseling techniques necessary to assist qualified therapists in a variety of therapeutic settings. 3.0-0.0-3.0

Prerequisite(s)..... [PSY-201](#); or [PSY-105](#), [ENG-032](#) and [RDG-032](#)

PSY-235 Group Dynamics

Credits: 3

This course is an examination of the theory and practice of group dynamics. Emphasis is on the application of the value and use of the group processes in specialized settings. 3.0-0.0-3.0

Prerequisite(s)..... [PSY-231](#); or [PSY-105](#), [ENG-032](#) and [RDG-032](#)

QAT-202 Metrology & Calibration

Credits: 3

This course covers the measuring instruments used in a typical industrial metrology laboratory. Techniques of making measurements, accuracy and precision, and calibration control systems are stressed. 2.0-3.0-3.0

Prerequisite(s)..... None

Search for... Programs of Study Courses

RAD-101 Introduction to Radiography

Credits: 2

This course provides an introduction to radiologic technology with emphasis on orientation to the radiology department, ethics, and basic radiation protection. 2.0-0.0-2.0

Prerequisite(s)..... None

RAD-102 Radiology Patient Care Procedures

Credits: 2

This course provides a study of the procedures and techniques used in the care of the diagnostic imaging patient. 1.0-3.0-2.0

Prerequisite(s)..... [ENG-101](#), [BIO-210](#), [BIO-211](#), [AHS-102](#)

RAD-103 Introduction to Computer Tomography

Credits: 2

This course is a study of the Technological developments behind computed tomography, an overview of canner components, terminology, data acquisition, digital imaging, image reconstruction display and manipulation. 2.0-3.0-3.0

Prerequisite(s)..... [ENG-101](#), [BIO-210](#), [BIO-211](#), [AHS-102](#)

RAD-104 Introduction to Physics

Credits: 1

This course provides an overview of mathematical applications, unit conversions, and a basic overview of theory and principles as they relate to physics. 0.0-3.0-1.0

Prerequisite(s)..... [ENG-101](#), [BIO-210](#) , [BIO-211](#), [AHS-102](#)

RAD-110 Radiographic Imaging I

Credits: 3

This course provides detailed study of the parameters controlling radiation quality and quantity for radiographic tube operation and image production. 3.0-0.0-3.0

Prerequisite(s)..... [RAD-102](#), [RAD-104](#), [RAD-130](#), [RAD-155](#)

RAD-115 Radiographic Imaging II

Credits: 3

This course continues a detailed study of primary and secondary influencing factors and accessory equipment related to imaging. 2.0-3.0-3.0

Prerequisite(s)..... [RAD-110](#)

RAD-121 Radiographic Physics

3.0-0.0-3.0**

Following each course description, a numerical system will be displayed describing the following:

- 1st #:** Class hours per week
- 2nd #:** Lab hours per week
- 3rd #:** Credits earned for completed course

Credits: 4

This course introduces the principles of Radiographic Physics, incorporating theory and application of basic principles underlying the operation and maintenance of x-ray equipment. 3.0-3.0-4.0

Prerequisite(s)..... [RAD-115](#)

RAD-130 Radiographic Procedures I

Credits: 3

This course provides an introduction to radiographic procedures. Positioning of the chest, abdomen, and extremities will be included. 2.0-3.0-3.0

Prerequisite(s)..... [ENG-101](#), [BIO-210](#), [BIO-211](#), [AHS-102](#)

RAD-136 Radiographic Procedures II

Credits: 3

This course is a study of radiographic procedures for visualization of the structures of the body. 2.0-3.0-3.0

Prerequisite(s)..... [RAD-130](#)

RAD-155 Applied Radiography I

Credits: 5

This course introduces the clinical environment of the hospital by provided basic use of radiographic equipment and routine radiographic procedures. 0.0-15.0-5.0

Prerequisite(s)..... [ENG-101](#), [BIO-210](#), [BIO-211](#), [AHS-102](#)

RAD-165 Applied Radiography II

Credits: 5

This course includes the use of radiographic equipment and performance of radiographic procedures within the clinical environment of the hospital. 0.0-15.0-5.0

Prerequisite(s)..... [RAD-155](#)

RAD-176 Applied Radiography III

Credits: 6

This course includes routine and advanced radiographic procedures in the clinical environment. 2.0-12.0-6.0

Prerequisite(s)..... [RAD-165](#)

RAD-201 Radiation Biology

Credits: 2

This course is a study of the principles of radiobiology and protection. It emphasizes procedures that keep radiation exposure to patients, personnel, and the population at large to a minimum. 2.0-0.0-2.0

Prerequisite(s)..... [RAD-121](#)

RAD-205 Radiographic Pathology

Credits: 2

This course provides a survey of disease processes significant to the radiographer, including etiology, diagnosis, prognosis, and treatment. 1.0-3.0-2.0

Prerequisite(s)..... [RAD-102](#), [RAD-104](#), [RAD-130](#)

RAD-230 Radiographic Procedures III

Credits: 3

This course is a study of special radiographic procedures. 2.0-3.0-3.0

Prerequisite(s)..... None

RAD-235 Radiography Seminar I

Credits: 1

This course includes selected areas of radiography that require additional study or application. 0.0-3.0-1.0

Prerequisite(s)..... [RAD-121](#)

RAD-256 Advanced Radiography I

Credits: 6

This course includes independently performing routine procedures in a radiology department, including involvement in advanced radiographic procedures. 0.0-18.0-6.0

Prerequisite(s)..... [RAD-176](#)

RAD-266 Advanced Radiography II

Credits: 6

This course includes routing radiographic examinations, as well as advanced procedures, while continuing to build self-confidence in the clinical atmosphere. 0.0-18.0-6.0

Prerequisite(s)..... [RAD-256](#)

RAD-276 Advanced Radiography III

Credits: 6

This course includes routine and advanced radiographic procedures in the clinical environment. 0.0-18.0-6.0

Prerequisite(s)..... None

RDG-031 Developmental Reading

Credits: 3

This course is a basic course designed to strengthen academic reading skills. Students will learn fundamental strategies to improve reading comprehension. Instruction will include an overview of basic concepts such as determining word meaning and will introduce reading as a process. 3.0-0.0-3.0

Prerequisite(s)..... None

RDG-032 Developmental Reading

Credits: 3

This course is an intensive overview of the academic reading skills needed for success in a college level course. Students will demonstrate their understanding of reading as a process and will apply strategies learned to expand their reading comprehension skills. Students will demonstrate the ability to integrate knowledge, use context clues, and identify supporting details. 3.0-0.0-3.0

Prerequisite(s)..... [RDG-031](#) or acceptable placement test score

REL-103 Comparative Religion

Credits: 3

This course is an analysis of the religious experience of various persons and groups, east and west, in traditional and contemporary settings. It includes tribal religions, Hinduism, Buddhism, Confucianism, Taoism, Judaism, Christianity and Islam. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

RPT-101 Introduction to Radiation Protection

Credits: 1

This course provides a study of the radiation protection profession to include career paths, opportunities and challenges, roles and responsibilities of a radiation protection technician, and the culture of the nuclear industry. 0.0-3.0-1.0

Prerequisite(s)..... None

RPT-103 Radiation Fundamentals

Credits: 4

This course presents an overview of the physics and chemistry of radiation and radioactive material, applications of radiation, associated radionuclides, context and rationale of use, interactions with matter, shielding and energies, decay products and their production in reactors or accelerators. 3.0-3.0-4.0

Prerequisite(s)..... [MAT-102](#); [RDG-032](#) and [ENG-032](#), or acceptable placement scores in reading and English

Corequisite(s)..... [MAT-110](#)

RPT-113 Radiation Monitoring

Credits: 4

This course is the study of the theory and operation of radiation monitors, maintenance and calibration of these systems, proper selection and use of various monitoring systems for evaluation of radioactive hazards, and the interpretation and reporting of such evaluations utilizing scenarios. 3.0-3.0-4.0

Prerequisite(s)..... [RPT-103](#)

RPT-120 Hazardous Waste Oper. & Emer. Response

Credits: 1

This course introduces hazardous waste operations and clean-up procedures for hazardous waste sites as required by Federal, state, local or other governments. This course also covers emergency response operations for hazardous substance releases. 1.0-0.0-1.0

Prerequisite(s)..... [RPT-103](#), [RPT-113](#) and approval of Department Chair

RPT-223 Radiation Dosimetry

Credits: 3

This course presents scenarios in which RPTs monitor internal and external exposure of personnel to ionizing radiation. The course will address interpretation of these results and techniques for minimization of personnel dose. 3.0-0.0-3.0

Prerequisite(s)..... [RPT-113](#), [MAT-110](#)

RPT-233 Radioactive Materials Handling

Credits: 3

This course presents scenarios in which RPTs are required to provide safe control, movement, use, storage, transportation and disposal of radioactive materials. 3.0-0.0-3.0

Prerequisite(s)..... [RPT-113](#), [MAT-110](#)

RPT-243 Radiological Safety and Response

Credits: 4

This course presents scenarios in which RPTs are responsible for ensuring and maintaining doses ALARA (As Low As Reasonably Achievable) for the safety of individuals, the work environment, and the population, including response to abnormal and emergency radiological conditions. 3.0-3.0-4.0

Prerequisite(s)..... [RPT-113](#), [MAT-110](#)

RPT-253 Radiation Protection

Credits: 3

This course utilizes a problems-based approach that incorporates different radiation contexts such as providing radiological coverage of jobs, high-risk and low-risk activities, planning for protection from hazardous radiation, monitoring of activities in radioactive zones, and emergency response. 2.0-3.0-3.0

Prerequisite(s)..... [RPT-113](#), [RPT-223](#), [RPT-233](#), [RPT-243](#), [ENG-260](#)

RPT-290 Radiation Protection Tech Internship

Credits: 3

This course provides students with an internship experience with an industry, governmental, or educational institution that uses radioactive materials and requires radiation protection technicians. 1.0-6.0-3.0

Prerequisite(s)..... [RPT-103](#), [RPT-113](#)

Search for... Programs of Study Courses

SAC-101 Best Practices in School-Age and Youth

Credits: 3

This course introduces basic best practices of school-age and youth care skills for practitioners in out-of-school environments. 3.0-0.0-3.0

Prerequisite(s)..... None

SOC-101 Introduction to Sociology

Credits: 3

This course emphasizes the fundamental concepts and principles of sociology, including culture, socialization, interaction, social groups and stratification, effects of population growth, and technology in society and social institutions. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

SOC-102 Marriage and the Family

Credits: 3

This course introduces the institutions of marriage and the family from a sociological perspective. Significant forms and structures of family groups are studied in relation to current trends and social change. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

SOC-205 Social Problems

Credits: 3

This course is a survey of current social problems in America, stressing the importance of social change and conflicts as they influence perceptions, definitions, etiology, and possible solutions. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

SOC-210 Juvenile Delinquency

Credits: 3

This course presents the nature, extent, and causes of juvenile delinquency behavior, including strategies used in the prevention, intervention, and control of deviant behavior. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

SOC-220 Sociology of the Family

Credits: 3

This course includes an application of theory and research related to family behaviors, roles, and values with emphasis on understanding family problems. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

**Numbering System
3.0-0.0-3.0**

Following each course description, a numerical system will be displayed describing the following:

- 1st #:** Class hours per week
- 2nd #:** Lab hours per week
- 3rd #:** Credits earned for completed course

SOC-230 Introduction to Gerontology

Credits: 3

This course is a study of the aging processes, including the physiological, psychological, sociological and economic factors. 3.0-0.0-3.0

Prerequisite(s)..... [SOC-101](#), [ENG-101](#)

SOC-235 Thanatology

Credits: 3

This course is a study of dying, death, bereavement, and widow/widowerhood from a cross-cultural perspective with emphasis on the many legal and ethical issues in this field. 3.0-0.0-3.0

Prerequisite(s)..... [SOC-101](#)

SOC-240 Service Learning

Credits: 3

This course combines personal experience and theoretical learning to help students arrive at a personal understanding of volunteerism, community service learning and citizenship. This course requires off-campus activities and assignments. 3.0-0.0-3.0

Prerequisite(s)..... [SOC-101](#), [ENG-101](#)

SPA-101 Elementary Spanish I

Credits: 4

This course is a study of the four basic language skills: listening, speaking, reading, and writing, including an introduction to the Hispanic cultures. 4.0-0.0-4.0

Prerequisite(s)..... [ENG-101](#) with a grade of "C" or higher, or permission of the instructor

SPA-102 Elementary Spanish II

Credits: 4

This course continues development of the basic language skills and the study of the Hispanic cultures. 4.0-0.0-4.0

Prerequisite(s)..... [SPA-101](#) with a grade of "C" or higher

SPA-201 Intermediate Spanish I

Credits: 3

This course is a review of Spanish grammar with attention given to more complex grammatical structures and reading difficult prose. 3.0-0.0-3.0

Prerequisite(s)..... [SPA-102](#) with a grade of "C" or higher

SPA-202 Intermediate Spanish II

Credits: 3

This course continues a review of Spanish grammar with attention given to more complex grammatical structures and reading more difficult prose. 3.0-0.0.-3.0

Prerequisite(s)..... [SPA-201](#) with a grade of "C" or higher

SPC-205 Public Speaking

Credits: 3

This course is an introduction to principles of public speaking with application of speaking skills. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-101](#) OR [ENG-160](#)

SPC-209 Interpersonal Communications

Credits: 3

This course is an introduction to the principles of interpersonal communication with emphasis on interpersonal theory as applied to personal and professional relationships. Students will learn to observe and analyze how these principles operate in daily interaction with others. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-101](#) OR [ENG-160](#)

SUR-101 Introduction to Surgical Technology

Credits: 5

This course includes a study of the surgical environment, team concepts, aseptic technique, hospital organization, basic instrumentation and supplies, sterilization, principles of infection control, and wound healing. 3.0-6.0-5.0

Prerequisite(s)..... [AHS-102](#), [BIO-112](#), [BIO-225](#)

SUR-102 Applied Surgical Technology

Credits: 5

This course covers the principles and application of aseptic techniques, the perioperative role, and medical/legal aspects. 3.0-6.0-5.0

Prerequisite(s)..... None

SUR-103 Surgical Procedures I

Credits: 4

This course is a study of a system to system approach to surgical procedures and relates regional anatomy, pathology, specialty equipment, and team responsibility. Patient safety, medical/ legal aspects, and drugs used in surgery are emphasized. 3.0-3.0-4.0

Prerequisite(s)..... None

SUR-106 Advanced Surgical Procedures

Credits: 2

This course is a study of advanced surgical procedures. 2.0-0.0-2.0

Prerequisite(s)..... [SUR-103](#)

SUR-110 Introduction to Surgical Practicum

Credits: 5

this course is an introduction to the application of surgical technique by assisting in the perioperative roles in various clinical affiliations. 0.0-15.0-5.0

Prerequisite(s)..... [SUR-101](#), [SUR-102](#), and [SUR-103](#).

SUR-113 Advanced Surgical Practicum

Credits: 6

This course includes a supervised progression of surgical team responsibilities and duties of the perioperative role in various clinical affiliations. 0.0-18.0-6.0

Prerequisite(s)..... [SUR-110](#).

SUR-114 Surgical Specialty Practicum

Credits: 7

This course includes the correlation of the principles of theories of specialized surgical procedures with clinical performance in affiliated hospitals.

Prerequisite(s)..... None

SUR-116 Basic Surgical Procedures

Credits: 3

This course is a study of basic surgical procedure. 3.0-0.0-3.0

Prerequisite(s)..... [SUR-103](#)

SUR-120 Surgical Seminar

Credits: 2

This course includes the comprehensive correlation of theory and practice in the perioperative role. 2.0-0.0-2.0

Prerequisite(s)..... [SUR-110](#);

THE-101 Introduction to Theatre

Credits: 3

This course includes the appreciation and analysis of theatrical literature, history, and production. 3.0-0.0-3.0

Prerequisite(s)..... [ENG-032](#), [RDG-032](#)

WLD-108 Gas Metal ARC Welding I

Credits: 4

This course covers equipment setup and the fundamental techniques for welding ferrous and nonferrous metals with GMAW on fillet weld. 2.0-6.0-4.0

Prerequisite(s)..... [MAT-031](#), [RDG-032](#), and [ENG-032](#) OR acceptable placement scores

WLD-111 ARC Welding I

Credits: 4

This course covers the safety, equipment, and skills used in the shielded metal ARC welding process. Fillet welds are made to visual criteria in several positions. 2.0-6.0-4.0

Prerequisite(s)..... [MAT-031](#), [RDG-031](#); OR acceptable placement scores in math and reading

Corequisite(s)..... [WLD-130](#)

WLD-113 ARC Welding II

Credits: 4

This course is a study of arc welding of ferrous and/or nonferrous metals. 2.0-6.0-4.0

Prerequisite(s)..... [WLD-111](#) AND [WLD-130](#) OR [WLD-101](#) AND [WLD-102](#)

WLD-117 Specialized Arc Welding

Credits: 4

This course covers ARC welding processes for industrial purposes. It will include testing on welding in unusual positions. 2.0-6.0-4.0

Prerequisite(s)..... [WLD-111](#)

WLD-130 Welding Fundamentals

Credits: 3

This course introduces students to the principles of cutting and welding, the identification of welding tools and equipment, and the process for setting up and repairing welding equipment. Safety procedures will be emphasized. 2.0-3.0-3.0

Prerequisite(s)..... None

WLD-132 Gas Tungsten Arc Welding - Ferrous

Credits: 4

This course covers set up and adjustment of equipment and fundamental techniques for welding ferrous metals. 2.0-6.0-4.0

Prerequisite(s)..... [WLD-130](#) OR [WLD-101](#) AND [WLD-102](#)

WLD-141 Weld Quality

Credits: 2

This is an introductory course in weld quality assurance. 2.0-0.0-2.0

Prerequisite(s)..... [WLD-130](#) , [EGT-123](#)

WLD-170 Qualification Welding

Credits: 4

This course covers the procedures and practices used in taking welder qualifications tests. 3.0-3.0-4.0

Prerequisite(s)..... [EGT-123](#)

WLD-201 Welding Metallurgy

Credits: 2

This course covers the weldability of metals, weld failure, and the affects of heat on chemical, physical, and mechanical properties. 2.0-0.0-2.0

Prerequisite(s)..... [WLD-113](#), [EGT-117](#)

WLD-208 Advanced Pipe Welding

Credits: 3

This course is a study of advanced pipe welding. It also covers the processes to fit and weld ferrous and non-ferrous metals. 1.0-6.0-3.0

Prerequisite(s)..... [WLD-111](#), [WLD-113](#), [WLD-132](#), [WLD-225](#)

WLD-225 Arc Welding Pipe 1

Credits: 4

This course covers the techniques used in Shielded MEtal Arc Welding of groove welds on pipe. 2.0-6.0-4.0

Prerequisite(s)..... [WLD-130](#), [WLD-111](#), and [WLD-113](#)

Corequisite(s)..... [WLD-132](#)

A student must pay all tuition and fees in full before the beginning of each semester, prior to the first day of classes. Students who fail to take care of any balance prior to the tuition and fee deadline will be dropped for non-payment and will have to re-register for classes.

Deferred tuition payment plans are available. A copy of the terms and conditions may be obtained at the Cashier Office.

Residents of Richmond, GA and Columbia, GA counties pay Aiken County tuition plus a \$15 reciprocity fee. Tuition and fees for auditing a class are the same as for credit classes.

A full-time student is enrolled in 12 or more credit hours per semester.

Some classes require lab fees in addition to tuition, technology, and enrollment fees.

The following schedule of lab fees is for the 2014-2015 academic year:

Lab Fees

Accounting (ACC-120)	\$25.00
Air Conditioning	\$60.00
Biology	\$14.00
Certified Nursing Asst.	\$30.00
Chemistry	\$29.00
Criminal Justice	\$15.00
CPT 160/CPT 161	\$3.00
CPT 293	\$18.00
CPT 295	\$24.00
Dental Assisting	\$35.00
E.C.G.	\$38.00
Early Childhood	\$30.00
Engineering Graphics	\$10.00
Engineering Technology	\$25.00
Industrial Maintenance	\$40.00
Machine Tool Technology	\$45.00
Marketing (MKT 240)	\$12.00
Medical Assisting	\$20.00
Medical Coding	\$8.00
NQS	\$20.00
Nursing LPN & RN	\$35.00
Paramedic	\$20.00
Perioperative Nursing	\$29.00
Pharmacy Technician	\$15.00
Phlebotomy	\$45.00

Radiation Protection Tech.	\$30.00
Radiological Technology	\$15.00
Surgical Technology	\$29.00
Tower Installation	\$358.00
Welding	\$85.00

Non-Refundable Fees

Enrollment/Activity Fee	\$85.00
Late Registration Fee	\$25.00 (begins first day of term)
Exemption Exam	\$30.00 (per exam)
Reprocessing Fee	\$30.00 (reinstated in class(es) after being dropped for non-payment)

In order to be re-registered for the term, students who register for classes and are dropped from their classes due to nonpayment of fees will be charged a “re-processing fee” of \$30. The enrollment and re-processing fees are non-refundable. They are payable each semester (or when the student is reinstated for the semester).

Any student presenting a check to ATC that is returned by the bank will be charged a \$30 processing fee. The student must then pay all fees and collection charges to the 2nd Circuit Solicitor’s [Worthless Check Unit](#), located at 1689 Richland Ave. W, Aiken, S.C.

Student Refund Policy

Only students who submit a completed Add/Drop/Withdrawal Form within the specified deadline for the academic term for which the refund is requested may receive a refund. Non-refundable fees are not eligible for refunds.

1. Should the college cancel a class, the college refunds the full tuition with no action required by the student.
2. A student who elects to request an exemption exam for course(s) after the add/drop date is not eligible for a refund since a grade will be issued.
3. When a drop results in the student taking fewer than 12 credit hours, the college recalculates tuition based upon the remaining credit hours. The difference between the tuition after drop and the original charge is the basis for calculating any refund.
4. The college refunds full tuition and fees for the current term to the beneficiary of any student who dies while enrolled as a credit student, or if they receive military orders to deploy.
5. The college will provide a 100% tuition refund for any student who drops from classes during the Add/Drop/Late Registration period (for each term/semester). There is no refund for students withdrawing classes after this period has passed.

Title IV Student Aid (Federal and Pell)

- A. Title IV-sponsored student “earns” his/her aid by successfully attending class. The aid is not fully earned until the 9th week of class. Because a refund will only be processed for students dropping during the Add/Drop/Late Registration period, students who withdraw after this period will owe the college or the federal government if he or she withdraws prior to the 9th week of classes.
- B. A student who never attends a class in any/all courses is considered to have dropped before the start of the term. However, it is the student’s responsibility to drop any class he or she does not plan to attend.
- C. A student withdrawing after the Add/Drop/Late Registration period receives no refund unless the Director of Enrollment Services determines extenuating circumstances were present over which the student had no control and which the student could not reasonably foresee at the time of registration. The student will still be responsible for all non-refundable fees and any bookstore charges purchased with financial aid.

Continuing Education Fees
[See Training and Business Development](#)

Veterans Administration Benefits

A student receiving Veterans Administration benefits while enrolled in a non-degree program receives a prorata refund of tuition and refundable fees calculated on the number of class days attended.

Refunds Due To Academic Suspension

A student who has paid tuition and non-refundable fees for an upcoming term and is subsequently placed on academic suspension for that term receives 100 percent refund of tuition and fees paid.

Student Refund Policy for Military Activation

The following became law June 24, 2002:

1. When any person is activated for full-time military service during a time of national crisis and, therefore, is required to cease attending a public institution of higher learning without completing and receiving a grade in one or more courses, the assistance provided in this section is required with regard to courses not completed. A complete refund of tuition and academic fees as are assessed against all students at the institution shall be granted to the student. The refund shall be distributed proportionately to the student after considering other resources received by the student for paying applicable tuition and fee charges. The proportionate distribution shall take into account appropriate federal and state regulations governing resources received by the student. Students must be offered the maximum price, based on condition, for the textbooks associated with the courses.
2. When a student is required to cease attendance because of such military activation without completing and receiving a grade in one or more courses, the institution shall provide a reasonable opportunity for completion of the courses after deactivation.

Technical College Courses

Technical College Courses Transferable to Senior Institutions

College transfer courses are widely accepted for academic credit in South Carolina and other states; however, the acceptance of transfer credits is strictly the responsibility of the receiving institution. Therefore, students are encouraged to contact the institution they wish to attend for guidance. Many of these institutions will accept transfer credits for official transfer courses as well as many other courses taught at Aiken Technical College.

NOTE: Students enrolled in the Associate in Arts, Associate in Science and General Studies Certificate Programs MUST select courses from the official college transfer courses listed below to fulfill degree and certificate requirements.

Those courses in [blue](#) are not available at this time.

Course	Title	Credits
ACC 101	Accounting Principles I	3

Welcome to ATC's Student Handbook

General Information

Bulletin Boards

Bulletin boards, located throughout the campus, are available for posting college-related information. Students must have written permission from the Marketing & Student Experience Office (Room 931) to post or distribute information. Official college announcements will be sent via e-mail and/or posted online to the MyATC portal. It is the responsibility of each student to stay informed of college issues.

Change of Program/Major

A change of program/major often has implications for financial aid. Students who are considering a change of program/major are encouraged to discuss their plans with an advisor and a career counselor so that all options will be considered and the student can make a well informed decision.

Children on Campus

Children may not accompany their parents/guardians to class or be left in any area of the campus unattended or in the care of an on-campus baby-sitter.

Class Interruptions

ATC cannot provide delivery of personal messages, flowers, etc., nor interrupt classes for such purposes. Should a family emergency such as a death, serious illness, or serious injury occur, the college will make every effort to notify the student of the situation through Counseling Services (803) 508-7382.

Closing of the College

If weather conditions or other emergencies require the closing of ATC, the college will issue appropriate announcements for both day and evening classes. The MyATC portal is the primary messaging system for enrolled students. Announcements will also be provided from the college to local radio and television stations.

Complaints

Students have an opportunity to present both formal and informal complaints regarding their experience at the college. In order to submit a formal complaint, students should talk with a counselor and/or the Dean of Enrollment Services. If they wish to proceed with the complaint they must follow the process outlined in the [Student Code](#) and [Student Grievance Procedure](#). Students are then provided with information regarding the procedure that will be followed in determining the concern they have asked to be addressed.

Most student issues seldom rise to the level of a formal complaint. In some cases, students prefer to state their issue anonymously and suggestion boxes are provided throughout the campus for them. Comments from the suggestion boxes are distributed to members of the college's Executive Staff for appropriate consideration and/or action.

Consumer Information

Federal mandates require the release of certain consumer information to our students and the public including graduation and placement rates, campus drug policies, and the frequency of crime on campus. This information is distributed in student literature and informational packets and by request. Any student who does not receive such information or who desires further information should direct a request for information to the Dean of Enrollment Services. Access to individual student records is limited by the Privacy Act of 1974.

Cooperative Education Programs

Aiken Technical College has a variety of different programs that allow students to gain work experience while continuing their education. One example is the Technical Scholars Initiative, which is open to students in certain technical programs. Students attend ATC full-time and work part-time, and the participating companies pay tuition and book costs. Program-specific work experience and internship opportunities are also available on a limited basis through academic departments. Interested students should contact their respective academic department for more information.

Copy Machines

Copy machines are available for student use on a fee basis in multiple locations on campus.

Course Substitutions

A student who wishes to fulfill program requirements by receiving credit for course(s) other than those listed in the student's program curriculum must receive the written approval of the appropriate advisor and dean using the Course Substitution form available in the Enrollment Services Center.

Dress Code

Appropriate attire is left to the discretion of the individual and is expected not to disrupt the educational process of the college. All students must wear shirts and have on shoes that cover the length of the bottom of the foot. Any student who wears any attire which causes a disruption of normal college functions may be asked to leave campus until he or she obtains appropriate attire.

Electronic Devices in Classrooms

On-call emergency personnel who must maintain electronic devices in “active” mode in the interest of public safety must notify the instructor of their need for an exception to this procedure at the beginning of classes for the term. Faculty may request documentation from these students verifying employment.

Students may not leave a test, communicate with or through electronic devices, and return to complete the test. Students who, by necessity, must take such messages will be required to make arrangements for re-testing.

Emergency Alerts

The college provides an emergency alert messaging system for students who choose to “opt-in” for the service. More information about emergency alert messaging is available through Campus Security, (803) 508-7360.

Field Trips

Students participating in college-sponsored field trips, or representing the college, must adhere to the [Student Code](#).

Fire Drills

The college periodically conducts fire drills without advance notice. Fire alarm boxes are strategically located throughout campus. If you hear the fire alarm or are informed that a fire alarm is active, you should:

1. Calmly leave the building single file by the nearest exit.
2. Move to the right in the hallways.
3. Walk. Do not run or shove when exiting.
4. Do not return to the building until directed to do so by a college official.

Food Services

Vending machines are available in the cafeteria, located in the Gregg-Graniteville Student Activities Center, and on a limited basis in other campus buildings. The ATC Bookstore also sells a variety of food and beverages.

Frequently Asked Questions

Many student questions are addressed in the [Online FAQ](#).

Grade Point Average (GPA) Calculation

The Grade Point Average (GPA) is used in determining a student's academic standing. Each course a student completes earns a credit and a quality point (grade point) value. To determine the GPA based on the four-point system used by ATC, use the following steps:

1. Write down the courses taken and the grade achieved in each course.
2. Multiply the number of credit hours by the points for each grade earned to determine the quality points for each class. (A = 4, B=3, C=2, D=1, F=0, WF=0)
3. Total the quality points (grade points).
4. Total the credit hours.
5. Divide the quality points (grade points) by the number of credit hours.

Example:

Course	Credit Hours	Grade	=	Quality Points
--------	--------------	-------	---	----------------

PSY 201	3	C(2) =	6
ENG 101	3	B(3) =	9
BIO 101	4	A(4) =	16
HIS 202	3	D(1) =	3
ECO 210	3	F(0) =	0
Total	16		34

In this example, the student's GPA for the semester is 2.12 (34 divided by 16). The cumulative GPA represents the grade point average for all the credit hours the student has pursued. A student can calculate his or her cumulative GPA simply by totaling the number of courses and quality points (grade points) earned in all semesters at ATC, then dividing the total quality points by the total number of credits pursued. (See calculation above.)

Honor Code

The ATC Student Honor Code represents a standard of conduct to which each student should aspire: "As a member of the Aiken Technical College community, I am committed to the ideal and practice of honorable behavior. I will conduct myself in a civil manner, respect the rights and property of others, and support the College's values and educational mission. I will maintain personal and academic integrity in all aspects of campus life. I recognize the dignity of all individuals and will respect and learn from the ideas represented in our collective diversity. I will uphold the Aiken Technical College standard of excellence."

Intellectual Property

In accordance with Aiken Technical College Policy No. 1-3-109 (Intellectual Property Rights), the efforts of students in class projects that become marketable are subject to the same regulations as those in place for faculty and staff. For a more detailed description please feel free to visit with a counselor.

Lost and Found

Students who have lost or found items should contact Campus Security, Building 650, (803) 508-7911.

Pets

No pets are allowed on campus. This does not include working dogs for the visually impaired.

Physical Access to Buildings for Students with Disabilities

Each building on the ATC campus has an accessible entrance for students with physical disabilities and has an elevator in each building that contains multiple levels.

Printing

Print credits may be purchased in \$5 increments from the ATC Bookstore and may be used for library and classroom printing.

Smoking Policy

The use of tobacco, tobacco-related, and electronic cigarettes is prohibited on the Aiken Technical College campus. Banned products include, but are not limited to: cigarettes, electronic cigarettes of all types, cigars, pipes, and smokeless tobacco.

Solicitation/Canvassing and Fund Raising on Campus

The Marketing & Student Experience Manager must provide prior written permission for anyone to distribute or present political, social, religious, or other promotional material on campus. In general, solicitation or canvassing on campus is forbidden with the exception of Student Government Association (SGA)-sponsored events and activities such as blood drives, relief efforts, and SGA elections.

Student Responsibilities

Students are responsible for actively engaging in the learning process. It is critical that students read and understand the procedures and information provided in the Catalog and the Student Handbook, the semester course schedules and other notices sent to students. All students are provided with a free e-mail account and are expected to check this account frequently. The college will use this e-mail system for official college news and announcements. Orientation sessions assist students with this information, but it is the responsibility of the student to ask for additional information as needed.

Student Intellectual Property Rights

ATC has developed policies regarding the ownership of materials, compensation, copyright issues and the use of revenue derived from the creation and production of intellectual property developed by faculty, staff and students.

Suggestion Boxes

Throughout campus there are several student suggestion boxes for anonymous student input.

Transportation

Students attending ATC must make their own arrangements for transportation to and from the campus. The college is on the route of Aiken County's public bus system, the Best Friend Express.

Contact the Best Friend Express at (803) 648-6493 for a schedule. Bus passes are available for purchase at the Cashier's Office in room 128.

Student Code

General Provisions

I. Purpose

The Student Code for South Carolina Technical Colleges sets forth the rights and responsibilities of the individual student, identifies behaviors that are not consistent with the values of college communities, and describes the procedures that will be followed to adjudicate cases of alleged misconduct, except cases of alleged acts of sexual violence and sexual harassment. Cases of alleged acts of sexual violence and sexual harassment will be adjudicated through SBTCE procedure 3-2-106.2. This Code applies to behavior on college property, at college-sponsored activities and events, and to off-campus behavior that adversely affects the college and/or the college community.

The Code applies to all students from the time of applying for admission through the awarding of a degree, diploma, or certificate.

II. Principles

Technical/community college students are members of both the community at large and the academic community. As members of the academic community, students are subject to the obligations that accrue to them by virtue of this membership.

As members of a larger community, students are entitled to all rights and protections accorded them by the laws of that community, the enforcement of which is the responsibility of duly constituted authorities. If a student's alleged behavior simultaneously violates college regulations and the law, the college may take disciplinary action independent of that taken by legal authorities.

When it has been determined that a student violated a federal, state, or local law, college disciplinary action may be initiated only when the presence of the student on campus will disrupt the educational process of the college.

When a student's alleged violation of the law, whether occurring on campus or off campus, may adversely

affect the college's pursuit of its educational objectives or activities, the college may enforce its own regulations through this Student Code.

III. Solutions of Problems

The college will first seek to solve problems through internal review procedures. When necessary, off-campus law enforcement and judicial authorities may be involved.

In situations where South Carolina Technical/Community Colleges have shared programs, the Chief Student Services Officer where the alleged violation of the Student Code for the South Carolina Technical College System occurred will handle the charges. A change of venue to the other college may be granted, based on the nature of the offense, provided it is agreed to by the Chief Student Services Officers of both colleges. Any sanctions imposed will apply across both colleges.

In situations where a student is dually enrolled in two or more South Carolina Technical/Community Colleges and is charged with a violation of the Student Code for the South Carolina Technical College System, the Chief Student Services Officer of the college where the alleged infraction occurred will handle the charges and the sanctions may apply at each college in which the student is enrolled.

IV. Definitions

When used in this document, unless the content requires other meaning:

- A. "College" means Aiken Technical College, a member of the South Carolina Technical College System.
- B. "President" means the chief executive officer of the college.
- C. "Administrative Officer" means anyone designated at the college as being on the administrative staff such as President, Vice President, Dean of Students or Student Services, Chief Academic Officer, Dean of Instruction, or Business Manager.
- D. "Chief Student Services Officer" means the Administrative Officer at the college who has overall management responsibility for student services or his/her designee. At Aiken Technical College, the Chief Student Services Officer is the Dean of Student Development.
- E. "Chief Academic Officer" means the Administrative Officer at the College who has overall management responsibility for academic programs and services, or his/her designee. At Aiken Technical College, the Chief Academic Officer is the Vice President of Education and Training.
- F. "Student" means a person taking any course(s) offered by the college.
- G. "Instructor" means any person employed by the college to conduct classes.
- H. "Staff" means any person employed by the college for reasons other than conducting classes.
 - I. "SGA" means the Student Government Association of the college or other group of students convened for the purpose of representing student interests to the college's administration or in the college's governance system.
- J. "Campus" means any place where the college conducts or sponsors educational, public service, or research activities.
- K. "Violation of Law" means a violation of a law of the United States or any law or ordinance of a state or political subdivision which has jurisdiction over the place in which the violation occurs.
- L. "Instructional Weekday" means any day except Saturday, Sunday, or any other day on which the college is closed.

Student Code

I. Student Rights

A. Freedom from Discrimination

There shall be no discrimination in any respect by the college against a student, or applicant for admission as a student, based on race, color, age, religion, national origin, sex or disability.

B. Freedom of Speech and Assembly

Students shall have the right to freedom of speech and assembly without prior restraints or censorship subject to clearly stated, reasonable, and nondiscriminatory rules and regulations regarding time, place, and manner developed and approved by the college.

In the classroom and in other instructional settings, discussion and expression of all views relevant to the subject matter -are recognized as necessary to the educational process, but students have no right to interfere with the freedom of instructors to teach or the rights of other students to learn.

C. Freedom of the Press

In official student publications, students are entitled to the constitutional right of freedom of the press, including constitutional limitations on prior restraint and censorship. To ensure this protection, the college shall have an editorial board with membership representing SGA, faculty, and administration. Each college has the responsibility of defining the selection process for its editorial board. The primary responsibility of the board shall be to establish and safeguard editorial policies.

D. Freedom from Unreasonable Searches and Seizures

Students are entitled to the constitutional right to be secure in their persons, dwellings, papers, and effects against unreasonable searches and seizures. College security officers or administrative officers may conduct searches and seizures only as authorized by law.

E. Right to Participate in College Governance

Students should have the opportunity to participate on college committees that formulate policies directly affecting students, such as in the areas of student activities and student conduct. This participation may be coordinated through a Student Government Association whose constitution or bylaws have been approved by the college's area commission.

F. Right to Know Academic and Grading Standards

Instructors will develop, distribute, explain, and follow the standards that will be used in evaluating student assignments and determining student grades.

Grades are awarded for student academic performance. No grade will be reduced as a disciplinary action for student action or behavior unrelated to academic conduct.

G. Right to Privacy

Information about individual student views, beliefs, and political associations acquired by instructors, counselors, or administrators in the course of their work is confidential. It can be disclosed to others only with prior written consent of the student involved or under legal compulsion.

H. Right to Confidentiality of Student Records

All official student records are private and confidential and shall be preserved by the college. Separate record files may be maintained for the following categories:

1. Academic
2. Medical, psychiatric and counseling
3. Placement
4. Financial aid
5. Disciplinary
6. Financial
7. Veterans Affairs

In addition, disciplinary records are maintained by the Chief Student Services Officer.

Student education records will be maintained and administered in accordance with the Family Educational Rights and Privacy Act of 1974, the guidelines for the implementation of this act, and other applicable federal and state statutes and regulations.

I. Right to Due Process

At a minimum, any student charged with misconduct under this code is guaranteed the following:

1. The right to receive adequate notice of the charge(s)
2. The right to see and/or hear information and evidence relating to the charge(s)
3. The right to present information and evidence relating to the charge(s)

Additional due process requirements will be identified in other sections of this Code.

II. Student Responsibilities

- A. Students are expected to conduct themselves in a manner that is civil, that is respectful of the rights of others, and that is compatible with the college's educational mission.
- B. Students are expected to comply with all of the college's duly established rules and regulations regarding student behavior while on campus, while participating in off- campus college sponsored activities, and while participating in off-campus clinical, field, internship, or in-service experiences.
- C. Students are expected to comply with all course requirements as specified by instructors in course syllabi and to meet the standards of acceptable classroom behavior set by instructors. Instructors will announce these standards during the first week of classes. If a student's behavior disrupts class or jeopardizes the health, safety, or well-being of the student or others, the instructor will speak with the student regarding the disruption. If the unacceptable conduct or disruption continues, the instructor may dismiss the student from for the remainder of the class period.

Further disruption(s) by the student may result in a second dismissal and a written referral to the Chief Student Services Officer. This written referral may result in the initiation of disciplinary action against the student.

III. Student Conduct Regulations

The following list identifies violations for which students may be subject to disciplinary action. The list is not all inclusive, but it reflects the categories of inappropriate behavior and provides examples of prohibited behaviors.

A. Academic Misconduct

All forms of academic misconduct including, but not limited to, cheating on tests, plagiarism, collusion, and falsification of information may call for disciplinary action.

1. Cheating on tests is defined to include the following:
 - a. Copying from another student's test or answer sheet
 - b. Using materials or equipment during a test not authorized by the person giving the test
 - c. Collaborating with any other person during a test without permission
 - d. Knowingly obtaining, using, buying, selling, transporting, or soliciting in whole or in part the contents of a test prior to its administration
 - e. Bribing or coercing any other person to obtain tests or information about tests
 - f. Substituting for another student, or permitting any other person to substitute for oneself
 - g. Cooperating or aiding in any of the above
2. "Plagiarism" is defined as the appropriation of any other person's work and the unacknowledged incorporation of that work in one's own work.
3. "Collusion" is defined as knowingly assisting another person in an act of academic dishonesty.
4. "Fabrication" is defined as falsifying or inventing information in such academic exercises as reports, laboratory results, and citations to the sources of information.

B. Abuse of Privilege of Freedom of Speech or Assembly

No student, acting alone or with others, shall obstruct or disrupt any teaching, administrative, disciplinary, public service, research, or other activity authorized or conducted on the campus of the college or any other location where such activity is conducted or sponsored by the college. This disruption does not necessarily have to involve violence or force for the student to face disciplinary actions. In addition to administrative action, any person in violation of any federal, state, or local law will be turned over to the appropriate authorities.

C. Falsification of Information and other Acts Intended to Deceive

Falsification of information and other acts intended to deceive include, but are not limited to the following:

1. Forging, altering, or misusing college documents, records, or identification cards.
2. Falsifying information on college records.
3. Providing false information for the purpose of obtaining a service.

D. Actions which Endanger Students and the College Community

Actions which endanger students and the college community include, but are not limited to the following:

1. Possessing or using on campus a firearm or other dangerous or potentially dangerous weapon unless such possession or use has been authorized by the college.
2. Possessing or using any incendiary device or explosive unless such possession or use has been authorized by the college.
3. Setting fires or misusing or damaging fire safety equipment.
4. Using, or threatening to use, physical force to restrict the freedom of action or movement of others or to harm others.
5. Endangering the health, safety, or wellbeing of others through the use of physical, written, or verbal abuse, threats, intimidation, harassment, and coercion.
6. Sexual violence, which refers to physical sexual acts perpetuated against person's will or when a person is incapable of giving consent. Cases of alleged acts of sexual violence will be adjudicated through SBTCE procedure 3-2-106.2.
7. Retaliating, or threatening to retaliate, against any person for filing a complaint, providing information relating to a complaint, or participating as a witness in any hearing or administrative process.

E. Infringement of Rights of Others

Infringement of rights of others is defined to include, but is not limited to the following:

1. Stealing, destroying, damaging, or misusing college property or the property of others on campus or off campus during any college activity.
2. Sexually harassing another person. In addition to sexual violence, sexual harassment can include unwelcome sexual advances, requests for sexual favors, and other verbal, nonverbal, or physical conduct of a sexual nature, when submission to such conduct is made a term or condition of a student's education, a basis for academic conditions affecting the student, or the conduct is sufficiently serious to interfere with the student's academic performance or otherwise deny or limit the student's ability to participate in any aspect of the college's program, thereby creating an intimidating or hostile learning environment. Cases of alleged acts of sexual harassment will be adjudicated through SBTCE procedure 3-2-106.2. See further information on this matter in [Sexual Violence and Harassment](#) page.
3. Stalking, which is defined as engaging in a course of conduct, through physical, electronic, or other means, that would place a reasonable person in fear for his/her safety, or that has, in fact, placed an individual in such fear. Where the stalking is based on sex, race, national origin, color, age, religion or disability, it may constitute harassment under other provisions of this Code.
4. Harassing conduct, including verbal acts and name calling; graphic and written statements, which may include the use of cell phones, the internet, or other electronic devices; and other conduct that may be physically harmful, threatening, or humiliating. Harassment based on race, national origin, color, age, sex, religion, or disability will be a violation of the Code when it is a basis for academic decisions affecting the student or the conduct is sufficiently serious to interfere with the student's academic performance or otherwise deny or limit the student's ability to participate in any aspect of the college's program, thereby creating an intimidating or hostile learning environment.
5. Engaging in any activity that disrupts the educational process of the college, interferes with the rights of others, or adversely interferes with other normal functions and services.

F. Other Acts which Call for Discipline

Other acts which call for discipline include, but are not limited to the following:

1. Possessing, using, or distributing any narcotics or other unlawful drugs as defined by the laws of the United States or the State of South Carolina.
2. Possessing, using, or distributing on campus any beverage containing alcohol.
3. Violating institutional policies while on campus or off campus when participating in a college sponsored event or activity.
4. Violating any South Carolina and/or federal laws while on campus or off- campus when participating in a college sponsored event or activity.

IV. Student Disciplinary Procedures

The procedures and sanctions that follow are designed to channel faculty, staff or student complaints against students, except for those complaints alleging acts of sexual violence or sexual harassment which are processed under SBTCE procedure 3-2-106.2. Because due process is essential in dealing with infractions of college regulations, any disciplinary actions taken and sanctions imposed on a student or student organization will follow the provisions of this code.

A. Interim Suspension

In certain situations, the President, or President's designee, may temporarily suspend a student before the

initiation of disciplinary procedures. Interim suspension may only be imposed when there is reason to believe that the continued presence of the accused student at the college poses a substantial and immediate threat to the student or to others or poses a serious threat of disruption of, or interference with, the normal operations of the college.

The interim suspension process follows:

1. The President, or President's designee, shall notify the Chief Student Services Officer in writing about the nature of the alleged infraction, a brief description of the incident(s) and the student's name before 5:00 pm of the first class day following the decision to impose the interim suspension.
2. The Chief Student Services Officer, or designee, will inform the student, in writing, about the decision to impose an interim suspension. This notice must either be hand delivered to the student, sent by e-mail, or sent by certified mail to the student's last known address within two instructional weekdays of receiving the information from the President, or designee. If sent by e-mail, a letter sent by certified mail to the student's last known address must still be mailed within two instructional weekdays of receiving the information from the President, or designee.

This letter must include the following information:

- a. the reason(s) for the interim suspension
- b. notice that the interim suspension does not replace the regular hearing process
- c. information about requesting a hearing before the Hearing Committee
- d. notice that the student is denied access to the campus during the period of suspension without prior approval of the Chief Student Services Officer.

B. Academic Misconduct

1. An instructor who has reason to believe that a student enrolled in his/her class has committed an act of academic misconduct must discuss the matter with the student. The instructor must advise the student of the alleged act of academic misconduct and the information upon which it is based. The student must be given an opportunity to refute the allegation. If the student chooses not to participate in the discussion, the instructor will make a decision based upon the available information.
2. If the instructor, after meeting with the student, determines that the student has engaged in academic misconduct as alleged, the instructor will inform the student about the decision and the academic sanction that will be imposed. The instructor may impose one of the following academic sanctions:
 - a. Assign a lower grade or score to the paper, project, assignment or examination involved in the act of misconduct.
 - b. Require the student to repeat or resubmit the paper, project, assignment, or examination involved in the act of misconduct.
 - c. Assign a failing grade for the course.
 - d. Require the student to withdraw from the course.
3. If the student is found responsible for the academic misconduct, within five instructional weekdays of the meeting with the student, the instructor will submit a written report about the incident and the sanction imposed to the Chief Academic Officer.
4. The Chief Academic Officer, or designee, will send a letter to the student summarizing the incident, the finding, the terms of the imposed sanction, and informing the student that he/she may appeal the decision and/or the sanction by submitting a written request to the Chief Academic Officer within seven instructional weekdays of the date of the Chief Academic Officer's letter.
5. If the student requests an appeal, the Chief Academic Officer, or designee, will send a certified letter to the student's last known address. This letter must contain the following information:
 - a. A restatement of the charges
 - b. the time, place, and location of the appeal

- c. A list of witnesses that may be called
- d. a list of the student's basic procedural rights. These rights follow:
 - 1. The right to consult with counsel. The role of the person acting as counsel is solely to advise the student. Counsel may not participate in any of the questioning or make any statements on behalf of the student. The student will be responsible for paying any fees charged by his/her counsel.
 - 2. The right to present witnesses on one's behalf.
 - 3. The right to present evidence and notice that the Chief Academic Officer, or designee, may determine what evidence is admissible.
 - 4. The right to know the identity of the person(s) bringing the charge(s).
 - 5. The right to hear witnesses on behalf of the person bringing the charges.
 - 6. The right to testify or to refuse to testify without such refusal being detrimental to the student.
 - 7. The right to appeal the decision to the President.
- e. A statement informing the student that the sanction imposed by the instructor will be held in abeyance pending the outcome of the appeal.
- 6. On the basis of the information presented at the appeal, the Chief Academic Officer, or designee, will render one of the following decisions:
 - a. Accept the decision and the sanction imposed by the instructor
 - b. Accept the instructor's decision but impose a less severe sanction
 - c. Overturn the instructor's decision

Within two instructional weekdays of the meeting with the student, the Chief Academic Officer, or designee, will send the student a letter informing the student of the decision. The letter must also inform the student that the decision may be appealed to the College's President and that any appeal request must be written and must detail the reason(s) for the appeal. The student seeking the appeal must provide reasons for the appeal which sets forth a statement that specifies the issues that further review is sought and any evidence which supports the issue(s) on appeal. The written appeal must be sent to the President within five instructional weekdays of the receipt of the Chief Academic Officer's decision.

After receiving the student's request, the President will review all written materials, non-written materials, and evidence relating to this incident and render one of the following decisions:

- a. Accept the decision and the sanction imposed
- b. Accept the decision but impose a less severe sanction
- c. Overturn the decision
- d. Remand the case to the Student Hearing Committee to be re-heard.

The President's decision is final and cannot be appealed further.

C. Student Misconduct

Any member of the college community may file charges alleging a violation of the Code. A charge, that includes a description of the alleged violation, must be submitted in writing to the Chief Student Services Officer as soon as possible after the incident occurs, but no later than 10 instructional weekdays after the incident, unless the person filing the charge demonstrates that exceptional circumstances prevented filing the charge within this time period. The Chief Student Services Officer, or designee, will determine whether the circumstances merit an extension of the deadline.

1. Preliminary Hearing

Within five (5) instructional weekdays after the charge has been filed, the Chief Student Services Officer, or designee, shall complete a preliminary investigation of the charge and schedule a meeting with the student. After discussing the alleged infraction with the student and reviewing available information, the Chief Student Services Officer, or designee will decide whether the information presented during the meeting indicates that the violation occurred as alleged. When the student cannot be reached to schedule an appointment, or when the student fails to attend the meeting, the Chief Student Services Officer, or designee, will base the decision upon the available information.

If the available information indicates that the violation occurred as alleged, then one of the following sanctions will be imposed:

- a. Reprimand--A written warning documenting that the student violated a student conduct regulation and indicating that subsequent violations could result in more serious disciplinary sanctions.
- b. Restitution--Compensation for loss or damage to college property or the property of others while on the campus or at a college event or activity including but not limited to field trips, internships, and clinicals.
- c. Special Conditions—Completion of a variety of educational activities, relating to the nature of the offense may be imposed. Examples include, but are not limited to, the following: a formal apology, an essay or paper on a designated topic, or participation in a special project or activity.
- d. Disciplinary Probation--A written reprimand documenting that the student violated a student conduct regulation. Probation is for a specified period of time and it serves as a warning that subsequent violations could most likely result in more serious disciplinary sanctions.
- e. Loss of Privileges-- Suspension or termination of particular student privileges.
- f. Suspension from the college--Separation from the college for a specified period of time. Suspended students will not receive academic credit for the semester in which the suspension was imposed. During the suspension period, the student may not return to the campus unless prior permission by the Chief Student Services Officer has been granted.
- g. Expulsion from the college--Permanent separation from the college. An expelled student may not return to the campus unless prior permission by the Chief Student Services Officer has been granted. An expelled student will not receive academic credit for the semester in which the expulsion was imposed.
- h. Any combination of the above.

Within five (5) instructional weekdays of the preliminary hearing, the Chief Student Services Officer, or designee, will send a certified letter to the student. This letter will confirm the date of the preliminary hearing, identify the specific regulation(s) that the student allegedly violated, identify the decision, summarize the rationale, and, if the student violated the regulation(s), state the sanction that was imposed. This letter must also state that if the student disagrees with the decision or the sanction, the student may request a hearing before the Hearing Committee, that the student must submit this request no later than two instructional weekdays after receiving the decision letter unless a request is made and approved by the Chief Student Services Officer for an extension, and that any decision made and sanction imposed at the preliminary hearing may be held in abeyance should the student decide to go before the Hearing Committee.

2. *Hearing Committee*

- A. The Hearing Committee shall be composed of the following:
 - 1. Three faculty members appointed by the Chief Academic Officer and approved by the President.
 - 2. Three student members appointed by the appropriate student governing body and approved by the President.

3. One member of the Student Services staff appointed by the Chief Student Services Officer and approved by the President.
4. The Chief Student Services Officer, or designee, who serves as an ex officio nonvoting member of the Committee and who presents the case.

B. The Hearing Committee shall perform the following functions:

1. Hear cases of alleged violations of the Code of Student Conduct.
2. Insure that the student's procedural rights are met.
3. Make decisions based only on evidence and information presented at the hearing.
4. Provide the student with a statement of the committee's decision including findings of fact and, if applicable, impose one or more of the following sanctions:

a. **Academic Misconduct** (cases sent to the Hearing Committee by the President)

- i. Assign a lower grade or score to the paper, project, assignment or examination involved in the act of misconduct.
- ii. Require the student to repeat or resubmit the paper, project, assignment, or examination involved in the act of misconduct.
- iii. Assign a failing grade for the course.
- iv. Require the student to withdraw from the course.

b. **Student Misconduct**

- i. Reprimand—A written warning documenting that the student violated a student conduct regulation and indicating that subsequent violations could result in more serious disciplinary sanctions.
- ii. Special Conditions—Completion of a variety of educational activities, relating to the nature of the offense may be imposed. Examples include, but are not limited to, the following: a formal apology, an essay or paper on a designated topic, or participation in a special project or activity.
- iii. Restitution—Compensation for loss or damage to college property or the property of others while on the campus, or at a college event or activity including but not limited to field trips, internships, and clinicals.
- iv. Disciplinary Probation—A written reprimand documenting that the student violated a student conduct regulation. Probation is for a specified period of time and it serves as a warning that subsequent violations could most likely result in more serious disciplinary sanctions.
- v. Loss of Privileges-- Suspension or termination of particular student privileges.
- vi. Suspension from the college--Separation from the college for a specified period of time. Suspended students will not receive academic credit for the semester in which the suspension was imposed. During the suspension period, the student may not return to the campus unless prior permission by the Chief Student Services Officer has been granted.
- vii. Expulsion from the college--Permanent separation from the college. An expelled student may not return to the campus unless prior permission by the Chief Student Services Officer has been granted. An expelled student will not receive academic credit for the semester in which the expulsion was imposed.
- viii. Any combination of the above.

c. **Hearing Committee Procedures**

- i. The Chief Student Services Officer, or designee, shall refer the matter to the Hearing Committee together with a report of the nature of the alleged misconduct, the name of the person(s) filing the complaint(s), the name of

the student against whom the charge(s) has (have) been filed, and a summary of the findings from the preliminary hearing.

- ii. At least seven instructional weekdays before the date set for the Hearing Committee's meeting, the Chief Student Services Officer, or designee, shall send a certified letter to the student's last known address. The letter must contain the following information:
 - a. A statement of the charge(s).
 - b. A brief description of the incident that led to the charge (s).
 - c. The name of the person(s) submitting the incident report.
 - d. The date, time, and place of the scheduled hearing.
 - e. A list of all witnesses who might be called to testify.
 - f. A statement of the student's procedural rights. These rights follow:
 - 1. The right to consult counsel. This role of the person acting as counsel is solely to advise the student. Counsel may not address the Hearing Committee or participate in any of the questioning. The student has the responsibility for paying any of the counsel's fees and any other of the counsel's charges.
 - 2. The right to present witnesses on one's behalf.
 - 3. The right to know the names of any witnesses who may be called to testify at the hearing.
 - 4. The right to review all available evidence, documents, exhibits, etc., that may be presented at the hearing.
 - 5. The right to present evidence; however, the Hearing Committee will determine what evidence is admissible.
 - 6. The right to know the identity of the person(s) bringing the charge(s).
 - 7. The right to hear witnesses on behalf of the person bringing the charges.
 - 8. The right to testify or to refuse to testify without such refusal being detrimental to the student.
 - 9. The right to a fair and impartial decision.
 - 10. The right to appeal the Hearing Committee's decision.
- iii. On written request of the student, the hearing may be held prior to the expiration of the seven day advance notification period if the Chief Student Services Officer, or designee, concurs with this change.
- iv. The Chief Student Services Officer, or designee, may postpone the hearing due to circumstances beyond the control of the parties.

d. Hearing Committee Meetings

- i. The chair shall be appointed by the President from among the membership of the committee. Ex officio members of the committee may not serve as the chair of the committee.
- ii. Committee hearings shall be closed to all persons except the student, the person(s) initiating the charge(s), counsels for the student and for the College, witnesses who will be invited into the hearing and a person, mutually agreed upon by the committee and the student, to serve as the recorder.
- iii. The committee may identify someone to take written notes and the committee will have the hearing, with the exception of deliberations, recorded. No other party in the hearing may record the proceedings and no other party is entitled to a copy of the notes or the recording. The written

notes and the recording will be maintained in the office of the Chief Student Services Officer. The student may review the notes and listen to the recording under the supervision of the Chief Student Services Officer or designee.

- iv. Witnesses shall be called in one at a time to make a statement and to respond to questions.
- v. After hearing all of the information, the Hearing Committee will begin its deliberations. Using the standard “clear and convincing,” which means that the information presented at the hearing would lead one to conclude that it is highly probable that the violation(s) occurred as alleged, the members will determine, by majority vote, whether the violation occurred as alleged. If it is determined that the violation(s) occurred as alleged, by majority vote, the members will decide upon the appropriate sanction.
- vi. The Chair of the Hearing Committee will send a certified letter to the student’s last known address within two instructional weekdays of the Committee’s decision. The letter shall inform the student about the Committee’s decision, the date of the decision, and, if applicable the sanction(s) imposed. The letter will also inform the student about the appeal process.

3. *Appeal*

If the student disagrees with either the decision or the sanction, the student may submit a written appeal to the College’s President. This letter must be submitted within ten instructional weekdays of the date on which the Hearing Committee made its decision. The written appeal must include a statement indicating why the student disagrees with the Hearing Committee’s findings.

The President, or designee, shall review the Hearing Committee’s findings, conduct whatever additional inquires as deemed necessary, and render a decision within ten instructional weekdays of receiving the appeal. The President, whose decision is final, shall have the authority to approve, modify, or overturn the Hearing Committee’s decisions and, if needed, void the process and reconvene another Hearing Committee. The President’s decision regarding disciplinary actions under the Student Code 3-2-106.1 are not grievable.

The President, or designee, will inform the student about the outcome of the appeal in a certified letter sent to the student’s last known address.

Student Code Procedures for Addressing Alleged Acts of Sexual Violence and Sexual Harassment

The Student Code for South Carolina Technical Colleges sets forth the rights and responsibilities of the individual student, identifies behaviors that are not consistent with the values of college communities, and describes the procedures that will be followed to adjudicate cases of alleged misconduct. This Code applies to behavior or complaints alleging acts of sexual violence or sexual harassment on college property, at college-sponsored activities and events, and to off-campus behavior that adversely affects the college and/or the college community and the Code applies to all students from the time of applying for admission through the awarding of a degree, diploma, or certificate.

The procedures described in SBTCE 3-2-106.2 will be followed to adjudicate alleged acts of sexual violence and sexual harassment.

Sexual harassment is a form of discrimination prohibited by law as well as by the Student Code for the South Carolina Technical College System. In general, sexual harassment includes any advances, requests for sexual favors, sexual violence, and other verbal or physical conduct of a sexual nature that interferes with a student's ability to participate in or benefit from the college's programs or services. It may include such conduct as offensive jokes, slurs, name calling, physical assaults or threats, intimidation, ridicule or mockery, insults or put downs, and/or offensive objects or pictures.

Sexual assault is an extreme form of sexual harassment. It can be defined as a situation in which an individual is forced, threatened or coerced into sexual contact against his/ her free will, or without his/ her consent. Sexual assault may include, but is not limited to, sexual violence, date or acquaintance rape, sexual molestation, unwanted sexual touching or having sexual contact with a person while knowing or having reason to know that the person is incapacitated in some way (i.e., due to drugs or alcohol).

Any student, or other member of the college community, who believes that he/she is or has been a victim of sexual harassment or sexual assault may file a report with the college's Chief Student Services Officer, campus security office, or with the college's Title IX coordinator. The designated coordinator will work with the complaining student to mitigate any injury during the pendency of the investigation and proceedings. Colleges, through their designated coordinators, will change a victim's academic and living situations after an alleged sex offense and discuss the options for those changes, if those changes are requested by the victim and are reasonably available. The Title IX coordinator's office location and phone number are printed in the college's catalog and appear on the college's website.

Reports may also be filed by any other member of the college community. The student may also file a criminal report regarding the alleged conduct.

Due to the seriousness of these issues, the college will provide educational programs to promote the prevention and awareness of rape, acquaintance rape, and other forcible and nonforcible sex offenses, as well as sexual harassment awareness programs.

If the alleged harasser or violator of named in the report is an employee or third party, the case may be adjudicated through the South Carolina State Board for Technical and Comprehensive Education's (SBTCE) Student Grievance Procedure (SBTCE Procedure 3-2-106.2) and/or its Anti-Harassment Procedure (SBTCE 8-5-101.1).

If the alleged harasser or violator of this policy is a student, the case may be adjudicated through the process that follows.

1. Preliminary Hearing

Within five (5) instructional weekdays after the charge has been filed, the Chief Student Services Officer, or designee, shall complete a preliminary investigation of the charge and schedule a meeting with the student. After discussing the alleged infraction with the student and reviewing available information, the Chief Student Services Officer, or designee will decide whether the information presented during the meeting indicates that the violation occurred as alleged. When the student cannot be reached to schedule an appointment, or when the student fails to attend the meeting, the Chief Student Services Officer, or designee, will base the decision upon the available information.

If the available information indicates that the violation occurred as alleged, then one of the following sanctions will be imposed:

- a. Reprimand--A written warning documenting that the student violated a student conduct regulation and indicating that subsequent violations could result in more serious disciplinary sanctions.
- b. Restitution--Compensation for loss or damage to college property or the property of others while on the campus or at a college event or activity including but not limited to field trips, internships, and clinicals.
- c. Special Conditions—Completion of a variety of educational activities, relating to the nature of the offense may be imposed. Examples include, but are not limited to, the following: a formal apology, an essay or paper on a designated topic, or participation in a special project or activity.
- d. Disciplinary Probation--A written reprimand documenting that the student violated a student conduct regulation. Probation is for a specified period of time and it serves as a warning that subsequent violations could most likely result in more serious disciplinary sanctions.
- e. Loss of Privileges-- Suspension or termination of particular student privileges.
- f. Suspension from the college--Separation from the college for a specified period of time. Suspended students will not receive academic credit for the semester in which the suspension was imposed. During the suspension period, the student may not return to the campus unless prior permission by the Chief Student Services Officer has been granted.
- g. Expulsion from the college--Permanent separation from the college. An expelled student may not return to the campus unless prior permission by the Chief Student Services Officer has been granted. An expelled student will not receive academic credit for the semester in which the expulsion was imposed.
- h. Any combination of the above.

Within five (5) instructional weekdays of the preliminary hearing, the Chief Student Services Officer, or designee, will send a certified letter to the student. This letter will confirm the date of the preliminary hearing, identify the specific regulation(s) that the student allegedly violated, identify the decision, summarize the rationale, and, if the student violated the regulation(s), state the sanction that was imposed. This letter must also state that if the student disagrees with the decision or the sanction, the student may request a hearing before the Hearing Committee, that the student must submit this request no later than two instructional weekdays after receiving the decision letter unless a request is made and approved by the Chief Student Services Officer for an extension, and that any decision made and sanction imposed at the preliminary hearing may be held in abeyance should the student decide to go before the Hearing Committee.

2. Hearing Committee

- A. The Hearing Committee shall be composed of the following:

1. Three faculty members appointed by the Chief Academic Officer and approved by the President.
2. Three student members appointed by the appropriate student governing body and approved by the President.
3. One member of the Student Services staff appointed by the Chief Student Services Officer and approved by the President.
4. The Chief Student Services Officer, or designee, who serves as an ex officio nonvoting member of the Committee and who presents the case.

B. The Hearing Committee shall perform the following functions:

1. Hear cases of alleged violations of the Code of Student Conduct.
2. Insure that the student's procedural rights are met.
3. Make decisions based only on evidence and information presented at the hearing.
4. Provide the student with a statement of the committee's decision including findings of fact and, if applicable, impose one or more of the following sanctions:
 - a. Reprimand—A written warning documenting that the student violated a student conduct regulation and indicating that subsequent violations could result in more serious disciplinary sanctions.
 - b. Special Conditions—Completion of a variety of educational activities, relating to the nature of the offense may be imposed. Examples include, but are not limited to, the following: a formal apology, an essay or paper on a designated topic, or participation in a special project or activity.
 - c. Restitution—Compensation for loss or damage to college property or the property of others while on the campus, or at a college event or activity including but not limited to field trips, internships, and clinicals.
 - d. Disciplinary Probation—A written reprimand documenting that the student violated a student conduct regulation. Probation is for a specified period of time and it serves as a warning that subsequent violations could most likely result in more serious disciplinary sanctions.
 - e. Loss of Privileges-- Suspension or termination of particular student privileges.
 - f. Suspension from the college--Separation from the college for a specified period of time. Suspended students will not receive academic credit for the semester in which the suspension was imposed. During the suspension period, the student may not return to the campus unless prior permission by the Chief Student Services Officer has been granted.
 - g. Expulsion from the college--Permanent separation from the college. An expelled student may not return to the campus unless prior permission by the Chief Student Services Officer has been granted. An expelled student will not receive academic credit for the semester in which the expulsion was imposed.
 - h. Any combination of the above.

C. Hearing Committee Procedures

1. The Chief Student Services Officer, or designee, shall refer the matter to the Hearing Committee together with a report of the nature of the alleged misconduct, the name of the person(s) filing the complaint(s), the name of the student against whom the charge(s) has (have) been filed, and a summary of the findings from the preliminary hearing.
2. At least seven instructional weekdays before the date set for the Hearing Committee's meeting, the Chief Student Services Officer, or designee, shall send a certified letter to the student's last known address. The letter must contain the following information:
 - a. A statement of the charge(s).

- b. A brief description of the incident that led to the charge (s).
- c. The name of the person(s) submitting the incident report.
- d. The date, time, and place of the scheduled hearing.
- e. A list of all witnesses who might be called to testify.
- f. A statement of the student's procedural rights. These rights follow:
 - 1. The right to consult counsel. This role of the person acting as counsel is solely to advise the student. Counsel may not address the Hearing Committee or participate in any of the questioning. The student has the responsibility for paying any of the counsel's fees and any other of the counsel's charges.
 - 2. The right to present witnesses on one's behalf.
 - 3. The right to know the names of any witnesses who may be called to testify at the hearing.
 - 4. The right to review all available evidence, documents, exhibits, etc., that may be presented at the hearing.
 - 5. The right to present evidence; however, the Hearing Committee will determine what evidence is admissible.
 - 6. The right to know the identity of the person(s) bringing the charge(s).
 - 7. The right to hear witnesses on behalf of the person bringing the charges.
 - 8. The right to testify or to refuse to testify without such refusal being detrimental to the student.
 - 9. The right to a fair and impartial decision.
 - 10. The right to appeal the Hearing Committee's decision.
- 3. On written request of the student, the hearing may be held prior to the expiration of the seven day advance notification period if the Chief Student Services Officer, or designee, concurs with this change.
- 4. The chairperson of the Hearing Committee, in his/her discretion, may postpone the hearing due to circumstances beyond the control of the parties.

a. Hearing Committee Meetings

- 1. The chair shall be appointed by the President from among the membership of the Committee. Ex officio members of the committee may not serve as the chair of the committee.
- 2. Committee hearings shall be closed to all persons except the student, the person(s) initiating the charge(s), counsels for any student and for the College, witnesses who will be invited into the hearing and a person, mutually agreed upon by the Committee and the student(s), to serve as the recorder.
- 3. The Committee may identify someone to take written notes and the committee will have the hearing, with the exception of deliberations, recorded. No other party in the hearing may record the proceedings and no other party is entitled to a copy of the notes or the recording. The written notes and the recording will be maintained in the office of the Chief Student Services Officer. The student may review the notes and listen to the recording under the supervision of the Chief Student Services Officer or designee.
- 4. Witnesses shall be called in one at a time to make a statement and to respond to questions.
- 5. After hearing all of the information, the Hearing Committee will go begin its deliberations. Using the "preponderance of evidence" standard, which means that it is more likely than not that the violation occurred as alleged, the members will determine, by majority vote, whether the violation occurred. If it

- is determined that the violation occurred as alleged, by majority vote, the members will decide upon the appropriate sanction.
6. The Chair of the Hearing Committee will send a certified letter to the student's and to the victim's last known address within two instructional weekdays of the Committee's decision. The letter shall inform the students about the Committee's decision, the date of the decision, and, if applicable the sanction(s) imposed. The letter will also inform each recipient about the appeal process.
- a. When the case results in a finding that the student engaged in an act of sexual violence, the Chair's letter to the victim will also include the sanction imposed by the Hearing Committee.
 - b. When the case results in a finding that the student engaged in an act of non-violent sexual harassment, the Chair's letter to the victim will only include the sanction imposed by the Hearing Committee if the sanction directly relates to the victim (e.g., the harasser has been directed to stay away from the victim while on the college's campus).

3. *Appeal*

If either student disagrees with the decision or, only in the cases involving charges of sexual violence, the sanction, the student may submit a written appeal to the College's President. This letter must be submitted within ten instructional weekdays of the date on which the Hearing Committee made its decision. The written appeal must include a statement indicating why the student disagrees with the Hearing Committee's findings.

The President, or designee, shall review the Hearing Committee's findings, conduct whatever additional inquiries as deemed necessary, and render a decision within ten instructional weekdays of receiving the appeal. The President, whose decision is final, shall have the authority to approve, modify, or overturn the Hearing Committee's decisions and, if needed, void the process and reconvene another Hearing Committee.

The President, or designee, will inform each student about the outcome of the appeal in a certified letter sent to the student's last known address.

The Student Grievance Procedure

I. Purpose

The purpose of the student grievance procedure is to provide a system to channel and resolve student complaints against a college employee concerning decisions made or actions taken. A decision or action can be grieved only if it involves a misapplication of a college's policies, procedures, or regulations, or a state or federal law. This procedure may not be used in the following instances: 1) to grieve a claim against a college employee for any matter unrelated to the employee's role or position at the college; 2) for complaints or appeals of grades awarded in a class or for an assignment, unless the complaint is based upon alleged discrimination on the basis of age, gender, race, disability or veteran's status or on the basis of alleged sexual harassment; or 3) to grieve a decision for which other grievance or appeal procedures exist (e.g., appeal of a disciplinary case, a residency appeal, a financial aid appeal, FERPA grievances, transfer credit evaluations, etc.).

The student filing the grievance must have been enrolled at the college at the time of decision or action being grieved and must be the victim of the alleged mistreatment. A grievance cannot be filed on behalf of another person.

II. Definitions

When used in this document, unless the content requires other meaning,

- A. "College" means Aiken Technical College, a member of the South Carolina Technical College System.
- B. "President" means the chief executive officer of the college.
- C. "Administrative Officer" means anyone designated at the college as being on the administrative staff, such as the President, Chief Academic Officer, Chief Student Services Officer, etc.
- D. "Chief Student Services Officer" means the Administrative Officer at the College who has overall management responsibility for student services or his/her designee. (At Aiken Technical College, the Chief Student Services Officer is the Dean of Student Development.)
- E. "Chief Academic Officer" means the Administrative Officer at the College who has overall management responsibility for academic programs and services or his/her designee. (At Aiken

Technical College, the Chief Academic Officer is the Vice President of Education and Training.)

- F. "Grievable Act or Decision" means a misapplication of a college's policies, procedures, or regulations, or a violation of a state or federal law.
- G. "Days" means an instructional weekday, excluding Saturday and Sunday and all days in which the college is closed.
- H. "Student" means a person taking any course(s) offered by the college.
- I. "Instructor" means any person employed by the college to conduct classes.
- J. "Staff" means any person employed by the college for reasons other than conducting classes.
- K. "Campus" means any place where the college conducts or sponsors educational, public service, or research activities.

III. Grievance Process

A. Filing a Complaint

This procedure must be initiated by the student within ten instructional weekdays of becoming aware of the decision, action, or event giving rise to the grievance. This time limit may be extended by the President or his/her designee, if the student requests an extension within the ten day period.

Before initiating the Student Grievance process, a student may go to the college employee who originated the alleged problem and attempt to resolve the matter informally. In instances alleging discrimination or harassment, including sexual harassment and violence, the student is not required to initially try to resolve the matter with the person alleged to have committed the violation under this policy. Where applicable, if the student is not satisfied with the outcome of this meeting or if the student prefers to ignore this step, then the student may file a written complaint and initiate the grievance process. This written complaint should describe the decision or action that is being grieved, the date of the decision or action, and the college employee(s) involved in the decision or action.

- 1. Written complaints about alleged discrimination or harassment on the basis of age, gender, race, color, national origin, disability or veteran's status and written complaints about alleged sexual harassment or violence shall be submitted to the employee(s) designated in the college's Statement of Nondiscrimination to coordinate Section 504, Title II, and Title IX compliance.
- 2. Written complaints about decisions and actions not related to discrimination on the basis of age, gender, race, disability, veteran's status, or sexual harassment shall be submitted to the college's Chief Student Services Officer.
- 3. Any written complaint naming the college's President as the person whose alleged action or decision originated the problem shall be submitted to the President of the South Carolina Technical College System.

B. Pre-Hearing

The person receiving the student's written complaint will send a written acknowledgement to the student no later than two instructional weekdays after receiving the written complaint.

The person receiving the complaint will forward the complaint to the immediate supervisor of the employee named in the complaint no later than two instructional weekdays days after it has been received. When the President is named in the complaint, the South Carolina Technical College System's Vice President of Academic Affairs will be responsible for the pre-hearing.

As a part of the effort to resolve the matter, the supervisor, or the South Carolina Technical College System's Vice President for Academic Affairs, will consult, as needed, with the employee named in the complaint, the student filing the complaint, and Chief Administrative Officer of the division or component concerned.

The supervisor, or the South Carolina Technical College System's Vice President for Academic Affairs, shall respond in writing to the student within ten instructional weekdays of receipt of the complaint. The response,

sent by certified mail, shall include a summary of the findings and, as needed propose the steps that shall be taken to resolve the complaint. If the student does not agree with the proposed resolution, the student may request to have the complaint heard by the Student Grievance Committee.

When the College's President is named in the complaint, the President of the South Carolina Technical College System will convene a three person ad hoc committee consisting of System Presidents to hear the student's complaint.

C. Student Grievance Hearing

1. Requesting a Hearing

- a. The student must submit a written request for a Grievance Hearing to the Chief Student Services Officer within five instructional weekdays after receiving the supervisor's written response and no later than fifteen instructional days after the supervisor sent the summary of findings. The request must include a copy of the student's original written complaint, a copy of the supervisor's response, and a statement describing why the supervisor's response was unsatisfactory.
- b. If the student does not submit the written request for a hearing within fifteen instructional weekdays, and the student can demonstrate that extenuating circumstances resulted in the failure to meet this deadline, the Chief Student Services Officer may allow the hearing to take place.
- c. Within two instructional days of receiving the request for a hearing, the Chief Student Services Officer shall notify the President or, as appropriate, the System President about the need to convene a Student Grievance Committee or an ad hoc committee of System Presidents. These committees shall be formed to hear specific complaints and a new committee may be formed each time a grievance covered by this procedure is filed.

2. Grievance Committees

- a. Student Grievance Committee--The President must approve all recommended members. The committee shall be composed of the following:
 - i. Three students recommended by the governing body of the student body.
 - ii. Two faculty members recommended by the Chief Academic Officer.
 - iii. One Student Services staff member recommended by the Chief Student Services Officer.
 - iv. One administrator, other than the Chief Student Services Officer, to serve as the Committee's chairperson.
 - v. The Chief Student Services Officer, or designee, who serves as an ex-officio, nonvoting member of the committee.
- b. Ad hoc Committee of Presidents—The President of the South Carolina Technical College System will select three System Presidents to serve on this committee and identify one of the three Presidents to serve as the chairperson for the hearing.
- c. The Chief Student Services Officer, or designee, will send copies of the student's request for a hearing to the committee members, the employee, and the employee's supervisor. The employee against whom the grievance was filed has an opportunity to submit his/her response to the request for a hearing to the Committee prior to the hearing.
- d. The Student Grievance Committee's meeting(s) shall be conducted within twenty-one instructional weekdays following the date of the request. The chairperson may grant a postponement if either party submits a written request no later than five instructional weekdays prior to the scheduled meeting. The chairperson of the Student Grievance Committee, in his/her discretion, may postpone the hearing due to circumstances beyond the control of the parties. The re-scheduled hearing must take place within ten instructional weekdays of the date of the previously scheduled hearing.

3. Hearing Procedures

- a. The Chief Student Services Officer, or designee, shall send a certified letter to the student filing the complaint and to the employee(s) named in the complaint at least five instructional weekdays before the scheduled hearing. This letter shall include:

- i. A brief description of the complaint, including the name of the person filing the complaint;
- ii. The date, time, and location of the meeting;
- iii. The name of any person who might be called as a witness.
- iv. A list of the student's procedural rights. These rights follow:
 - a. The right to review all available evidence, documents or exhibits that each party may present at the meeting. This review must take place under the supervision of the Chief Student Services Officer, or designee.
 - b. The right to appear before the Hearing Committee and to present information and additional evidence, subject to the Committee's judgment that the evidence is relevant to the hearing.
 - c. The right to consult with consul. This person serving as consul may not address the committee, question the employee(s) named in the complaint, or any witnesses. The student will be responsible for paying any fees charged by the advisor.
 - d. The right to present witnesses who have information relating to the complaint. Witnesses will be dismissed after presenting the information and responding to questions posed by the Grievance Committee, the student filing the complaint, and the employee(s) named in the complaint.
- b. At least ten (10) instructional weekdays before the scheduled hearing the parties must submit the names of persons that the parties anticipate calling as witnesses as well as any evidence that the parties intend to introduce at the hearing.
- c. Hearings are closed to the public. When testimony is being given, only the committee members, the student and his/her advisor, the employee and his/her advisor, and the witness giving testimony may be present. During deliberations, only the members of the Committee may be present.
- d. Hearings are informal and a tape recording of the testimony presented during the hearing may be made. The Committee's deliberations are not tape recorded. After resolution of the appeal, the tape recording will be kept for three months in the office of the Chief Student Services Officer, or designee. The student filing the complaint or the employee(s) named in the complaint may listen to this tape recording under the supervision of the Chief Student Services Officer, or designee.
- e. The Committee may question the student and the employee(s). The Committee may also question the employee's (employees') supervisor(s) and any additional witnesses that it considers necessary to render a fair decision. Questions must be relevant to the issues of the grievance.
- f. Both parties to the grievance may ask questions of the other during the hearing. These questions must be relevant to the issues stated in the written complaint. The Chairperson of the Committee will determine the appropriateness of the questions.
- g. The Committee bears the burden of determining whether the allegations are supported by the information available through the hearing. The Committee will use a preponderance of the evidence standard in making this determination.
- h. The Committee shall decide the solution of the grievance by a majority vote. In case of a tie, the chairperson may vote.
- i. The chairperson shall forward a copy of the Committee's decision to the student filing the complaint and to the employee(s) named in the complaint within two instructional weekdays of the Committee's decision. This letter will include a rationale for the Committee's decision and inform the student and employee(s) that they have a right to appeal the Committee's decision.

D. Appeal Process

If either party is not satisfied with the Student Grievance Committee's decision, that person may submit a written appeal to the President of the College within ten instructional weekdays of the Committee's decision. The written appeal must include a statement indicating why the person was not satisfied with the committee's decision. The President shall review the Committee's findings, conduct whatever additional

inquiries are deemed necessary and render a decision within ten instructional weekdays of receipt of the appeal. The President's decision is final and this decision cannot be the sole reason for filing a grievance against the President.

If either party is not satisfied with the System Office's ad hoc Committee of System Presidents' decision, that person may submit a written appeal to the President of the South Carolina Technical College System within ten instructional weekdays of the Committee's decision. The written appeal must include a statement indicating why the person was not satisfied with the Committee's decision. The System President shall review the Committee's findings, conduct whatever additional inquiries are deemed necessary and render a decision within ten instructional weekdays of receipt of the appeal. The System President's decision is final.

Online Learning

Aiken Technical College offers a variety of online and hybrid courses. In addition, many face-to-face courses are supplemented with online materials through the college's course management system.

Definitions of Online, Hybrid, and Supplemental Courses

Online

The course is 100% online. Students taking an online class must have reliable access to a computer with an Internet connection to take the course because the entire grade will depend on work that can only be completed online. Students may have to come to campus to utilize college resources, such as the Academic Success Center or Learning Resource Center. These classes are indicated in the schedule with a section code that ends in 67.

Hybrid

This is considered a blended course. A hybrid class trades about 50% of its traditional campus contact hours for online work. Students must have reliable access to a computer with an internet connection because 50% of the grade will depend on work that can only be completed online. These classes are indicated in the schedule with a section code that ends in 51.

Supplemental

Instructors teaching scheduled on-campus classes have the option to use the college's course management system as a supplement to their class. At a minimum, these instructors provide a syllabus addendum, course information, and instructor contact information online. The course itself is delivered in a traditional face-to-face setting with no reduction in the usual face-to-face meeting time or number of meetings.

Proctored Final Exams

Students enrolled in online courses will be required to take their final exam either on campus or at a college-approved proctoring site.

If the student lives within 60 miles of campus, the student will take his or her final exam on campus. The instructor will inform students of the time and location of the exam. If the student is unable to be on campus at that time, the student must make alternate arrangements with the instructor.

If the student lives more than 60 miles away from campus, the student may elect to take the final exam with a college-approved proctor. Students in South Carolina can take their final exam at the testing center of the nearest Technical College. Students outside of South Carolina must submit a Proctor Agreement Form at least three weeks prior to the final exam. The student is responsible for taking the exam on the scheduled date/time. The student is responsible for any costs associated with the use of the off-campus proctor site.

Online Attendance Policy

The student is required to login to the course by the end of the Add/Drop period and communicate as the instructor directs to verify attendance. At the end of the Add/Drop period, the instructor will drop the student from the course if there is no evidence of activity from the student. Except in extenuating circumstances, and with the approval of the appropriate dean, instructors drop students from the class when 80% attendance is not maintained. Attendance in an online course is defined by correspondence as required by the instructor. After any three weeks of no communication or no access, the student will be dropped from the course. The instructor will assign a grade of “W” or “WF” based upon the student’s academic standing as of the last date of attendance, which is the date of last login.

Students wishing to withdraw from the course must follow the current ATC policy on withdrawals and refunds.

Drug and Alcohol Policy

Alcohol and Other Drug Use

It is the policy of the South Carolina Technical College System to provide a drug free, healthful, safe and secure work and educational environment. Employees and students are required and expected to report to their work, class, or student activities in appropriate mental and physical condition to meet the requirements and expectations of their respective roles.

The South Carolina Technical College System prohibits the unlawful manufacture, distribution, dispensation, possession or use of narcotics, drugs, other controlled substances and the use of alcohol at the workplace and in the educational setting. "Unlawful for these purposes" means in violation of federal/state/local regulations, policy, procedures, rules, as well as legal statutes. For purposes of this policy, "workplace" means either on agency premises or while conducting agency or college business away from the agency or college premises. Educational setting includes both institutional premises or in approved educational sites off campus.

In order to prevent the consequences of alcohol and other drug abuse at the workplace and in the educational setting, the South Carolina Technical College System has implemented this policy to ensure a drug-free work and educational environment.

The South Carolina Technical College System recognizes that chemical dependency through use of controlled or uncontrolled substances, including alcohol, is a treatable illness. The agency supports and recommends employee and student rehabilitation and assistance programs and encourages employees and students to use such programs.

All locations will also implement drug-free awareness programs for employees and students. Such programs will annually ensure that employees and students are aware that:

1. Alcohol and other drug abuse at the workplace and in the educational setting is dangerous because it leads to physical impairment, loss of judgment, safety violations and the risk of injury, poor health, or even death. Health risks and effects of controlled substances and alcohol will be provided to students and employees.
2. Alcohol and other drug abuse can also significantly lower performance on the job and in the classroom, thus impacting on the agency and the college mission as well as seriously affect the student's educational and career goals.
3. Employees must report any personal conviction under a criminal drug statute, for conduct at the workplace, to their human resource officer within five days. Management must report to granting agencies, any employee conviction for conduct in the work place within ten days of receiving notice.
4. It is a condition of employment and admission that all employees and students must abide by the policy on alcohol and other drug use as well as related procedures/statements/laws/guidelines. Violation of any provisions may result in disciplinary action up to and including termination or expulsion respectively, and may have further legal consequences consistent with federal and state laws and regulations. Additionally, management may require an employee or student to enter an employee/student assistance or drug rehabilitation program as a condition of continued employment or enrollment.
5. Use of employee assistance programs (EAP), student assistance programs (SAP), or drug/alcohol rehabilitation services is encouraged.

Alcohol Effects and Health Risks

Alcohol consumption causes a number of marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive a car safely, increasing the likelihood that the driver will be involved in an accident. Low to moderate doses of alcohol also increase the incidence of a variety of aggressive acts, including spouse and child abuse. Moderate to high doses of alcohol cause marked impairments in higher mental functions, severely altering a person's ability to learn and remember information. Very high doses cause respiratory depression and death. If combined with other depressants of the central nervous system, much lower doses of alcohol will produce the effects just described.

Repeated use of alcohol can lead to dependence. Sudden cessation of alcohol intake is likely to produce withdrawal symptoms, including severe anxiety, tremors, hallucinations, and convulsions. Alcohol withdrawal can be life-threatening. Long-term consumption of large quantities of alcohol, particularly when combined with poor nutrition, can also lead to permanent damage to vital organs such as the brain and the liver.

Mothers who drink alcohol during pregnancy may give birth to infants with fetal alcohol syndrome. These infants have irreversible physical abnormalities and mental retardation. In addition, research indicates that children of alcoholic parents are at greater risk than other youngsters of becoming alcoholics.

SC Alcohol Laws

POSSESSION, CONSUMPTION, PURCHASE, OR ATTEMPT TO PURCHASE OF BEER, WINE, OR LIQUOR BY SOMEONE UNDER AGE 21

It is against the law to possess, consume, purchase, or attempt to purchase beer, wine, or liquor if you are under the age of 21. This may include opened or unopened containers of alcohol beverage in actual possession or in your immediate surroundings.

Penalty - Fine from \$265 to \$470* and/or go to jail for up to 30 days for a first offense. Mandatory driver's license suspension of 120 days. Required to complete an 8-hour alcohol intervention/education program. (Codes 63-19-2440, 63-19-2450, 56-1-746)

PROVIDING ALCOHOL TO SOMEONE UNDER AGE 21

It is against the law to buy or give beer, wine, and/or liquor to anyone who cannot buy it for themselves. This includes serving anyone in your home except your child or spouse.

Penalty - Fine from \$470 to \$677.50* and/ or go to jail for up to 30 days for a first offense. (Codes 61-4-80, 61-4-90, 61-6-4070, 61-6-4075)

MISREPRESENTING AGE TO PURCHASE ALCOHOL

It is against the law to lie or furnish false information concerning age in order to purchase an alcoholic beverage.

Penalty - Fine from \$265 to \$470* and/or go to jail for up to 30 days for a first offense. Mandatory driver's license suspension of 120 days. (Codes 61-4-60, 63-19-2450, 56-1-746)

CONTRIBUTING TO THE DELINQUENCY OF A MINOR

It is against the law for any person over 18 to knowingly and willfully influence a minor to violate any law or municipal ordinance.

Penalty - Fine up to \$6,280* and/or go to jail for up to three years. (Code 16-17-490)

POSSESSING A KEG WITHOUT A STATE-ISSUED REGISTRATION TAG

It is against the law to remove or damage a keg tag or possess a keg without a tag.

Penalty - Fine up to \$1,090* and/or go to jail for up to 30 days for a first offense. (Code 61-4-1930, 61-4-1940)

SALE TO PERSON UNDER AGE

It is against the law to sell beer, wine, or liquor to anyone under 21 years old.

Penalty - Fine from \$470 to \$677.50* and/ or go to jail for up to 30 days for a first offense. Required to complete a merchant education program.

(Codes 61-4-50, 61-6-4080)

DISORDERLY CONDUCT

Students found on any public highway or in any public place who are intoxicated or disorderly may be charged with disorderly conduct.

Penalty - Fine up to \$265* or go to jail for up to 30 days.

(Code 16-17-530)

POSSESSING, OBTAINING A FAKE ID

It is against the law to possess an altered or invalid license/ID or to provide false information in order to get a license/ID.

Penalty - First offense fine up to \$470* or go to jail for up to 30 days, and mandatory driver's license suspension for 120 days

(Codes 56-1-510, 56-1-746)

LENDING YOUR ID TO SOMEONE ELSE

It is against the law to allow someone to use your license/ID.

Penalty - First offense fine up to \$470* or go to jail for up to 30 days, and mandatory driver's license suspension for 120 days

(Codes 56-1-510, 56-1-746)

SELLING A FAKE ID OR ALTERING AN ID

It is against the law to sell a false license/ID or to alter a valid one.

Penalty - First offense fine up to \$5,250* and/or go to jail for up to six months, and mandatory driver's license suspension for 120 days

(Codes 56-1-515, 56-1-746)

DRIVING UNDER THE INFLUENCE (DUI)

It is unlawful for persons under the influence of alcohol or other drugs to drive. If you have a BAC of .08% or higher, it will be inferred that you were driving while under the influence. You can also be charged with a BAC under .08% if clearly impaired. Refusing the test will cost you your license for six months to a year.

Penalty - First offense fine of up to \$400; suspension of license for six months. Go to jail for between 2 to 30 days. Mandatory to complete an alcohol safety program.

Note: The BAC standard for those under 21 is .02%. An offense under this "zero tolerance law" will cost you your license for three months or more.

(Code 56-1-1330, 56-5-2930/2933/2990, 56-1-286)

FELONY DRIVING UNDER THE INFLUENCE

If you cause bodily harm or death to someone while under the influence of alcohol, drugs or any combination, you are guilty of a felony DUI.

Penalty - For bodily harm, a mandatory fine up to \$10,100 and mandatory confinement up to 10 years. For death, mandatory fine up to \$25,100 and mandatory confinement up to 25 years.

(Code 56-5-2945)

***stated fines include court assessments and fees**

Note: Two violations of any alcohol- or other drug-related laws can also cause you to lose your state-funded grants and/or scholarships (like the LIFE Scholarship) for one year.

SC Other Drugs Laws

POSSESSION AND DISTRIBUTION OF DRUGS

It is illegal to have, to make, or to intend to distribute any controlled substance, i.e., cocaine, crack, marijuana, etc.

Penalty - Varies depending upon the circumstances under which the arrest was made and the amount of

drugs. Fines up to \$200,000, confinement up to 30 years, and mandatory driver's license suspension for 6 months - 1 year.
(Code 44-53-370)

DISTRIBUTION OF CONTROLLED SUBSTANCE CLOSE TO A SCHOOL

It is against the law and a separate offense to distribute, sell, make or have a controlled substance within a "specified" distance of schools, technical colleges, and/or colleges/universities.

Penalty - Fine up to \$10,000, and/or confinement up to 10 years.
(Code 44-53-445)

POSSESSION OR SALE OF DRUG PARAPHERNALIA

It is illegal to possess drug paraphernalia; paraphernalia includes, but is not limited to , such things as:

- "Roach clips" - Clips used by dentists to clip bibs around the necks of patients.
- "Bong" - Pipe that may or may not use water.
- "Carburetor" - Circulating tube with holes at each end. Tube may be made out of glass or metal.

Penalty - Fine up to \$500
(Code 44-53-391)
